News & Events

CIHR Fall 2018 Postdoctoral Fellowship Award Competition – School of Graduate Studies Processes
This competition is being managed by the Office of Postdoctoral Affairs in the School of Graduate Studies. Applicants are encouraged to contact OPART at postdoc@mcmaster.ca for questions regarding required paperwork, deadlines and online submissions.

General Application Process:
- Applications are prepared and submitted by students on ResearchNet by the internal deadline set by McMaster. You will not be able to submit your application on ResearchNet until all the required “tasks” on ResearchNet are completed, including the sponsor “task.”

McMaster INTERNAL RESEARCHNET DEADLINE: Monday, October 29, 2018, 12:00pm
Sponsor info is due on RNet by October 27, 2018 before 12 noon
It is important to note that it is the applicant's sole responsibility to follow up with his/her sponsors to ensure that the assessments are submitted online by their sponsors no later than Saturday, October 27, 2018 12:00pm.

Complete instructions are available on our website.

Epilepsy Canada’s Annual General Meeting
Will be held on October 23, 2018 at 4pm ET. If you would like to listen please contact our Marketing and Events Manager Cole Donnelly at cdonnelly@epilepsy.ca and he will provide you with the details.

Research Project Management Course at UoT
Good project management is vital to the success of major research projects. UoT has developed a course specifically tailored for the project management of research projects. The course has been adapted for research project management through the collaboration of an Advisory Group of faculty and staff, the School of Continuing Studies, staff from the Division of the Vice-President, Research & Innovation, and the instructor, Dr. Alison Paprica. Dr. Paprica (Assistant Professor [status] at the U of T Institute of Health Policy, Management & Evaluation), was previously the Director responsible for up to $60 million/year of government research funding and has also led numerous large-scale R&D projects in the private, public and not-for-profit sectors.

The course is designed for faculty researchers, staff scientists, post-doctoral fellows, research coordinators and those interested in a path to management and research leadership. This is the second year the course is being offered. Last year, given demand for the fall course, we mounted an additional section for the winter.

Information and registration can be found at 3382 Project Management for Research.

Invitation for feedback: Prioritizing Future Challenges for Canada
Canada’s three research granting agencies, the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council of Canada, the Social Sciences and Humanities Research Council of Canada (CIHR, NSERC, SSHRC), and the Canada Foundation for Innovation, are seeking your expertise to help prioritize which future challenges identified through a recent horizon scan are considered most important for Canada.

Outcomes from this consultation may also be leveraged to support the priorities of the Canada Research Coordinating Committee (CRCC), notably to advance efforts in identifying key emerging research areas. Stakeholders from all four agencies are invited to participate in this consultation. Information on the CRCC’s priorities is available on the CRCC’s website. Building upon the success of SSHRC’s 2014 Imagining Canada’s Future initiative, the granting agencies partnered with Policy Horizons Canada, a federal centre of foresight expertise, to undertake a horizon scan as a first step in identifying
future challenges for Canada over the next 10 to 15 years.

Policy Horizons Canada drew on sources from across digital media, academic studies, and foresight projects to identify and analyze change data for its global scan. They also conducted a literature review of over 600 early change indicators, and examined additional materials produced by Policy Horizons Canada, government departments and agencies, and other organizations around the world. These approaches were complemented by an online questionnaire engaging various key networks and foresight communities from more than 60 countries.

The scan has identified 16 future challenges with the potential to shape society in profound ways, and which are all multi-disciplinary and require broad collaboration to address. The granting agencies ask that you select one top challenge, and explore its possible impacts through a brief survey. For the challenge you select, you will be asked a series of questions. You will have the option of repeating the exercise for a challenge you deem of next-most importance. The granting agencies are inviting input from a variety of individuals across the academic, private, public and not-for-profit sectors, in Canada and internationally. Beyond the 16 challenges identified in the horizon scan, you have the opportunity to identify additional challenges deemed critical to Canada’s future.

By taking part in their brief prioritization exercise, using the Futurescaper crowdsourcing tool, you will help to identify which challenges to consider for possible future programming and/or corporate activities. Once you have reviewed the 16 future challenges, the exercise will take you about 10 to 15 minutes to complete. To begin, please follow this link: FUTURE CHALLENGES PRIORITIZATION

Results of this foresight exercise will be available by spring 2019. Responses are anonymous, and results will be aggregated to ensure anonymity.

Compilation of GDPR Guidances Now Available
The Office for Human Research Protections has developed a new resource for IRBs, researchers, and sponsors that are involved in human subjects research in Europe. Titled Compilation of European GDPR Guidances, the document lists the data protection authorities of all European countries that fall under the new E.U. General Data Protection Directive (GDPR). For each country, the compilation also provides the links to any general GDPR guidances, as well as specific guidances on the topics of Research, Legal Basis, Consent, and International Data Transfer.

The new Compilation is available here:
https://www.hhs.gov/ohrp/international/index.html

Canada Foundation for Innovation (CFI) – Planning for Innovation Fund 2019
The CFI Innovation Fund (IF) enables institutions to strengthen their research infrastructure in priority areas. An eligible infrastructure project involves the modernization, acquisition, development of research infrastructure with the goal of enabling Canadian researchers to tackle ground-breaking projects. We have indications that CFI plans to release a Draft Call for Proposals for the IF in the beginning of 2019.

CFI limits the amount of funding an institution may request. As such, we must be highly strategic in the applications selected for submission.

Anyone interested in submitting an IF application must meet with Dr. Bramson to discuss:
- the excellence, innovation and viability of the proposed research program;
- the need for additional infrastructure;
- eligibility and fit with the Innovation Fund mandate;
- the planned location for this project and the plan for sustainability.

To schedule a meeting, please contact Jenn Seager, ext. 22184; seagerj@mcmaster.ca

For any programmatic questions, please contact Tracy Arabski, Director Health Research Services; ext. 22515; arabski@mcmaster.ca

**CIHR – SPOR Summit 2018 Patient Travel Awards**

Canada’s Strategy for Patient-Oriented Research (SPOR) is an initiative that puts patients first. SPOR provides the evidence needed to inform the development of health policies and improve the health care system. It is about putting scientific discoveries into practice and producing the information decision-makers and health care providers need to improve care. SPOR is about using the power of research to make our health care system more efficient and effective, ultimately improving the health outcomes and care experience for patients. Patient-oriented research refers to a continuum of research that engages patients as partners, focuses on patient-identified priorities and improves patient outcomes. This research, conducted by multidisciplinary teams in partnership with relevant stakeholders, aims to apply the knowledge generated to improve healthcare systems and practices. Note that “patients” is an
overarching term that includes individuals with personal experience of a health issue and informal caregivers, including family and friends.

**Funding Details:** The total amount available for this funding opportunity is $100,000, enough to fund up to 75 awards.

**Additional Details**
**Internal HRS Deadline:** October 18, 2018
**Sponsor Deadline:** November 1, 2018

### CIHR – Doctoral Research Award: Vanier Canada Graduate Scholarships 2018-2019
The Vanier Canada Graduate Scholarship (Vanier CGS) was created to attract and retain world-class doctoral students and to establish Canada as a global centre of excellence in research and higher learning. It is available to both Canadian and international PhD students studying at Canadian universities. The program is jointly administered by Canada’s three federal granting agencies: the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC) and the Social Sciences and Humanities Research Council (SSHRC). CIHR has been designated as the operational lead for the implementation of the program. For further information about this funding opportunity, please consult the [Vanier CGS](#) website.

