**News & Events**

**NEW** Natural Sciences and Engineering Research Council of Canada (SERC): Discovery Grants Webinar

NSERC is hosting a Discovery Grants Webinar to assist the research community on “How to complete an application” using the Research Portal and the NSERC Canadian Common CV (CCV) on: September 25, 2018; 1:00 – 3:00pm (ET)

Site: [http://nsercofcanada.adobeconnect.com/complete-application/](http://nsercofcanada.adobeconnect.com/complete-application/)

Webinars have limited space. Researchers not able to join may connect to the teleconference and listen in while following the presentation (available for download [here](http://nsercofcanada.adobeconnect.com/complete-application/)).

Conference Number: 1 877 - 413 - 4790
Conference ID: 7462843

The NSERC staff may not have enough time to respond to all individual questions during the session, therefore, additional questions should be directed to the NSERC support team at RESGRANT@NSERC-CRSNG.GC.CA

To better prepare for the webinar, NSERC encourages applicants to familiarize themselves with the following documents:

- Discovery Grants program description
- Peer Review Manual
- Frequently Asked Questions
- Instructions for Completing an Application
- Submitting an NSERC individual Discovery Grant application through the Research Portal tutorial

**NEW** Research Project Management Course at UofT

Good project management is vital to the success of major research projects. UofT has developed a course specifically tailored for the project management of research projects. The course has been adapted for research project management through the collaboration of an Advisory Group of faculty and staff, the School of Continuing Studies, staff from the Division of the Vice-President, Research & Innovation, and the instructor, Dr. Alison Paprica. Dr. Paprica (Assistant Professor [status] at the U of T Institute of Health Policy, Management & Evaluation), was previously the Director responsible for up to $60 million/year of government research funding and has also led numerous large scale R&D projects in the private, public and not-for-profit sectors.

The course is designed for faculty researchers, staff scientists, post-doctoral fellows, research coordinators and those interested in a path to management and research leadership. This is the second year the course is being offered. Last year, given demand for the fall course, we mounted an additional section for the winter.

Information and registration can be found at [3382 Project Management for Research](http://3382projectmanagementforresearch).uoft.ca

**Invitation for feedback: Prioritizing Future Challenges for Canada**

Canada’s three research granting agencies, the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council of Canada, the Social Sciences and Humanities Research Council of Canada (CIHR, NSERC, SSHRC), and the Canada Foundation for Innovation, are seeking your expertise to help prioritize which future challenges identified through a recent horizon scan are considered most important for Canada.

Outcomes from this consultation may also be leveraged to support the priorities of the Canada Research Coordinating Committee (CRCC), notably to advance efforts in identifying key emerging research areas. Stakeholders from all four agencies are invited to participate in this consultation. Information on the CRCC’s priorities is available on the CRCC’s website. Building upon the success of SSHRC’s 2014 Imagining Canada’s Future initiative, the granting agencies partnered with Policy Horizons Canada, a federal centre of foresight expertise, to undertake a horizon scan as a first step in identifying future challenges for Canada over the next 10 to 15 years.
Policy Horizons Canada drew on sources from across digital media, academic studies, and foresight projects to identify and analyze change data for its global scan. They also conducted a literature review of over 600 early change indicators, and examined additional materials produced by Policy Horizons Canada, government departments and agencies, and other organizations around the world. These approaches were complemented by an online questionnaire engaging various key networks and foresight communities from more than 60 countries.

The scan has identified 16 future challenges with the potential to shape society in profound ways, and which are all multi-disciplinary and require broad collaboration to address. The granting agencies ask that you select one top challenge, and explore its possible impacts through a brief survey. For the challenge you select, you will be asked a series of questions. You will have the option of repeating the exercise for a challenge you deem of next-most importance. The granting agencies are inviting input from a variety of individuals across the academic, private, public and not-for-profit sectors, in Canada and internationally. Beyond the 16 challenges identified in the horizon scan, you have the opportunity to identify additional challenges deemed critical to Canada’s future.

By taking part in their brief prioritization exercise, using the Futurescaper crowdsourcing tool, you will help to identify which challenges to consider for possible future programming and/or corporate activities. Once you have reviewed the 16 future challenges, the exercise will take you about 10 to 15 minutes to complete. To begin, please follow this link: FUTURE CHALLENGES PRIORITIZATION

Results of this foresight exercise will be available by spring 2019. Responses are anonymous, and results will be aggregated to ensure anonymity.

Research with Livestock Feeds

For any one of you or your organizations that does or is contemplating doing research with livestock feeds, there are certain legal obligations and exemptions provided by the federal Feeds Regulations that you should be aware of. Please be advised that the Canadian Food Inspection Agency (CFIA) has updated “RG-1 Regulatory Guidance: Feed Registration Procedures and Labelling Standards.”

The following document has been updated:

Chapter 5 - Research with Livestock Feeds

This replaces the previous version which was offline pending revision.

Please forward any questions or comments to:
Sergio Tolusso
Director - Animal Feed Division
Canadian Food Inspection Agency

Compilation of GDPR Guidances Now Available

The Office for Human Research Protections has developed a new resource for IRBs, researchers, and sponsors that are involved in human subjects research in Europe. Titled Compilation of European GDPR Guidances, the document lists the data protection authorities of all European countries that fall under the new E.U. General Data Protection Directive (GDPR). For each country, the compilation also provides the links to any general GDPR guidances, as well as specific guidances on the topics of Research, Legal Basis, Consent, and International Data Transfer.

The new Compilation is available here: https://www.hhs.gov/ohrp/international/index.html

Canada Foundation for Innovation (CFI) – Planning for Innovation Fund 2019

The CFI Innovation Fund (IF) enables institutions to strengthen their research infrastructure in priority areas. An eligible infrastructure project involves the modernization, acquisition, development of research infrastructure with the goal of enabling Canadian researchers to tackle ground-breaking projects. We have indications that CFI plans to release a Draft Call for Proposals for the IF in the beginning of 2019.

