Welcome to McMaster University's Faculty of Health Sciences.

We are unique in Canada as a Faculty that trains physicians, nurses, physiotherapists, occupational therapists, physician assistants and midwives to work together as part of effective health care teams to provide the finest patient care.

Our Faculty thrives on a team approach to health care that goes beyond the tenet of various professionals interfacing with the patient and family. This approach represents a true partnership between the community and the University. Within McMaster's health care group is a broad spectrum of staff, faculty, students, alumni and community supporters, and our clinical partners. As a part time faculty member, you play a pivotal role in educating our students and in achieving the Faculty's goal of providing tomorrow's health care leaders.

Information for Part Time & Adjunct Faculty