**Funding Details:** The total amount available for this funding opportunity is $24,900,000, enough to fund approximately 166 awards. The maximum amount per award is $50,000 per year, for up to three (3) years and a total of $150,000 per award. This funding is non-renewable.

**Additional Details**
**Contact Correen Smith in Graduate Studies to Apply**
**Sponsor Deadline:** October 31, 2018

### CIHR - Fellowship
CIHR’s [Health Research Training Strategy](#) aims to **equip** research trainees so that they emerge from their training as scientific, professional, or organizational leaders within and beyond the health research enterprise. Generating [Research Leaders of tomorrow](#) is a key objective for CIHR. Fellowships provide support for highly qualified applicants in **all areas of health research** at the post-PhD degree or post-health professional degree stages to add to their experience by engaging in health research either in Canada or abroad.

**Funding Details:** The awards consist of a stipend and a research allowance and are valued in Canadian dollars. It is anticipated that approximately $21 million over five years will be available through this competition. The maximum amount awarded for a single award is up to $60,000 per annum for up to 5 years. The value and duration of each award is determined by the degree(s) held, licensure (where applicable), location of tenure and experience of the applicant.

**Additional Details**
**Contact Correen Smith in Graduate Studies to Apply**
**Sponsor info is due on RNet by October 27, 2018 before 12 noon**
** Graduate Studies Internal Deadline:** October 29, 2018
**Sponsor Deadline:** November 1, 2018

### CIHR – Team Grant: HIV/AIDS Biomedical and Clinical Research
The Team Grant: HIV/AIDS Biomedical Clinical Research funding opportunity is expected to contribute to the global search for a safe and effective cure for HIV, and to develop prevention strategies and tools. The specific objectives of this funding opportunity are to:
- transform HIV biomedical and clinical research in Canada into a collaborative, interdisciplinary model of knowledge creation and application through the funding of innovative research programs;
- create an inclusive and sustainable pipeline of HIV research capacity from across disciplines, sectors, and perspectives (e.g., HIV basic scientists, clinical investigators, knowledge users and/or community members [people living with HIV]);
- effectively translate knowledge into clinical and/or commercial applications which contribute to the design, development and evaluation of research strategies; and
- create a critical mass of technical and scientific expertise in Canada that engages meaningfully with one another and with relevant national stakeholders, and participates in international research efforts.

**Funding Details:** The total amount available for this funding opportunity is $20,000,000, enough to fund approximately 6 grants.
CIHR – Indigenous Gender and Wellness: Idea Fair and Learning Circle
The specific objectives of this funding opportunity and the Idea Fair and Learning Circle are to:

- Foster a safe space for Indigenous Peoples to share ideas on Indigenous gender and wellness with supporters who will help them to grow their ideas into fundable projects.
- Facilitate knowledge sharing and learning to develop and strengthen Indigenous-focused projects.

Funding Details: The total amount available for this funding opportunity is $800,000, enough to fund approximately 160 awards.

CIHR – Catalyst Grant: SPOR Innovative Clinical Trials
The Strategy for Patient-Oriented Research (SPOR) is a national coalition of federal, provincial and territorial partners (patients and informal caregivers, provincial health authorities, academic health centres, charities, philanthropic organizations, private sector, etc.) dedicated to the integration of research into care. Patient-oriented research refers to a continuum of research that engages patients as partners, focusses on patient-identified priorities and improves patient outcomes. This research, conducted by multidisciplinary teams in partnership with relevant stakeholders, aims to apply the knowledge generated to improve healthcare systems and practices. Clinical trials are one of the elements of SPOR that responds to its goals to strengthen organizational, regulatory and financial support for clinical studies in Canada, and enhance patient and clinician engagement in research. Under this element, the Innovative Clinical Trials (iCT) initiative aims to build capacity and increase the intensity of iCT research. iCTs use designs that are alternative to traditional Randomized Controlled Trials (RCT) with application in areas ranging from product development to health system improvement. ICT methods can reduce the cost of conducting trials, reduce the amount of time needed to answer research questions, and increase the relevance of research findings to patients, health care providers and/or policy makers. Adopting these alternative designs can maximize the use of existing knowledge and data.

Funding Details: The total amount available for this funding opportunity is $1,000,000, enough to fund approximately ten (10) grants. The maximum amount per grant is $100,000 for up to one year.

CIHR - IPPH Trailblazer Award
The CIHR-IPPH Trailblazer Award is expected to:

- Recognize the exemplary efforts and activities of exceptional Canadian researchers at different career stages who have created a highly influential body of work that has had a substantial impact on the field of population and public health research and its use in policy and/or practice in Canada and/or internationally. This award will identify trailblazers in public health based on the following criteria:
  1. Level of impact and experience in Canada and/or internationally in one or more of the relevant research areas in population and public health research.
  2. Level of influence on policy and/or practice in Canada and/or internationally in one or more of the relevant research areas in population and public health research.
  3. Extent of achievements in Canada and/or internationally in the areas of leadership, mentorship, and capacity building at the individual or institutional level in the area of population and public health research.

Funding Details: The total amount available for this funding opportunity is $37,500, enough to fund approximately three awards. The maximum amount per award is $10,000 plus an additional $2,500 for travel and accommodation for an event organized by CIHR.
**Sponsor Deadline: November 15, 2018**

### CIHR – Operating Grant: Geroscience Demonstration Grants

The Geroscience Demonstration Grants are expected to:

- Accelerate, catalyze, and build capacity for research on the early prevention of chronic diseases in aging using a geroscience approach.
- Support the creation of new knowledge to improve our understanding of the relationship between mechanisms in the biological processes of aging and the development of one or several chronic conditions (e.g., diabetes, cancer, neurodegenerative diseases, arthritis, cardio-respiratory diseases).
- Support research using a geroscience approach that could lead to potential clinical impacts.

**Funding Details:** The total amount available for this funding opportunity is $3,600,000, enough to fund approximately 8 grants. The maximum amount per grant is $150,000 per year for up to 3 years for a total of $450,000 per grant. This amount may increase if additional funding partners participate.

### Additional Details

**Internal HRS Deadline:** November 1, 2018

**Sponsor Deadline:** November 15, 2018

### CIHR – Master’s Award: Frederick Banting and Charles Best Canada Graduate Scholarships

The specific objective of the Government of Canada’s Canada Graduate Scholarships program is to help ensure a reliable supply of highly qualified personnel to meet the needs of Canada’s knowledge economy. The Canada Graduate Scholarships Master's Awards are intended to provide special recognition and support to students who are pursuing a Master’s degree in a health related field at a Canadian institution. These candidates are expected to have an exceptionally high potential for future research achievement and productivity.

**Funding Details:** The total amount available for this funding opportunity is $7M, enough to fund approximately 400 awards. Trainee stipend: $17,500 for 12 months, non-renewable.

### Additional Details

**Contact Correen Smith in Graduate Studies to Apply**

**Sponsor Deadline:** December 3, 2018

### CIHR – Centres for HIV/AIDS, Hepatitis C and other STBBIs Research

The Centres for HIV/AIDS, Hepatitis C and other STBBIs Research are expected to improve health and access to effective programs and services for people living with and at risk of HIV, Hepatitis C and other STBBIs, particularly for populations most affected. The specific objectives of the Centres are to:

- foster coordination of research efforts by developing and supporting a network of collaborative Centres;
- develop and/or strengthen high quality infrastructure for implementation science, health services and population health research to enable Canadian HIV, Hepatitis C and other STBBI researchers to conduct innovative, high quality, collaborative research;
- facilitate implementation science, health services and population health research training and mentoring initiatives to strengthen the capacity of trainees; and
- accelerate the translation and uptake of knowledge and implementation of evidence to inform practices, policies and programs through models of integrated knowledge translation and innovative strategies that engage stakeholders and partners (including people living with HIV, community organizations, clinicians, policy makers and relevant networks).