CFI limits the amount of funding an institution may request. As such, we must be highly strategic in the applications selected for submission.

Anyone interested in submitting an IF application must meet with Dr. Bramson to discuss:
- the excellence, innovation and viability of the proposed research program;
- the need for additional infrastructure;
- eligibility and fit with the Innovation Fund mandate;
- the planned location for this project and the plan for sustainability.

To schedule a meeting, please contact Jenn Seager, ext. 22184; seagerj@mcmaster.ca

For any programmatic questions, please contact Tracy Arabski, Director Health Research Services; ext. 22515; arabski@mcmaster.ca

**CIHR – Operating Grant: Transitions in Care – Best and Wise Practices Grants**

The Best and Wise Practices Grants are expected to:

- Develop relevant research capacity leading up to future TiC funding opportunities;
- Inform actionable health system changes within the TiC Focus Areas by supporting systematic identification and collating of transitions in care knowledge gaps and/or identification of effective evidence-based interventions and/or policies;
- Facilitate the identification of relevant transitions in care stakeholders and partnerships, with a particular focus on partnerships that can support community-based research and approaches that have potential for equitable spread and scale between communities, at a regional and/or national level.

**Funding Details:** The total amount available for this funding opportunity is $1,200,000, enough to fund a minimum of 12 grants. The maximum amount per grant is $100K for up to one (1) year.

**Additional Details**

Internal HRS Deadline: **September 26, 2018**  
Sponsor Deadline: **October 10, 2018**

**CIHR – Prize: Gold Leaf Prize for Discovery**

CIHR’s Gold Leaf Prize for Discovery is awarded to individuals or teams whose research findings are unique, innovative and represent a ground-breaking discovery in any pillar of health research that has been seen to significantly influence knowledge in the field. This prize celebrates breakthrough discoveries pivotal to innovation from across the spectrum of health research.

**Funding Details:** The total amount available for this prize is $100,000, enough to fund one prize for one year.

**Additional Details**

Internal HRS Deadline: **September 26, 2018**  
Sponsor Deadline: **October 10, 2018**

**CIHR – Prize: Gold Leaf Prize for Impact**

CIHR’s Gold Leaf Prize for Impact is one of the highest honours that can be accorded to an individual or team by CIHR for health research in the Canadian context with a proven impact on health outcomes, practices or policies and/or on the health system. This prize bestows honour on distinguished researchers in recognition of the impact of their contributions to transforming and mobilizing health research for the benefit of Canadians.

**Funding Details:** The total amount available for this prize is $100,000, enough to fund one prize for one year.

**Additional Details**

Internal HRS Deadline: **September 26, 2018**  
Sponsor Deadline: **October 10, 2018**

**CIHR – Prize: Gold Leaf Prize for Outstanding Achievements – Early Career Investigator**

CIHR Gold Leaf Prize for Outstanding Achievements by an Early Career Investigator recognizes outstanding early career investigators in order to support excellence in the next generation. It provides prestigious recognition to an exceptional health researcher who is expected to continue to produce research of exceptional merit. This prize bestows honour on an outstanding early career researcher who is expected to continue to produce research of exceptional merit.
Funding Details: The total amount available for this prize is $100,000, enough to fund one prize for one year.

Additional Details
Internal HRS Deadline: September 26, 2018
Sponsor Deadline: October 10, 2018

CIHR – Prize: Gold Leaf Prize for Transformation: Patient Engagement
The purpose of the CIHR Gold Leaf Prize for Transformation: Patient Engagement is to bestow accolades to leaders within health research who are at the forefront of realizing meaningful and active collaborations with patients, researchers, health practitioners, administrators and policy-makers in order to advance patient-identified priorities and improve patient outcomes.

Funding Details: The total amount available for this prize is $100,000, enough to fund one prize for one year.

Additional Details
Internal HRS Deadline: September 26, 2018
Sponsor Deadline: October 10, 2018

CIHR – Prize: IHDCYH Talks (2018)
The CIHR Institute of Human Development, Child and Youth Health (IHDCYH) is launching its fifth round of the IHDCYH Talks Video Competition, a unique opportunity to submit short videos (recommended maximum length of 5 minutes) sharing evidence-based messages in the area of maternal, reproductive, child and youth health. This competition encourages the production of videos that present a clear evidence-based message to a lay audience that is designed to have a positive impact on the health of children, youth and families. This competition is soliciting videos not just from members of the research community, but also more widely from non-governmental or not-for-profit organizations (including community or charitable organizations), as well as members of the general public who are able to demonstrate a clear, evidence-based message related to IHDCYH’s mandate. Successful videos will be posted on CIHR and IHDCYH social media and shared through other communications channels. It is important that the content be engaging, easily understood and accessible to a lay audience.

Funding Details: The total amount available for this funding opportunity is $5,500, enough to fund four prizes.

Additional Details
Internal HRS Deadline: October 2, 2018
Sponsor Deadline: October 16, 2018

CIHR – Food Security and Climate Change in the Canadian North
The Food Security and Climate Change in the Canadian North Initiative funding opportunity is expected to:

- Create new knowledge about the magnitude and health effects of climate change on food security in the Canadian North and Northern Indigenous populations by incorporating Indigenous knowledge and land-based experience regarding traditional/country food sources.
- Identify effective approaches, programs and policy to address food insecurity in the North through implementation science.
- Build capacity for multidisciplinary research in the area of food security and climate change in the Canadian North that has strong and meaningful engagement with Indigenous communities and organizations.

Funding Details: The total amount available for this funding opportunity is $1.050 million, enough to fund approximately 7 grants. This amount may increase if additional funding partners participate. The maximum amount per grant is $75,000 per year for up to 2 years, for a total of $150,000 per grant.

