

Professionalism in Practice

Monday, April 16, 2018
9:00 a.m. to 3:00 p.m.

5 hrs. – FAST
(light lunch provided)

Professionalism is an integral yet complex aspect of healthcare delivery and is an expectation for all healthcare professionals.

This interactive one day workshop will focus on concepts associated with professionalism in clinical and academic environments.

Learning Objectives -Participants will be able to:

- Describe assessment of professionalism
- Identify boundaries related to professionalism
- Apply professionalism in the use of Social media
- Discuss methods for teaching and promoting professionalism