**Funding Details:** The total amount available for this funding opportunity is $10,000,000, enough to fund approximately two to three grants. This amount may increase if additional funding partners participate. Centres may be variable in size; it is anticipated that requested budgets will range from $400,000 to $1,000,000 per annum. The maximum amount per grant is $1,000,000 per year for up to 5 years for a total of $5,000,000 per grant.

### Additional Details

**Internal HRS Deadline:** November 27, 2018

**Sponsor Deadline:** December 11, 2018
CIHR – Team Grant: SPOR ICT Rewarding Success – Phase 3

The Strategy for Patient-Oriented Research (SPOR) is a national coalition of federal, provincial and territorial partners (patients and informal caregivers, provincial health authorities, academic health centres, charities, philanthropic organizations, private sector, etc.) dedicated to the integration of research into care. Patient-oriented research refers to a continuum of research that engages patients as partners, focusses on patient-identified priorities and improves patient outcomes. This research, conducted by multidisciplinary teams in partnership with relevant stakeholders, aims to apply the knowledge generated to improve healthcare systems and practices. All recipients of funding through SPOR are required to adhere to the following principles:

- Patients need to be involved in all aspects of the research to ensure questions and results are relevant;
- Decision-makers and clinicians need to be involved throughout the entire research process to ensure integration into policy and practice;
- Funding under SPOR is based on a 1:1 matching formula;
- Effective patient-oriented research requires a multi-disciplinary approach; and
- SPOR is outcome driven and incorporates performance measurement and evaluation as integral components of the initiative.

Funding Details: The total amount available from CIHR for this funding opportunity is $12,000,000, enough to fund approximately five grants. The maximum amount per grant is $600,000 per year for up to four years for a total of $2,400,000.

Additional Details
Internal HRS Deadline: December 20, 2018
Sponsor Deadline: January 10, 2019

CIHR – Team Grant: Transitions in Care

The TiC team grants are expected to:

- Produce results that are applicable, adaptable and ready for equitable spread and scale by a health provider through implementation research that is relevant to patients, communities, and decision-makers;
- Improve health outcomes, patient experience, effectiveness, and lower the cost of care within two (2) or more of the TiC focus areas through identifying, evaluating and implementing evidence-based and/or effective solutions, including eHealth solutions;
- Build novel multi-disciplinary and trans-disciplinary collaborations and partnerships with individuals and organizations in Canada that have interest in transformative research in care transitions by promoting engagement, recognition and respect for health research expertise across an array of health disciplines, research pillars, and industry;
- Build and promote relevant transitions in care research capacity, including training and early career development, by supporting teams that actively engage established researchers, early career investigators, trainees, and knowledge-users.

Funding Details: The total CIHR amount available for this funding opportunity is $9.6 million enough to fund approximately ten (10) grants. This amount may increase if additional funding partners participate.

Additional Details
Internal HRS Deadline: January 10, 2019
Sponsor Deadline: January 24, 2019

CIHR – Team Grant: Food Security and Climate Change in the Canadian North

The Food Security and Climate Change in the Canadian North Initiative funding opportunity is expected to:

- Create new knowledge about the magnitude and health effects of climate change on food security in the Canadian North and Northern Indigenous populations by incorporating Indigenous knowledge and land-based experience regarding traditional/country food sources.
- Identify effective approaches, programs and policy to address food insecurity in the North through implementation science.
- Build capacity for multidisciplinary research in the area of food security and climate change in the Canadian North that has strong and meaningful engagement with Indigenous communities and organizations.

Funding Details: The total amount available for this funding opportunity is $3.12 million. This amount may increase if additional funding partners participate.

Additional Details
CIHR – Team Grant: Human Immunology Initiative: Research Teams
The Human Immunology Research Teams are expected to:

- Generate new scientific knowledge that will advance our understanding of human immunology as it relates to autoimmune diseases, with appropriate consideration of sex-related mechanisms, in order to improve the health of Canadians living with autoimmune diseases.
- Leverage the Standardization Core by encouraging collaboration with the Core and utilization of the Core’s research methodologies where possible.
- Develop and strengthen research capacity by providing training opportunities to the next generation of human immunology researchers in the field of autoimmune diseases.

Funding Details: The total amount available for this funding opportunity is $6,560,000 (not including Additional Partner Funding). This amount may increase if additional funding partners participate.

Additional Details
LOI Deadline: October 25, 2018
Internal HRS Deadline: March 20, 2019
Sponsor Deadline: April 3, 2019

CIHR – Team Grant: Canadian Microbiome Initiative 2: Research Teams
The objectives of the Canadian Microbiome Initiative 2 Research Teams funding opportunity are to:

- Create knowledge through translational research on the causational links between microbiome and human health and disease, with consideration of sex as a biological variable and gender as a social determinant of health.
- Encourage interdisciplinary collaborations and foster Canadian expertise in microbiome and human health and disease to build synergies, and facilitate the sharing of data and resources.
- Build upon and further the platforms and services provided by the CMI2 Research Core to build synergies, facilitate the sharing of data and resources and facilitate knowledge translation.

Funding Details: The total amount available for this funding opportunity is $14,350,000 (not including Supplementary Partner Funding). This amount may increase if additional funding partners participate.

Additional Details
LOI Deadline: October 16, 2018
Internal HRS Deadline: May 21, 2019
Sponsor Deadline: June 4, 2019

Hamilton Health Sciences JHCCF Grants Fall 2018
Staff at Juravinski Hospital and Cancer Centre are invited to submit grant applications to The Foundation for funding support in the areas of Research and Education. Juravinski Hospital and Cancer Centre Foundation’s (JHCCF) main purpose is to champion and advance the vision and mandate of the Juravinski Cancer Program (JCP). Through the generosity of our donors, we fund capital redevelopment projects, purchase medical equipment and technology, and invest in research and the professional development of our staff. As part of its commitment to research, the Foundation sponsors a Research Grant Program that awards funding through a rigorous peer reviewed application process, once or twice yearly.

Funding Details: Total Research Funds Available - $310,600

Cystic Fibrosis Canada: 2018 Targeted Research Competition
The objective of the Targeted Research Competition is to support research focused on the following two priority areas, and knowledge gaps within these areas:
• Screening, monitoring, and management of cystic fibrosis-related diabetes (CFRD) with the goal of reducing the burden of care. Areas of focus:
  o Development of more efficient and patient-friendly screening tools;
  o Development or adaptation of new, less invasive therapies to treat CFRD.

• Gastrointestinal symptomatology Areas of focus:
  o Development of a validated tool to reliably quantify gastrointestinal pain and symptoms;
  o Address the etiology of gastrointestinal pain and symptoms, including the validation of biomarkers of gut health or gastrointestinal quality of life.

**Funding Details:** $100,000 per year for 2 years.

**Internal HRS Deadline:** October 17  
**Sponsor Deadline:** October 31, 2018

---

**Canadian Orthopaedic Foundation: Canadian Orthopaedic Research Legacy (CORL) Grant**

In this proposal, applicants are expected to provide a systematic, logical description of the project or line of research, which demonstrates familiarity with the subject matter and a carefully formulated plan of implementation. The rationale, the project plan, the methods and procedures to be used, the mode of analysis to be employed should be clearly outlined. In general terms, the proposal describes the work, proceeding from general theoretical considerations to the specific project, culminating in a budget. The budget qualifies the work in terms of personnel, materials, services or other requirements.