Additional Details
Internal HRS Deadline: October 11, 2018
Sponsor Deadline: October 25, 2018

CIHR – Doctoral Research Award: Vanier Canada Graduate Scholarships 2018-2019
The Vanier Canada Graduate Scholarship (Vanier CGS) was created to attract and retain world-class doctoral students and to establish Canada as a global centre of excellence in research and higher learning. It is available to both Canadian and international PhD students studying at Canadian universities. The program is jointly administered by Canada’s three federal granting agencies: the
Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC) and the Social Sciences and Humanities Research Council (SSHRC). CIHR has been designated as the operational lead for the implementation of the program. For further information about this funding opportunity, please consult the Vanier CGS website.

**Funding Details:** The total amount available for this funding opportunity is $24,900,000, enough to fund approximately 166 awards. The maximum amount per award is $50,000 per year, for up to three (3) years and a total of $150,000 per award. This funding is non-renewable.

**Additional Details**

Contact Correen Smith in Graduate Studies to Apply  
**Sponsor Deadline:** October 31, 2018

### CIHR - Fellowship

CIHR’s Health Research Training Strategy aims to equip research trainees so that they emerge from their training as scientific, professional, or organizational leaders within and beyond the health research enterprise. Generating Research Leaders of tomorrow is a key objective for CIHR. Fellowships provide support for highly qualified applicants in all areas of health research at the post-PhD degree or post-health professional degree stages to add to their experience by engaging in health research either in Canada or abroad.

**Funding Details:** The awards consist of a stipend and a research allowance and are valued in Canadian dollars. It is anticipated that approximately $21 million over five years will be available through this competition. The maximum amount awarded for a single award is up to $60,000 per annum for up to 5 years. The value and duration of each award is determined by the degree(s) held, licensure (where applicable), location of tenure and experience of the applicant.

**Additional Details**

Contact Correen Smith in Graduate Studies to Apply  
**Sponsor Deadline:** November 1, 2018

### CIHR – Team Grant: HIV/AIDS Biomedical and Clinical Research

The Team Grant: HIV/AIDS Biomedical Clinical Research funding opportunity is expected to contribute to the global search for a safe and effective cure for HIV, and to develop prevention strategies and tools. The specific objectives of this funding opportunity are to:

- transform HIV biomedical and clinical research in Canada into a collaborative, interdisciplinary model of knowledge creation and application through the funding of innovative research programs;
- create an inclusive and sustainable pipeline of HIV research capacity from across disciplines, sectors, and perspectives (e.g., HIV basic scientists, clinical investigators, knowledge users and/or community members [people living with HIV]);
- effectively translate knowledge into clinical and/or commercial applications which contribute to the design, development and evaluation of research strategies; and
- create a critical mass of technical and scientific expertise in Canada that engages meaningfully with one another and with relevant national stakeholders, and participates in international research efforts.

**Funding Details:** The total amount available for this funding opportunity is $20,000,000, enough to fund approximately 6 grants.

**Additional Details**

Internal HRS Deadline: October 23, 2018  
**Sponsor Deadline:** November 6, 2018

### CIHR – Indigenous Gender and Wellness: Idea Fair and Learning Circle

The specific objectives of this funding opportunity and the Idea Fair and Learning Circle are to:

- Foster a safe space for Indigenous Peoples to share ideas on Indigenous gender and wellness with supporters who will help them to grow their ideas into fundable projects.
- Facilitate knowledge sharing and learning to develop and strengthen Indigenous-focused projects.

**Funding Details:** The total amount available for this funding opportunity is $800,000, enough to fund approximately 160 awards.

**Additional Details**

Internal HRS Deadline: October 25, 2018
Sponsor Deadline: November 8, 2018

**CIHR – Catalyst Grant: SPOR Innovative Clinical Trials**
The Strategy for Patient-Oriented Research (SPOR) is a national coalition of federal, provincial and territorial partners (patients and informal caregivers, provincial health authorities, academic health centres, charities, philanthropic organizations, private sector, etc.) dedicated to the integration of research into care. Patient-oriented research refers to a continuum of research that engages patients as partners, focusses on patient-identified priorities and improves patient outcomes. This research, conducted by multidisciplinary teams in partnership with relevant stakeholders, aims to apply the knowledge generated to improve healthcare systems and practices. Clinical trials are one of the elements of SPOR that responds to its goals to strengthen organizational, regulatory and financial support for clinical studies in Canada, and enhance patient and clinician engagement in research. Under this element, the Innovative Clinical Trials (iCT) initiative aims to build capacity and increase the intensity of iCT research. iCTs use designs that are alternative to traditional Randomized Controlled Trials (RCT) with application in areas ranging from product development to health system improvement. iCT methods can reduce the cost of conducting trials, reduce the amount of time needed to answer research questions, and increase the relevance of research findings to patients, health care providers and/or policy makers. Adopting these alternative designs can maximize the use of existing knowledge and data.

**Funding Details:** The total amount available for this funding opportunity is $1,000,000, enough to fund approximately ten (10) grants. The maximum amount per grant is $100,000 for up to one year.

**Additional Details**

Internal HRS Deadline: October 31, 2018
Sponsor Deadline: November 14, 2018

**CIHR – Operating Grant: Geroscience Demonstration Grants**
The Geroscience Demonstration Grants are expected to:

- Accelerate, catalyze, and build capacity for research on the early prevention of chronic diseases in aging using a geroscience approach
- Support the creation of new knowledge to improve our understanding of the relationship between mechanisms in the biological processes of aging and the development of one or several chronic conditions (e.g., diabetes, cancer, neurodegenerative diseases, arthritis, cardio-respiratory diseases)
- Support research using a geroscience approach that could lead to potential clinical impacts.

**Funding Details:** The total amount available for this funding opportunity is $3,600,000, enough to fund approximately 8 grants. The maximum amount per grant is $150,000 per year for up to 3 years for a total of $450,000 per grant. This amount may increase if additional funding partners participate.

**Additional Details**

Internal HRS Deadline: November 1, 2018
Sponsor Deadline: November 15, 2018

**CIHR – Centres for HIV/AIDS, Hepatitis C and other STBBIs Research**
The Centres for HIV/AIDS, Hepatitis C and other STBBIs Research are expected to improve health and access to effective programs and services for people living with and at risk of HIV, Hepatitis C and other STBBIs, particularly for populations most affected. The specific objectives of the Centres are to:

- foster coordination of research efforts by developing and supporting a network of collaborative Centres;
- develop and/or strengthen high quality infrastructure for implementation science, health services and population health research to enable Canadian HIV, Hepatitis C and other STBBI researchers to conduct innovative, high quality, collaborative research;
- facilitate implementation science, health services and population health research training and mentoring initiatives to strengthen the capacity of trainees; and
- accelerate the translation and uptake of knowledge and implementation of evidence to inform practices, policies and programs through models of integrated knowledge translation and innovative strategies that engage stakeholders and partners (including people living with HIV, community organizations, clinicians, policy makers and relevant networks).

**Funding Details:** The total amount available for this funding opportunity is $10,000,000, enough to fund approximately two to three grants. This amount may increase if additional funding partners participate. Centres may be variable in size; it is anticipated that
requested budgets will range from $400,000 to $1,000,000 per annum. The maximum amount per grant is $1,000,000 per year for up to 5 years for a total of $5,000,000 per grant.

**Additional Details**

**Internal HRS Deadline:** November 27, 2018  
**Sponsor Deadline:** December 11, 2018

**CIHR – Team Grant: SPOR iCT Rewarding Success – Phase 3**

The [Strategy for Patient-Oriented Research (SPOR)](http://www.cihr-irsc.gc.ca) is a national coalition of federal, provincial and territorial partners (patients and informal caregivers, provincial health authorities, academic health centres, charities, philanthropic organizations, private sector, etc.) dedicated to the integration of research into care. Patient-oriented research refers to a continuum of research that engages patients as partners, focuses on patient-identified priorities and improves patient outcomes. This research, conducted by multidisciplinary teams in partnership with relevant stakeholders, aims to apply the knowledge generated to improve healthcare systems and practices. All recipients of funding through SPOR are required to adhere to the following principles:

- Patients need to be involved in all aspects of the research to ensure questions and results are relevant;
- Decision-makers and clinicians need to be involved throughout the entire research process to ensure integration into policy and practice;
- Funding under SPOR is based on a 1:1 matching formula;
- Effective patient-oriented research requires a multi-disciplinary approach; and
- SPOR is outcome driven and incorporates performance measurement and evaluation as integral components of the initiative.

**Funding Details:** The total amount available from CIHR for this funding opportunity is $12,000,000, enough to fund approximately five grants. The maximum amount per grant is $600,000 per year for up to four years for a total of $2,400,000.

**Additional Details**

**Internal HRS Deadline:** December 20, 2018  
**Sponsor Deadline:** January 10, 2019

**CIHR – Team Grant: Food Security and Climate Change in the Canadian North**

The Food Security and Climate Change in the Canadian North Initiative funding opportunity is expected to:

- Create new knowledge about the magnitude and health effects of climate change on food security in the Canadian North and Northern Indigenous populations by incorporating Indigenous knowledge and land-based experience regarding traditional/country food sources.
- Identify effective approaches, programs and policy to address food insecurity in the North through implementation science.
- Build capacity for multidisciplinary research in the area of food security and climate change in the Canadian North that has strong and meaningful engagement with Indigenous communities and organizations.

**Funding Details:** The total amount available for this funding opportunity is $3.12 million. This amount may increase if additional funding partners participate.

**Additional Details**

**LOI Deadline:** October 25, 2018  
**Internal HRS Deadline:** March 20, 2019  
**Sponsor Deadline:** April 3, 2019

**CIHR – Team Grant: Human Immunology Initiative: Research Teams**

The Human Immunology Research Teams are expected to:

- Generate new scientific knowledge that will advance our understanding of human immunology as it relates to autoimmune diseases, with appropriate consideration of sex-related mechanisms, in order to improve the health of Canadians living with autoimmune diseases.
- Leverage the Standardization Core by encouraging collaboration with the Core and utilization of the Core’s research methodologies where possible.
- Develop and strengthen research capacity by providing training opportunities to the next generation of human immunology researchers in the field of autoimmune diseases.
Funding Details: The total amount available for this funding opportunity is $6,560,000 (not including Additional Partner Funding). This amount may increase if additional funding partners participate.

Additional Details
LOI Deadline: October 16, 2018
Internal HRS Deadline: May 21, 2019
Sponsor Deadline: June 4, 2019

CIHR – Network for Global Governance Research on Infectious Diseases
The Network for Global Governance Research on Infectious Diseases is expected to:

- Facilitate the establishment of a Canadian research network focused on a comprehensive, interdisciplinary, and intersectoral approach to global governance of infectious diseases by:
  - Strengthening research capacity and catalyzing social science researchers across Canada to generate and apply new knowledge about effective global governance arrangements for preventing and managing infectious diseases and public health threats; and
  - Fostering national and international research collaborations on global governance of infectious diseases to better connect researchers currently working in isolation and actively contribute to the emerging European Commission–funded International Network of Social Sciences Research Centres Hub focused on infectious diseases.
- Enable better preparedness for infectious diseases through the application of knowledge, sharing of lessons learned, and the creation of improved governance arrangements by:
  - Facilitating interactions and ongoing communication and coordination among researchers, stakeholders, and global policymakers to institutionalize the use of research evidence in global and national decision making on governance arrangements for disease preparedness; and
  - Promoting the use of research results, by ensuring that research evidence is communicated in appropriate forms and used by relevant stakeholders.