**Funding Details:** Awards are in the amount of $20,000.

**Additional Details**

**Internal HRS Deadline:** October 17  
**Sponsor Deadline:** October 31, 2018

**Canadian Orthopaedic Foundation: J. Edouard Samson Award**

The premier award for orthopaedic research in Canada, the J. Édouard Samson Award, recognizes the best career orthopaedic research over a period of five (5) years or more at a Canadian centre. This $30,000 award is intended to promote further research by the recipient. The recipient will present his/her research at the Annual General Meeting of the Canadian Orthopaedic Association (presentation opportunity to be determined). The award consists of an educational grant and a personal research grant to be used by the recipient at the Canadian institution where he/she currently resides. This award is decided based on review and recommendation by the Canadian Orthopaedic Foundation’s Research Committee to the Canadian Orthopaedic Foundation’s Board of Directors.

**Funding Details:** $30,000 over a period of 5 years or more

**Hamilton Health Sciences Health Professional Investigator Operating Grant**

The Health Professional Investigator (HPI) Operating Grant provides project funding to principal investigators (PI) who are HHS-employed healthcare professionals. Inter-professional teams, which include physicians, are encouraged, but physicians are not eligible to apply as lead PI for this grant. The HPI Operating Grant is for research initiatives directly relevant to the clinical mission and priorities/strategic plan of HHS (Patients, People, Sustainability, Innovation and Learning). The grant objective is to provide support for pilot studies or research projects that have the potential to lead to larger projects and the possibility of external funding. The HPI Operating Grant offers an opportunity to foster and support a culture of inquiry for novice to novice to mid-career investigators under the mentorship of experienced researchers.

Escher Fund for Autism: Investigation of F2 Neurodevelopmental outcomes of F0 pregnancy or F1 Neonatal General Anesthesia

The study by Ju et al, Role of epigenetic mechanisms in transmitting the effects of neonatal sevoflurane exposure to the next generation of male, but not female, rats, found neonatal exposure to sevoflurane can affect the next generation of males via germline mediated epigenetic mechanisms, while females were at diminished risk. The study is not the first animal model to observe a next-generation effect of GA. In 1981, Chalon et al found learning retardation in offspring of murine parents exposed to GA in utero—in other words, mental impairment in the grandpups of the exposed gestating dams. See Exposure to halothane and enflurane affects learning function of murine progeny. And in 1984 the same lab noted that alterations to reproductive cells of adult male mice via the GA agent enflurane adversely affected learning function of their offspring.

Postdoctoral Funding Opportunity – DeGroote Fellowship Awards

The Michael G. DeGroote Fellowship Awards are an opportunity for excellent postdoctoral candidates to pursue top-level research training. First awarded in 2008, the awards provide funding to research-intensive individuals looking to further their academic career in the Faculty of Health Sciences at McMaster University.

Eligibility
Only candidates who are (a) external to McMaster, or (b) internal students who have yet to begin postdoctoral or health professional degree studies at McMaster, or (c) internal students who began their postdoctoral or health professional degree studies at McMaster no earlier than January 1, 2018, will be eligible for the awards. For candidates who hold (or are completing) a PhD, the proposed supervisor(s) listed in their application must be different than their PhD supervisor. Priority will be given to those applicants whose graduate training has not been exclusively at McMaster.

Expectations
It is expected that winning applicants will seek out and attain external funding within their one-year award term. Supervisors are expected to assist their candidates in doing so.

Further Information
For more information on the awards, please visit the awards website or send any questions to mgdfa@mcmaster.ca.

Funding Details: Each award provides non-renewable funding of $50,000 for one year for successful applicants. The funding is comprised of $40,000 from the Michael G. DeGroote Health Sciences Development Fund and $10,000 contributed by the applicant’s supervisor.

Alzheimer’s Drug Discovery Foundation: Core Requests for Proposals

The ADDF offers funding to researchers in both nonprofit and for-profit organizations for drug discovery, clinical trials, and biomarker development. Visit their Research Priorities for specific information about our interests. The majority of funding is provided through four Core Requests for Proposals (RFPs). Letters of intent are accepted and reviewed on a rolling basis during four cycles each year, with corresponding deadlines for invited full proposals. Check back throughout the year for additional funding opportunities through their collaborations with non-profit, government, and industry partners.

Funding Details:
- Program to Accelerate Clinical Trials (PACT) RFP – Up to $3 million based on stage and scope of research. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged.
• **Biomarkers Development RFP** - $150,000-$300,000 based on stage and scope of research for 1-2 years with potential for follow-on funding. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged.

• **Prevention Beyond the Pipeline RFP** - $50,000-$100,000 for epidemiological analyses based on scope of research. Up to $3 million based on stage and scope of research. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged. One year for epidemiological analyses. Varies (multi-year) for clinical trials.

• **Drug Discovery RFP** - $150,000-$600,000 based on stage and scope of research. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged. One year with potential for follow-on funding. Multi-year proposals can be considered.

**Alzheimer Society Research Program (ASRP) 2019 Competition**

The Alzheimer Society Research Program (ASRP) is a successful collaborative initiative of our Federation, within which all the provincial Alzheimer Societies, the Alzheimer Society of Canada (ASC), partners and donors pull together to support research directed at both eradicating dementia and ameliorating the lives of those affected by it. The ASRP provides grants and awards to support Canadian studies that promise new insights into causes, prevention, diagnosis, treatment and management of Alzheimer’s disease and other dementias.

**Awards**

- Doctoral Awards provide an opportunity for promising individuals, pursuing a PhD, to begin the process of becoming future independent investigators in the field of Alzheimer’s disease and other dementias.
- Postdoctoral Awards are for graduates with a PhD or MD who wish to gain additional research experience within an established research environment.

**Grants**

- New Investigator Grants are designed to help launch the careers of outstanding researchers who are within the first 2 years of their initial academic appointment.
- Regular Grants are designed to fund established researchers.

**Funding Details:**

- **Doctoral** - $22,000 per year for 3 years.
- **Postdoctoral** - $41,500 per year(PhD) or $51,500 per year(MD) for 2 years.
- **New Investigator Grant** - $75,000 per year for 3 years.
- **Research Grant** - $75,000 per year for 2 years.

**Bill & Melinda Gates Foundation: Grand Challenges Explorations**

The Bill & Melinda Gates Foundation is inviting proposals for the latest round of the Grand Challenges Explorations initiative. Applications on the following six topics will be accepted until Wednesday, November 14, 2018 11:30 am PST:
Increasing Demand for Vaccination Services
New Approaches for Manufacturing Gut Microbial Biotherapeutics
Innovation for WASH in Urban Settings
New Approaches for Strategic Prioritization of Agricultural Development Policies
Tools and Technologies for Broad-Scale Pest and Disease Surveillance of Crop Plants in Low-Income Countries
Innovations Driving Programmatic Performance in Immunization: Service Experience and Data Use + Measurement

We also invite all who have applied to Grand Challenges Explorations over its 10-year history to fill out a short survey. This survey was sent to you on August 2 from our research partner, the National Business Research Institute (NBRI). Thank you to the over 5,000 who have already responded. We will be resending the survey to those who have not yet responded. We hope to learn as comprehensively as possible what direct and indirect impact the initiative has had, whether the proposal was funded by the Gates Foundation or not – and we expect to identify ways we can improve this way of seeking and funding great ideas from all over the world.

**Funding Details:** Initial grants are for USD $100,000 and successful projects are eligible to receive follow-on funding of up to USD $1 million.