Funding Details: The total amount available for this funding opportunity is $2 million enough to fund one grant. This amount may increase if additional funding partners participate. The maximum amount is $500,000 per year for up to 4 fiscal years for a total of $2 million.

Additional Details
LOI Deadline: September 25, 2018
Internal HRS Deadline: May 23, 2019
Sponsor Deadline: June 6, 2019

Hamilton Health Sciences New Investigator Fund
Hamilton Health Sciences’ commitment to “first stage” research led to the creation of the New Investigator Fund (NIF). The fund is an integration of the former HHS Foundation Young Investigator Grants and the HHS Research Development Fund, and provides a unique opportunity to foster and support a culture of inquiry for novice investigators under the mentorship of senior staff. The NIF provides project funding to front-line staff (healthcare professionals and medical staff) towards research initiatives directly relevant to the clinical mission and research strategic direction of Hamilton Health Sciences.

Funding Details: Grants will be awarded based on the excellence exhibited by the research and a maximum of $50,000 awarded per project.

Additional Details
Internal HRS Deadline: N/A
Sponsor Deadline: October 1, 2018

Michael J. Fox Foundation and Weston Brain Institute Computational Science Fellowship
The Michael J. Fox Foundation and Weston Brain Institute Computational Science Fellowship program is a collaboration between the two organizations with the goal of supporting research that will apply sophisticated computational approaches and expertise to advance therapeutic development for neurodegenerative diseases of aging.
Eligibility: The program will be open to Toronto and Montreal-based researchers that hold a position at or above the level of Assistant Professor. Canadian-based researchers working outside of these geographic locations should contact the Institute before applying. Preferred backgrounds include:

- Ph.D. in computational modeling, statistics, computer science, biostatistics, data science, bioinformatics, computational biology or related area
- Interest in biomedical data on neurodegenerative diseases of aging
- Demonstrated fluency in programming languages (R, Python, Matlab, SAS, etc)

Funding Details: Two 18-month fellowships of US$150,000 each for salary support and benefits will be provided for a fellow to work in the lab of the awarded researchers.

Additional Details
Internal HRS Deadline: September 24, 2018
Sponsor Deadline: October 8, 2018

Kidney Foundation of Canada: Allied Health Research Grant
The purpose of the Allied Health Research Grant is to encourage allied health professionals to pursue research relevant to the areas of nephrology and organ donation, including clinical, health services, social, cultural, environmental and population health research. To be eligible for this grant the nominated principal applicant must been an allied health professional.

Funding Details: The award is for up to two years, to a maximum of $50,000/year.

Additional Details
Internal HRS Deadline: October 1, 2018
Sponsor Deadline: October 15, 2018

Hamilton Health Sciences JHCCF Grants Fall 2018
Staff at Juravinski Hospital and Cancer Centre are invited to submit grant applications to The Foundation for funding support in the areas of Research and Education. Juravinski Hospital and Cancer Centre Foundation’s (JHCCF) main purpose is to champion and advance the vision and mandate of the Juravinski Cancer Program (JCP). Through the generosity of our donors, we fund capital redevelopment projects, purchase medical equipment and technology, and invest in research and the professional development of our staff. As part of its commitment to research, the Foundation sponsors a Research Grant Program that awards funding through a rigorous peer reviewed application process, once or twice yearly.

Funding Details: Total Research Funds Available - $310,600

Additional Details
Internal HRS Deadline: N/A
Sponsor Deadline: October 24, 2018

Cystic Fibrosis Canada: 2018 Targeted Research Competition
The objective of the Targeted Research Competition is to support research focused on the following two priority areas, and knowledge gaps within these areas:

- Screening, monitoring, and management of cystic fibrosis-related diabetes (CFRD) with the goal of reducing the burden of care. Areas of focus:
  - Development of more efficient and patient-friendly screening tools;
  - Development or adaptation of new, less invasive therapies to treat CFRD.
- Gastrointestinal symptomatology Areas of focus:
  - Development of a validated tool to reliably quantify gastrointestinal pain and symptoms;
  - Address the etiology of gastrointestinal pain and symptoms, including the validation of biomarkers of gut health or gastrointestinal quality of life.

Funding Details: $100,000 per year for 2 years.

Additional Details
Internal HRS Deadline: October 17
**Canadian Orthopaedic Foundation: Canadian Orthopaedic Research Legacy (CORL) Grant**

In this proposal, applicants are expected to provide a systematic, logical description of the project or line of research, which demonstrates familiarity with the subject matter and a carefully formulated plan of implementation. The rationale, the project plan, the methods and procedures to be used, the mode of analysis to be employed should be clearly outlined. In general terms, the proposal describes the work, proceeding from general theoretical considerations to the specific project, culminating in a budget. The budget qualifies the work in terms of personnel, materials, services or other requirements.

**Funding Details:** Awards are in the amount of $20,000.

**Additional Details**

**Internal HRS Deadline:** October 17

**Sponsor Deadline:** October 31, 2018

**Canadian Orthopaedic Foundation: J. Édouard Samson Award**

The premier award for orthopaedic research in Canada, the J. Édouard Samson Award, recognizes the best career orthopaedic research over a period of five (5) years or more at a Canadian centre. This $30,000 award is intended to promote further research by the recipient. The recipient will present his/her research at the Annual General Meeting of the Canadian Orthopaedic Association (presentation opportunity to be determined). The award consists of an educational grant and a personal research grant to be used by the recipient at the Canadian institution where he/she currently resides. This award is decided based on review and recommendation by the Canadian Orthopaedic Foundation’s Research Committee to the Canadian Orthopaedic Foundation’s Board of Directors.