**Additional Details**

**Social Sciences and Humanities Research Council (SSHRC): Partnership Development Grants**

**Collaborative Housing Research Network Initiative**

A new SSHRC/CMHC joint initiative is now available for PDG applicants. SSHRC and CMHC are partnering to fund research related to housing in order to help set the stage for the creation of a Collaborative Housing Research Network. Research projects undertaken by teams composed of academics, as well as non-academics, will focus on 5 priority areas that were determined by CMHC:

- Housing for those in greatest need
- Community Housing Sustainability
- Northern Housing
- Sustainable Housing and Communities
- Balanced Supply of Housing

The first stage of this two-stage competition will be through the Partnership Development Grants competition. Successful applicants will be invited to submit a proposal at the second stage.

**Funding Details:** $75,000 to $200,000 1 to 3 years

**Additional Details**

**Notify ROADS of Intent to Apply:** August 30, 2018
**Draft Application Due to ROADS:** October 16, 2018
**Final Application Due to ROADS:** November 8, 2018

*To Apply, Contact Christina Pellegrini, Senior Advisor, Development, ROADS at pellegrc@mcmaster.ca or extension 27207*

**Social Sciences and Humanities Research Council (SSHRC): Partnership Development Grant**

The objective of the Partnership Development Grantis to provide support to new or existing formal partnerships to:

- Develop research and/or related activities, knowledge mobilization, and the meaningful involvement of students/emerging scholars in the social sciences and humanities, by fostering new partnerships with existing and/or potential partners; or
- Design and test new partnership approaches for research and/or related activities that may result in best practices/models that either can be adapted by others or have the potential to be scaled up to a regional, national, or international level.

**Funding Details:** $75,000 to $200,000 over 1-3 years

**Additional Details**

**Draft Application Due to ROADS:** October 16, 2018
Canadian Hemophilia Society (CHS) Research Programs: Dream of a Cure
The CHS Dream of a Cure Research Program, through funds provided by the Hemophilia Research Million Dollar Club and the Canadian Hemophilia Society, supports research focused on improving the health and the quality of life of all people with inherited bleeding disorders and finding a cure. The Canadian Hemophilia Society invites applicants to apply for basic scientific research grants in fields relevant to hemophilia A and B, von Willebrand disease, rare factor deficiencies, platelet function disorders (and platelet pathophysiology) and other congenital and acquired bleeding disorders.

Funding Details: Individual grants valued at $75,000 per year and per project will be awarded to researchers for a maximum of $150,000 which can be expended over 2 or 3 years.

Additional Details
Internal HRS Deadline: November 1, 2018
Sponsor Deadline: November 15, 2018

Canadian Hemophilia Society (CHS) Research Programs: Pfizer Care until Cure Research Program
This program allows Canadian investigators to conduct research on medical and psychosocial aspects of bleeding disorders, including outcome evaluation. Grants are awarded for clinical research in fields relevant to improving the quality of life for persons with hemophilia, persons with von Willebrand disease or other inherited bleeding disorders, persons with related conditions such as HIV or hepatitis C, and carriers of an inherited bleeding disorder.

Funding Details: Individual grants valued at $75,000 per year will be awarded to researchers for a maximum of $150,000 which can be expended over 2 or 3 years.

Additional Details
Internal HRS Deadline: November 1, 2018
Sponsor Deadline: November 15, 2018

Canadian Hemophilia Society (CHS) Research Programs: Novo Nordisk Psychosocial Research Program
The Canadian Hemophilia Society – Novo Nordisk Canada Psychosocial Research Program was created to engage professionals/graduate students from the allied health disciplines (ie. Nursing, Physiotherapy & Social Work) in research activities addressed to understanding the psychosocial impact of hemophilia and other inherited bleeding disorders and to improve the quality of life of persons and families whose lives are affected by these disorders. The Research Grants are made possible thanks to generous financial support from Novo Nordisk Canada. Novo Nordisk develops, manufactures and markets products that make a significant difference to patients, the medical profession and society. Novo Nordisk has a leading position within areas such as coagulation disorders, growth disorders and hormone replacement therapy. In addition, Novo Nordisk is also the world leader in diabetes care. The CHS is proud to be in a partnership with Novo Nordisk in order to offer this important Research Program.

Funding Details: The primary intent of this program is to offer one or two $20,000 research grants, to a maximum of $40,000 for one year.

Additional Details
Internal HRS Deadline: November 1, 2018
Sponsor Deadline: November 15, 2018

Hamilton Health Sciences Early Career Awards
The Hamilton Health Sciences Research Early Career Awards are research personnel stipends awarded annually. These Early Career Awards are to be used to help the applicant pursue research in their specialty area through either purchasing a portion of time for the applicant’s salary OR a portion of time for salaries of research personnel who are supervised by the applicant.
Funding Details: Funding will be allocated to support up to eight awards each year. The value of each award will be up to $50,000 annually. Benefits are not included. The duration of the award will be up to three years.

Fulbright Canada: Awards for Canadian Scholars
Fulbright Canada has recently announced the following Awards for Canadian Scholars:

1) Canadian Traditional Scholar Awards, the objective: to enable emerging and established scholars, post-doctoral researchers and experienced professionals to conduct research, teach, or undertake a combination of both activities for one semester or a full academic year at any university or research center of their choice in the United States. Fulbright Canada is particularly interested in encouraging research on contemporary issues relevant to Canada, the United States, and the relationship between the two countries. Applicants should also clearly document the need to be in residence in Canada to carry out the project. Additional Details

2) Canadian Visiting Research Chairs are pre-arranged affiliations that allow scholars to conduct research/lecture on subjects important to that university. Partner universities are excited to welcome the Fulbright Visiting Chairs into campus life and encourage them to engage with students, faculty, and the broader community. Fulbright Visiting Research Chairs can guest lecture in university courses, mentor students, lecture in public venues, network, and promote their research, while representing the Fulbright program, and their home and host institutions. Additional Details

Funding Details:
• Canadian Traditional Scholar Awards - up to $12,500 for one semester, September 2019 or January 2020
• Canadian Visiting Research Chairs – up to $25,000 for one semester, September 2019, or January 2020

Internal HRS Deadline: November 1, 2018
Sponsor Deadline: November 15, 2018

Canadian Blood Services: BloodTechNet Award Program
The Objective: To support the development of innovative educational projects that network the Transfusion, Cellular Therapy and Transplantation communities in Canada. These projects deliver educational tools and resources that support the development of skills, knowledge, and expertise of the health professionals in this network. The Applicant must be a health professional belonging to the transfusion, cellular therapy and/or transplantation communities in Canada. The Program is targeted towards Medical Lab Technologists, Nurses, and Physicians.

Funding Details: Max of $50,000 for 1 year.

Additional Details
Internal HRS Deadline: November 16, 2018
Sponsor Deadline: November 30, 2018

Canadian Blood Services: Kenneth J. Fyke Award
The objective: To support health services and policy research to promote the development of evidence-based Canadian practices and policies in blood transfusion, blood stem cell transplantation, organ and tissue transplantation for the benefit of Canadian patients.

Funding Details: Max of $100,000 for 1 year.

Additional Details
Internal HRS Deadline: November 16, 2018
Sponsor Deadline: November 30, 2018

Quebec Consortium for Drug Discovery (CQDM): Quantum Leap
The objective of the Quantum Leap funding opportunity is to 1) support innovative, translational biopharmaceutical research projects, 2) enable technologies, innovative platforms and/or innovative therapies, 3) fund projects that a) focus on developing

2018
cutting-edge technologies with the potential to significantly advance the R&D activities of CQDM’s pharmaceutical members, and b) have potential to significantly improve, facilitate and/or accelerate the drug discovery process, and the development of safer and more effective drugs. The technologies of interest can be at any stage of the drug development process and involve a wide range of therapeutic indications. Projects are associated with specific deliverables and must be ready for use by CQDM pharmaceutical members upon completion.

**Funding Details:** $500,000 - $1,200,000 over 1-3 years.

**Additional Details**

**Internal HRS Deadline:** November 16, 2018  
**Sponsor Deadline:** November 30, 2018

**WestGrid: Visualize This! Challenge**

Visualize This! Challenge is a Canada-wide competition that aims to celebrate the innovative ways visualization can help researchers explore datasets and answer important scientific questions. Visualize This! provides an opportunity to challenge your creativity, experiment with new visualization tools, and contribute to the growth of data visualization in Canada. This year the challenge is comprised of two separate competitions:

- Scientific visualization challenge based on a molecular dynamics simulation dataset, and
- Humanities visualization challenge based on the Orlando British Women’s Writing Dataset.

Both datasets will be made available on the competition webpage, and participants may download any time after October 1, 2018. Submissions will be reviewed by members of the Compute Canada Visualization Team. Points will be given for: Interactive visualizations; visualizing the 3D multi-scale nature of the data; Online presentation in a browser; and clear innovative display of multiple variables. Participants from all research fields are encouraged to enter.

**Prize Details:**

- High-capacity external SSD drives
- Free registration and subsidized travel to a WestGrid 2019 Research Computing Summer School
- Your visualization showcased on the websites of Compute Canada, WestGrid, Compute Ontario, Calcul Québec, and ACENET.
- Opportunity to present to the research community at an upcoming Compute Canada/WestGrid event

**Canadian Open Neuroscience Platform Studentships Program**

Our Scholar program will support and create a new network of highly-qualified personnel who are currently pursuing an advanced degree (e.g. PhD, MS, PharmD, or JD) in order to undertake - for a period of up to one year a specific collaborative project that is directly related to building platforms, resources, datasets, analytics or disseminating neuroscience results that will contribute to the advancement of open neuroscience. Examples of potential projects include:

- a database linking key results across organisms or two or more data modalities;
- building an open science publishing or communication tool for the global dissemination of high dimensional sequencing or gene expression data;
- novel approaches to standardizing large-scale data;
- engaging multiple CONP stakeholders in an open data framework to foster the identification and timely advancement of early-stage clinical targets with therapeutic potential in neurological disorders. Scholars supported by CONP will be encouraged to publish their work in traditional journals, as well as disseminate their work via non-traditional open science platforms relevant for their specific project, whether this be a programming workspace, arXiv, bioRxiv, a blog, or another format.

**Funding Details:** Up to $25,000 per year.

**Internal HRS Deadline:** November 16, 2018  
**Sponsor Deadline:** November 30, 2018
ERS and The Union Joint Public Health Fellowship in Respiratory Infections

The ERS and The Union Joint Public Health Fellowship in Respiratory Infections aims to build capacity in the area of respiratory epidemiological/public health, population-based research by providing a fellowship recipient with the opportunity of a 12-month fellowship based at one of The Union’s offices. The first pilot fellowship scheme will take place at The Union’s office in India, with one selected fellow starting a 12-month fellowship between 1 June and 1 November 2019.

The fellowship: Project Axshya, a unique civil society initiative, is implemented in India by The Union South East Asia Office supported by The Global Fund. The project is being implemented in 128 districts across 14 states to increase the visibility and accessibility of the TB program services, with special focus on marginalized and vulnerable communities who are at most at risk of developing TB. The project’s key objective is early case detection through active case finding (ACF) among high risk population groups. The key interventions implemented include:

- Door-to-door screening of high-risk population groups for TB
- Health camps in congregate settings like prisons, shelter homes etc.
- Fast tracking of presumptive TB patients in high case load health facilities.
- Active surveillance through village level volunteers in identified villages.

Funding Details: Annual in EURO Gross living stipend (total for 12-month period) 36’000.- (3’000.- monthly) One off travel allowance 1’200.- (one off) Childcare support allowance, if applicable (per one child, total for 12-month period) 4’200.- (350.- monthly)

Contribution towards visa / work permit provided by The Union, if applicable 500.- (one off).

MITACS JSPS Summer Program

The Mitacs-JSPS Summer Program, offered in partnership with the Japan Society for the Promotion of Science (JSPS) provides opportunities for graduate students and postdoctoral fellows in Canada to pursue collaborative research in Japan, allowing them to advance their own research while promoting scientific progress in both Japan and Canada.

Program Details
- Open to: graduate students and postdoctoral fellows at Canadian universities in all disciplines
- Citizenship: Canadian citizens and permanent residents
- Funding: JSPS arranges round-trip airfare and insurance. Mitacs and JSPS provide an allowance for the student or postdoctoral fellow (equivalent to 534,000 yen in total). Host supervisors are eligible for a research support allowance.
- Destination: universities and research institutes in Japan
- Project length: 10 weeks (June 11-August 21, 2019; dates are tentative and subject to change)

Funding Details: For each approved award, JSPS will provide:
- Round-trip airfare. Flight arrangements are made by JSPS’s designated travel agent based on JSPS regulations.
- Maintenance Allowance (534,000 yen, less $3,000 CAD from Mitacs paid to the Canadian home university), as well as hotel room charges at Narita and Tokyo, and meals and accommodation charges at SOKENDAI.
- Insurance during participant’s stay in Japan (full details provided to successful fellows in the JSPS acceptance package)
- A research support allowance of up to 158,500 yen for the host supervisor’s research-related expenses.
- No funds will be released if the completed International Pre-Departure Form and/or Mitacs Code of Conduct and Ethics forms are outstanding.
- Travel to the destination prior to the approval of the award is not permitted and neither Mitacs nor JSPS is responsible for any costs incurred before the application is approved.

Internal HRS Deadline: November 21, 2018
Sponsor Deadline: December 5, 2018

Social Sciences and Humanities Research Council (SSHRC) Partnership Engage Grants

Partnership Engage Grants are expected to respond to the objectives of the Insight program and the Connection program. Please note that Partnership Engage Grants cannot respond exclusively to the objectives of the Connection program. They provide short-term and timely support for partnered research activities that will inform decision-making at a single partner organization from
the public, private or not-for-profit sector. The small-scale, stakeholder-driven partnerships supported through the Partnership Engage Grants are meant to respond to immediate needs and time constraints facing organizations in non-academic sectors.

**Funding Details:** Partnership Engage Grants are valued at $7,000 to $25,000 over one year.

### Alex’s Lemonade Stand Foundation: Young Investigator Grants

The Young Investigator grant is a 3-year award designed to support scientists in the early stages of their research careers, such as postdoctoral or clinical fellows. Outstanding mentorship and demonstration of a career plan that shows commitment to pediatric cancer investigation are critical components of a successful application.

**Funding Details:** $50,000 annually for three years.

**Additional Details**

*Internal HRS Deadline: December 3, 2018*
*Sponsor Deadline: December 17, 2018*

---

### Alex’s Lemonade Stand Foundation: Epidemiology Grants

These awards will support investigators pursuing research studies in human populations using epidemiological approaches aimed at improving our understanding of childhood cancer. This grant mechanism is designed to support hypothesis-driven research that focuses on the epidemiology, early detection and prevention of childhood cancer or comparative effectiveness and outcomes research related to detection, prevention, and treatment.