**Funding Details:** $30,000 over a period of 5 years or more

**Additional Details**

**Internal HRS Deadline:** October 17

**Sponsor Deadline:** October 31, 2018

**Hamilton Health Sciences Health Professional Investigator Operating Grant**

The Health Professional Investigator (HPI) Operating Grant provides project funding to principal investigators (PI) who are HHS-employed healthcare professionals. Inter-professional teams, which include physicians, are encouraged, but physicians are not eligible to apply as lead PI for this grant. The HPI Operating Grant is for research initiatives directly relevant to the clinical mission and priorities/strategic plan of HHS (Patients, People, Sustainability, Innovation and Learning). The grant objective is to provide support for pilot studies or research projects that have the potential to lead to larger projects and the possibility of external funding. The HPI Operating Grant offers an opportunity to foster and support a culture of inquiry for novice to novice to mid-career investigators under the mentorship of experienced researchers.

**Escher Fund for Autism: Investigation of F2 Neurodevelopmental outcomes of F0 pregnancy or F1 Neonatal General Anesthesia**

The study by Ju et al, [Role of epigenetic mechanisms in transmitting the effects of neonatal sevoflurane exposure to the next generation of male, but not female, rats](https://example.com), found neonatal exposure to sevoflurane can affect the next generation of males via germline mediated epigenetic mechanisms, while females were at diminished risk. The study is not the first animal model to observe a next-generation effect of GA. In 1981, Chalon et al found learning retardation in offspring of murine parents exposed to GA in utero—in other words, mental impairment in the grandpups of the exposed gestating dams. See [Exposure to halothane and enflurane affects learning function of murine progeny](https://example.com). And in 1984 the same lab noted that alterations to reproductive cells of adult male mice via the GA agent enflurane adversely affected learning function of their offspring.

**Funding Details:** $25,000

**Additional Details**
**Postdoctoral Funding Opportunity – DeGroote Fellowship Awards**

The Michael G. DeGroote Fellowship Awards are an opportunity for excellent postdoctoral candidates to pursue top-level research training. First awarded in 2008, the awards provide funding to research-intensive individuals looking to further their academic career in the Faculty of Health Sciences at McMaster University.

**Eligibility**

Only candidates who are (a) external to McMaster, or (b) internal students who have yet to begin postdoctoral or health professional degree studies at McMaster, or (c) internal students who began their postdoctoral or health professional degree studies at McMaster no earlier than January 1, 2018, will be eligible for the awards. For candidates who hold (or are completing) a PhD, the proposed supervisor(s) listed in their application must be different than their PhD supervisor. Priority will be given to those applicants whose graduate training has not been exclusively at McMaster.

**Expectations**

It is expected that winning applicants will seek out and attain external funding within their one-year award term. Supervisors are expected to assist their candidates in doing so.

**Further Information**

For more information on the awards, please visit the awards website or send any questions to mgdfa@mcmaster.ca.

**Funding Details:** Each award provides non-renewable funding of $50,000 for one year for successful applicants. The funding is comprised of $40,000 from the Michael G. DeGroote Health Sciences Development Fund and $10,000 contributed by the applicant’s supervisor.

**J.P. Bickell Foundation 2018 Medical Research Grant Competition**

The J. P. Bickell Foundation Medical Research Grants are made to assist biomedical scientists of various departments and faculties in Ontario universities, hospitals and scientific institutions concerned with medical research. These grants may be distributed among medical research institutions and universities in Ontario. Only one application may be submitted by November 1st, 2018 for the annual competition, from any medically oriented faculty. These may be within the health sciences department of a university, or any faculty of that university.

**NOTE:** An internal peer review process will be conducted to select the ONE application to be submitted to the Foundation. All drafts for internal review are due no later than Friday September 28th, 2018.

**Funding Details:** from $50,000 to $65,000

**Additional Details**

**HRS Deadline:** September 28, 2018

**Sponsor Deadline:** November 1, 2018

**Alzheimer Society Research Program (ASRP) 2019 Competition**

The Alzheimer Society Research Program (ASRP) is a successful collaborative initiative of our Federation, within which all the provincial Alzheimer Societies, the Alzheimer Society of Canada (ASC), partners and donors pull together to support research directed at both eradicating dementia and ameliorating the lives of those affected by it. The ASRP provides grants and awards to support Canadian studies that promise new insights into causes, prevention, diagnosis, treatment and management of Alzheimer’s disease and other dementias.
Awards

- Doctoral Awards provide an opportunity for promising individuals, pursuing a PhD, to begin the process of becoming future independent investigators in the field of Alzheimer's disease and other dementias.
- Postdoctoral Awards are for graduates with a PhD or MD who wish to gain additional research experience within an established research environment.

Grants

- New Investigator Grants are designed to help launch the careers of outstanding researchers who are within the first 2 years of their initial academic appointment.
- Regular Grants are designed to fund established researchers.

Funding Details:

- **Doctoral** - $22,000 per year for 3 years.
- **Postdoctoral** - $41,500 per year(PhD) or $51,500 per year(MD) for 2 years.
- **New Investigator Grant** - $75,000 per year for 3 years.
- **Research Grant** - $75,000 per year for 2 years.

**BrightFocus Foundation – Standard Grants: National Glaucoma Research (NGR) Standard Award**

The objective of this award is to provide significant funding for researchers who have already generated some amount of preliminary data, but are often required to demonstrate additional, significant progress before they can apply to governmental or industrial funding agencies.