**Funding Details:** $100,000 annually for two years.

**Additional Details**

*Internal HRS Deadline: December 3, 2018*
*Sponsor Deadline: December 17, 2018*

### Age-WELL Core Research Program 2020-2025

AGE-WELL will provide significant funding for 3 to 5 years to projects that:

- Are driven by real-world problems and challenge areas
- Address specific areas of interest to AGE-WELL and its partners and stakeholders
- Focus on innovative technology-based solutions to support older adults and caregivers
- Are user-centered, involving end-users and stakeholders in all stages of the research
- Deliver not only the technology but the practice, policy, and service delivery models that are needed for the solution to be effective
- Use a transdisciplinary approach
- Have the potential to lead to economic and social impact
- Help AGE-WELL to achieve its mission

Successful applications will also receive a one-year Catalyst Grant, starting April 1, 2019, so that these selected projects can continue to develop their plans. AGE-WELL has partnered with Mitacs and MEDTEQ to provide additional funding as part of this RFP. Additional partners and collaborators may join this funding initiative over the coming months.

**Funding Details:** The maximum investment per Core Research Project is $200,000 per year (commencing April 1, 2020) for a minimum of 3 to a maximum of 5 years, for a maximum of $1,000,000 per grant.
Prostate Cancer Canada and the Movember Foundation: Discovery Grants

The objective of the Discovery Grants is to support novel and innovative prostate cancer research that will lead to new lines of investigation. The grant is designed to:

- Allow both junior and more established investigators to pursue new avenues of exploration;
- Allow applications from all areas of prostate cancer research;
- Fund applications that will have been evaluated by a rigorous peer-review process that assessed a) innovation, b) track record of investigator team, c) methodology and feasibility of the proposed work, d) potential impact on prostate cancer.

The research project may address any of the broad areas of prostate cancer research including but not limited to biomedical, clinical, population health, and health services/economics.

Funding Details: Max of $100,000 over a max of two years.

Ontario-Jiangsu Industrial Research and Development Program (OJIRDP)

The Ontario-Jiangsu Industrial Research and Development Program (OJIRDP) supports joint industrial R&D projects focusing on the development of products or processes that will lead to commercialization in global markets. A partnership of the Jiangsu Science and Technology Department (JSTD) and the Ontario Ministry of Economic Development, Job Creation and Trade (MEDJCT), OJIRDP supports projects leading to commercial success and socio-economic benefits for both jurisdictions.

Funding Details: OCE will support up to 50 per cent of the total eligible direct research costs, to a maximum of $125,000 CAD per project (for academic applicants) or $150,000 CAD per project (for company applicants) for the Ontario portion of the project. JSTD will support up to 50 per cent of the total eligible direct research costs, to a maximum of ¥1 million RMB per project, for the Jiangsu portion of the project.

Alzheimer’s Drug Discovery Foundation: The Treat FTD Fund

Launched in 2016, the Treat FTD Fund is a joint effort by the Alzheimer’s Drug Discovery Foundation (ADDF) and the Association for Frontotemporal Degeneration (AFTD) to support clinical development of novel or repurposed drugs for FTD disorders. Running clinical trials in FTD patients will enable investigators to identify optimal approaches to targeting this unique patient population. In addition, trials supported by the Treat FTD Fund will complement efforts such as the FTD Biomarkers Initiative and the Accelerating Drug Discovery for FTD program by employing emergent advances in biomarker development and preclinical research.

Funding Details: $500,000-$2,000,000 for 1- 3 years with potential for follow-on funding. Leveraging other sources of funding is encouraged.

Alex’s Lemonade Stand Foundation: Innovation Grants

Alex’s Lemonade Stand Foundation (ALSF) evolved from the front yard lemonade stand of cancer patient Alexandra “Alex” Scott (1996-2004) into a national fundraising movement to find a cure for all childhood cancers. We are dedicated to filling critical funding...
gaps in pediatric oncology investigation, especially research into new treatments and cures. The Innovation Grant is designed to provide critical and significant seed funding for experienced investigators with a novel and promising approach to finding causes and cures for childhood cancers. Proposals should have clinical translation in view.

**Funding Details:** $125,000 annually for 2 years.

**Additional Details**

**LOI Deadline:** November 1, 2018  
**Internal HRS Deadline:** March 25, 2019  
**Sponsor Deadline:** April 8, 2019

---

**Weston Brain Institute Rapid Response**

Rapid Response: Canada 2019, the objective:

1) to support Alzheimer’s and related diseases:  
   - Frontotemporal dementia  
   - Mild cognitive impairment  
   - Vascular contributions and prodromes (to the above), and

2) to provide seed funding for novel, high-risk, high-reward translational research projects.

**Funding Details:** A max of $200,000 over up to 18 months per project.

**Additional Details**

**LOI Deadline:** December 3, 2018

---

**Weston Brain Institute Transformational Research**

Transformational Research: Canada 2019, the objective:

1) to support Alzheimer’s and related diseases:  
   - Frontotemporal dementia  
   - Mild cognitive impairment  
   - Vascular contributions and prodromes (to the above), and

2) to support transformative, novel, high-risk, high-reward translational research projects with excellent preliminary data.

**Funding Details:** A max of 1,500,000 over a max of 3 years.

**Additional Details**

**LOI Deadline:** December 3, 2018

---

**Weston Brain Institute Postdoctoral Scholars at Oxford**

The Weston Brain Institute Postdoctoral Scholars at Oxford program supports top-tier Canadian postdoctoral scholars by providing international training at the University of Oxford and affiliation with Merton College. Prior to submitting an application, candidates should independently identify a host lab and potential supervisor at the University of Oxford who agrees to supervise them if awarded. Awardees will receive salary support for their postdoctoral positions at Oxford.

**Funding Details:** £57,000 per year (£44,000 per year + benefits) for 2 years.

**Additional Details**

**Sponsor Deadline:** Applications are being accepted on a rolling basis, until 2 positions at a time are filled.

---

**Weston Brain Institute International Fellowships: Canada**

Neurodegenerative diseases of aging are among the least understood and most undertreated diseases today. If ignored, the social and economic costs of managing these diseases will continue to rise. Meeting these challenges requires pioneering approaches to accelerating treatments. The Weston Brain Institute is pleased to launch our International Fellowships: Canada program. The program will support top Canadian PhD students to travel to and work in world-renowned international labs for up to 12 months, to further their translational research on neurodegenerative diseases of aging.

**Funding Details:** $60,000 per year, prorated at $5,000 per month to fit shorter travel and specific project needs
McMaster University, McMaster Institute for Research on Aging (MIRA), Labarge Centre for Mobility in Aging (LCMA): Matching Funds for Research Opportunities

The McMaster Institute for Research on Aging (MIRA) aims to optimize the health and longevity of the aging population through leading-edge research, education and stakeholder collaborations. The institute intends to amplify McMaster’s strength in aging-focused research through stimulating new partnerships, facilitating access to research funding, raising the profile of McMaster’s research platforms, and building capacity among students and faculty members. In order to improve the positioning of McMaster’s researchers in external funding competition, MIRA and the Labarge Centre for Mobility in Aging (LCMA) have allocated funding that could be used to match or leverage external funds. This process is intended to be used for requests related to externally funded, peer-reviewed grant competitions that require a matching component.

**Funding Details:** maximum $100,000 (total cash and/or in-kind) non-renewable funding anticipated support 1-2 projects per year.

MITACS Globalink Research Award

The Mitacs Globalink Research Award provides funding for senior undergraduate and graduate students, and postdoctoral fellows in Canada to conduct 12–24-week research projects at universities overseas. The following opportunities support travel and research from Canada to universities in: Australia, Brazil, China, EU member countries: In France, both universities and Inria Research Centres are eligible host institutions, Israel, India, Japan, Korea, Mexico, Norway, Saudi Arabia, Tunisia, United Kingdom, United States.

**Funding Details:** $6,000 to conduct 12-24-week research projects at universities overseas.

MITACS Accelerate Fellowship

The Mitacs Accelerate Fellowship provides a long-term funding and internship option for master’s and PhD students. Recipients can also access professional development training that helps them ensure project success and gain in-demand career skills. Interested applicants can apply for the Accelerate Fellowship at any time. All other Accelerate program guidelines apply.

**Funding Details:**
- **Master’s students** - $40,000 total research award for 18 mos. Minimum intern stipend is $30,000 and partner organization contribution is $18,000
- **PhD students** - $80,000 total research award for 36 mos. Minimum intern stipend is $72,000 (24,000/year) and partner organization contribution is $36,000

Weston Brain Institute: Early Phase Clinical Trials: Canada

Neurodegenerative diseases of aging are among the least understood and most undertreated diseases today. If ignored, the social and economic costs of managing these diseases will continue to rise. Meeting these challenges requires pioneering approaches to accelerating treatments. The Early Phase Clinical Trials: Canada program was created to provide funding support for clinical trials and clinical trial sub-studies that have excellent preliminary data. Eligible Principal Applicants must be at or above the level of Assistant Professor or equivalent and be affiliated with a Canada Revenue Agency-qualified donee institution located in Canada. Co-applicants and Collaborators must be at the post-doctoral level or above and can be working outside Canada.

An application requires the submission of a Letter of Intent which will be reviewed by our scientific review committee. Applicants with high potential projects will then be invited to submit a Proposal. Instructions for submitting the Proposal will be forwarded to those invited. Applicants can expect to receive the outcome of their LOI application approximately 2 months after submission.
Funding Details: A maximum of $1,500,000 per project over up to 4 years.

Additional Details
Sponsor Deadline: Ongoing

OCE Voucher for Innovation and Productivity (VIP I) Program
The VIP I Program brings industry and academia together to solve industry’s innovation challenges. It helps eligible companies develop, implement and commercialize technical innovations by supporting partnerships between Ontario’s industry and publicly funded post-secondary institutions. The program supports collaborations between industry and post-secondary institutions up to 12 months in duration that lead to knowledge mobilization, commercialization and increased productivity with significant economic impact (i.e. generating new revenues and high-value jobs) for Ontario including the development of new products and/or processes, facilitate productivity improvements. Open to all disciplines, but it has to be a for-profit. Company must have been in operation for a minimum of two years, AND have a minimum of two full-time employees.

Funding Details: OCE will support up to 50% of the eligible research costs, to a maximum OCE investment of $20,000.

Additional Details
Sponsor Deadline: October 12, 2019
*To Apply, Contact Bertha Monrose, Contracts Advisor, MILO at monrose@mcmaster.ca or extension 22416*

OCE Voucher for Innovation and Productivity II (VIP II) Program
The VIP II program helps established Ontario-based companies develop, implement and commercialize technical innovations by supporting partnerships with publicly-funded post-secondary institutions. Projects funded through VIP II address company needs by enabling the development of new products and/or processes, or facilitating productivity improvements, by leveraging post-secondary institutions' skills and resources. Projects must ultimately help generate new revenues and create high-value jobs for Ontario companies. You can also leverage your sponsor’s contribution through the NSERC CRD program for additional research funds.

Funding Details: The VIP II program supports collaborations between companies and publicly-funded post-secondary institutions for durations of 12 and 24 months to a maximum of $150,000.

Additional Details
Sponsor Deadline: Ongoing
*To Apply, Contact Bertha Monrose, Contracts Advisor, MILO at monrose@mcmaster.ca or extension 22416*

MITACS Accelerate Program
Canada’s premiere research internship program provides interns with the opportunity to transfer their skills from theory to real-world application, while companies gain a competitive advantage by accessing high-quality research expertise. Interns spend approximately half their time on-site with the industry partner; the remainder is spent at the university advancing the research under the guidance of a faculty supervisor. Not-for-profit organizations are eligible.

Funding Details: Funding starts at $15,000

Additional Details
Sponsor Deadline: Ongoing
*To Apply, Contact Bertha Monrose, Contracts Advisor, MILO at monrose@mcmaster.ca or extension 22416*

Department of Defense Gulf War Illness Research Program (GWIRP) Funding Opportunities for Fiscal Year 2018
The GWIRP focuses on funding innovative, competitively peer-reviewed research to (1) provide a better understanding of the pathobiology underlying GWI, (2) identify objective markers (biomarkers) for improved diagnosis, and (3) to develop treatments for the complex of GWI symptoms and their underlying causes. Their Vision is to make a significant impact on GWI and improve the health and lives of affected Veterans and their families.
**Funding Details:**
- **New Investigator Award** - The maximum allowable funding for the entire period of performance is $500,000 for direct costs. The maximum period of performance is 3 years. Indirect costs may be proposed in accordance with the institution’s negotiated rate agreement.

**Additional Details**
- **LOI Deadline:** October 18, 2018 (A pre-application is required and must be submitted through eBRAP)
- **Internal HRS Deadline:** October 25, 2018
- **Sponsor Deadline:** November 8, 2018

---

**Department of Defense Breast Cancer Research Program (BCRP) Funding Opportunities for Fiscal Year 2018**

The BCRP challenges the scientific community to design research that will address the urgency of ending breast cancer. Specifically, the BCRP seeks to accelerate high-impact research with clinical relevance, encourage innovation and stimulate creativity, and facilitate productive collaborations.

**Funding Details:**
- **Breakthrough Award Levels 1 and 2 II:**
  - **Funding Level 1** – Maximum funding of $375,000 for direct costs (plus indirect costs) The maximum period of performance is 3 years.
  - **Funding Level 1 with Partnering PI Option** – Maximum funding of $600,000 for direct costs (plus indirect costs) The maximum period of performance is 3 years.
  - **Funding Level 2** – Maximum funding of $750,000 for direct costs (plus indirect costs) The maximum period of performance is 3 years.
  - **Funding Level 2 with Partnering PI Option** - Maximum funding of $1 million (M) for direct costs (plus indirect costs). The maximum period of performance is 3 years.

**Additional Details**
- **LOI Deadline:** November 1, 2018 (A pre-application is required and must be submitted through eBRAP)
- **Internal HRS Deadline:** November 8, 2018
- **Sponsor Deadline:** November 15, 2018

---

**Department of Defense Duchenne Muscular Dystrophy Research Program (DMDRP) Funding Opportunities for Fiscal Year 2018**

Duchenne muscular dystrophy (DMD) affects approximately 1 out of every 3,500 male infants (about 20,000 new cases a year). This form of muscular dystrophy results from mutations in the dystrophin gene that lead to an absence of dystrophin in muscle cells, allowing these cells to be easily damaged. Boys living with DMD experience devastating muscle weakness that affects the skeletal muscles, heart, and respiratory muscles. Symptoms of DMD typically develop prior to age 5, and by age 12 most patients are confined to a wheelchair.

**Funding Details:**
- **Career Development Award** - Maximum funding of $275,000 in direct costs (plus indirect costs) Period of performance not to exceed 2 years.

**Additional Details**
- **LOI Deadline:** November 14, 2018 (A pre-application is required and must be submitted through eBRAP)
- **Internal HRS Deadline:** November 21, 2018
- **Sponsor Deadline:** December 5, 2018