Funding Details: $200,000 over 2 years

**Canadian Hemophilia Society (CHS) Research Programs: Dream of a Cure**

The CHS Dream of a Cure Research Program, through funds provided by the Hemophilia Research Million Dollar Club and the Canadian Hemophilia Society, supports research focused on improving the health and the quality of life of all people with inherited bleeding disorders and finding a cure. The Canadian Hemophilia Society invites applicants to apply for basic scientific research grants in fields relevant to hemophilia A and B, von Willebrand disease, rare factor deficiencies, platelet function disorders (and platelet pathophysiology) and other congenital and acquired bleeding disorders.

Funding Details: Individual grants valued at $75,000 per year and per project will be awarded to researchers for a maximum of $150,000 which can be expended over 2 or 3 years.

**Canadian Hemophilia Society (CHS) Research Programs: Pfizer Care until Cure Research Program**

This program allows Canadian investigators to conduct research on medical and psychosocial aspects of bleeding disorders, including outcome evaluation. Grants are awarded for clinical research in fields relevant to improving the quality of life for persons with hemophilia, persons with von Willebrand disease or other inherited bleeding disorders, persons with related conditions such as HIV or hepatitis C, and carriers of an inherited bleeding disorder.

Funding Details: Individual grants valued at $75,000 per year will be awarded to researchers for a maximum of $150,000 which can be expended over 2 or 3 years.
Canadian Hemophilia Society (CHS) Research Programs: Novo Nordisk Psychosocial Research Program

The Canadian Hemophilia Society – Novo Nordisk Canada Psychosocial Research Program was created to engage professionals/graduate students from the allied health disciplines (ie. Nursing, Physiotherapy & Social Work) in research activities addressed to understanding the psychosocial impact of hemophilia and other inherited bleeding disorders and to improve the quality of life of persons and families whose lives are affected by these disorders. The Research Grants are made possible thanks to generous financial support from Novo Nordisk Canada. Novo Nordisk develops, manufactures and markets products that make a significant difference to patients, the medical profession and society. Novo Nordisk has a leading position within areas such as coagulation disorders, growth disorders and hormone replacement therapy. In addition, Novo Nordisk is also the world leader in diabetes care. The CHS is proud to be in a partnership with Novo Nordisk in order to offer this important Research Program.

**Funding Details:** The primary intent of this program is to offer one or two $20,000 research grants, to a maximum of $40,000 for one year.

**Sponsor Deadline:** November 15, 2018

Canada India SCI Innovation Award – Getting Solutions to Market

IC-IMPACTS is soliciting proposals aimed at addressing the treatment and care of people living with Spinal Cord Injury (SCI) and secondary complications. This competition seeks to attract innovators, medical practitioners and researchers in Indian and Canadian universities/institutes to work collaboratively across borders, develop and commercialize innovative technologies in the treatment and care of people who are living with SCI and associated secondary complications. During the February 2018 visit of the Honourable Kirsty Duncan to New Delhi, an agreement was signed by IC-IMPACTS, the Rick Hansen Institute (RHI), and the India Spinal Injuries Centre (ISIC) to develop this grant competition that will bring about innovative solutions in the treatment and care of millions of people in India and Canada. As a result, IC-IMPACTS (Canada), RHI (Canada), and ISIC (India) have now partnered to launch this grant competition.

**Funding Details:** Successful applicant(s) will be awarded a grant of up to CAD $50,000.

**Additional Details**

**LOI Deadline:** September 30, 2018  
**Internal HRS Deadline:** N/A  
**Sponsor Deadline:** November 15, 2018

Hamilton Health Sciences Early Career Awards

The Hamilton Health Sciences Research Early Career Awards are research personnel stipends awarded annually. These Early Career Awards are to be used to help the applicant pursue research in their specialty area through either purchasing a portion of time for the applicant’s salary OR a portion of time for salaries of research personnel who are supervised by the applicant.

**Funding Details:** Funding will be allocated to support up to eight awards each year. The value of each award will be up to $50,000 annually. Benefits are not included. The duration of the award will be up to three years.

**Additional Details**

**Internal HRS Deadline:** N/A  
**Sponsor Deadline:** November 15, 2018
**Fulbright Canada: Awards for Canadian Scholars**

Fulbright Canada has recently announced the following Awards for Canadian Scholars:

1) **Canadian Traditional Scholar Awards**, the objective: to enable emerging and established scholars, post-doctoral researchers and experienced professionals to conduct research, teach, or undertake a combination of both activities for one semester or a full academic year at any university or research center of their choice in the United States. Fulbright Canada is particularly interested in encouraging research on contemporary issues relevant to Canada, the United States and the relationship between the two countries. Applicants should also clearly document the need to be in residence in Canada to carry out the project. [Additional Details](#)

2) **Canadian Visiting Research Chairs** are pre-arranged affiliations that allow scholars to conduct research/lecture on subjects important to that university. Partner universities are excited to welcome the Fulbright Visiting Chairs into campus life and encourage them to engage with students, faculty, and the broader community. Fulbright Visiting Research Chairs can guest lecture in university courses, mentor students, lecture in public venues, network, and promote their research, while representing the Fulbright program, and their home and host institutions. [Additional Details](#)

**Funding Details:**
- **Canadian Traditional Scholar Awards** - up to $12,500 for one semester, September 2019 or January 2020
- **Canadian Visiting Research Chairs** – up to $25,000 for one semester, September 2019, or January 2020

Internal HRS Deadline: November 1, 2018  
Sponsor Deadline: November 15, 2018

**Social Sciences and Humanities Research Council (SSHRC) Partnership Engage Grants**

Partnership Engage Grants are expected to respond to the objectives of the [Insight](#) program and the [Connection](#) program. Please note that Partnership Engage Grants cannot respond exclusively to the objectives of the Connection program. They provide short-term and timely support for partnered research activities that will inform decision-making at a single partner organization from the public, private or not-for-profit sector. The small-scale, stakeholder-driven partnerships supported through the Partnership Engage Grants are meant to respond to immediate needs and time constraints facing organizations in non-academic sectors.

**Funding Details:** Partnership Engage Grants are valued at $7,000 to $25,000 over one year.

**Internal HRS Deadline:** December 3, 2018  
**Sponsor Deadline:** December 17, 2018

**The Michael J. Fox Foundation: Grants**

The Michael J. Fox Foundation has announced 4 new funding opportunities. Please see [Additional Details](#) for further information regarding each grant.

**Funding Details:**
- **Target Advancement** – Maximum $150,000 over 12-18 mos.
- **Therapeutic Development** – Pre-Clinical - $100,000 - $500,000 over 1-2 years; Clinical - $1-2 Million over 2-3 years.
- **Outcome Measures** – Maximum $750,000 over 1-3 years.
- **Using Epidemiological Datasets to Identify Risk and Protective Factors for Parkinson’s Disease** – Maximum $500,000 over 1-2 years.

**LOI Deadline:** September 26, 2018  
**Internal HRS Deadline:** January 8, 2019  
**Sponsor Deadline:** January 22, 2019

**Lyle Spencer Research Awards**

The Lyle Spencer Research Awards Program is intended to support intellectually ambitious research oriented to improving the practice of education, independent of any particular reform agendas or methodological strictures. It supports projects with budgets up to $1 million. In this program, we envision a large-minded conception of educational practice that encompasses formal and informal learning as well as the institutional, policy, and normative frameworks that influence and are influenced by learning and developmental processes. Moreover, we recognize learning occurs across settings—from the classroom to the workplace and even onto the playing field—and any of which may, in the right circumstance, provide the basis for rewarding study.

**Funding Details:** Projects with budgets of up to $1 million are supported.

**Additional Details**

**LOI Deadline:** October 2, 2018  
**Internal HRS Deadline:** TBD  
**Sponsor Deadline:** Mid-February 2019

**Alex’s Lemonade Stand Foundation: Innovation Grants**

Alex’s Lemonade Stand Foundation (ALSF) evolved from the front yard lemonade stand of cancer patient Alexandra “Alex” Scott (1996-2004) into a national fundraising movement to find a cure for all childhood cancers. We are dedicated to filling critical funding gaps in pediatric oncology investigation, especially research into new treatments and cures. The Innovation Grant is designed to provide critical and significant seed funding for experienced investigators with a novel and promising approach to finding causes and cures for childhood cancers. Proposals should have clinical translation in view.

**Funding Details:** $125,000 annually for 2 years.

**Additional Details**

**LOI Deadline:** November 1, 2018  
**Internal HRS Deadline:** March 25, 2019  
**Sponsor Deadline:** April 8, 2019

**Weston Brain Institute Postdoctoral Scholars at Oxford**

The Weston Brain Institute Postdoctoral Scholars at Oxford program supports top-tier Canadian postdoctoral scholars by providing international training at the University of Oxford and affiliation with Merton College. Prior to submitting an application, candidates should independently identify a host lab and potential supervisor at the University of Oxford who agrees to supervise them if awarded. Awardees will receive salary support for their postdoctoral positions at Oxford.
**Funding Details:** £57,000 per year (£44,000 per year + benefits) for 2 years.

**Additional Details**

**Sponsor Deadline:** Applications are being accepted on a rolling basis, until 2 positions at a time are filled.

**Weston Brain Institute International Fellowships: Canada**

Neurodegenerative diseases of aging are among the least understood and most undertreated diseases today. If ignored, the social and economic costs of managing these diseases will continue to rise. Meeting these challenges requires pioneering approaches to accelerating treatments. The Weston Brain Institute is pleased to launch our International Fellowships: Canada program. The program will support top Canadian PhD students to travel to and work in world-renowned international labs for up to 12 months, to further their translational research on neurodegenerative diseases of aging.

**Funding Details:** $60,000 per year, prorated at $5,000 per month to fit shorter travel and specific project needs

**Additional Details**

**Sponsor Deadline:** Applications are being accepted on a rolling basis

**McMaster University, McMaster Institute for Research on Aging (MIRA), Labarge Centre for Mobility in Aging (LCMA): Matching Funds for Research Opportunities**

The McMaster Institute for Research on Aging (MIRA) aims to optimize the health and longevity of the aging population through leading-edge research, education and stakeholder collaborations. The institute intends to amplify McMaster’s strength in aging-focused research through stimulating new partnerships, facilitating access to research funding, raising the profile of McMaster’s research platforms, and building capacity among students and faculty members. In order to improve the positioning of McMaster’s researchers in external funding competition, MIRA and the Labarge Centre for Mobility in Aging (LCMA) have allocated funding that could be used to match or leverage external funds. This process is intended to be used for requests related to externally funded, peer-reviewed grant competitions that require a matching component.

**Funding Details:** maximum $100,000 (total cash and/or in-kind) non-renewable funding anticipated support 1-2 projects per year

**Additional Details**

**Sponsor Deadline:** Ongoing

**MITACS Accelerate Fellowship**

The Mitacs Accelerate Fellowship provides a long-term funding and internship option for master’s and PhD students. Recipients can also access professional development training that helps them ensure project success and gain in-demand career skills. Interested applicants can apply for the Accelerate Fellowship at any time. All other Accelerate program guidelines apply.

**Funding Details:**
- **Master’s students** - $40,000 total research award for 18 mos. Minimum intern stipend is $30,000 and partner organization contribution is $18,000
- **PhD students** - $80,000 total research award for 36 mos. Minimum intern stipend is $72,000 (24,000/year) and partner organization contribution is $36,000

**Additional Details**

**Sponsor Deadline:** Ongoing

**Weston Brain Institute: Early Phase Clinical Trials: Canada**

Neurodegenerative diseases of aging are among the least understood and most undertreated diseases today. If ignored, the social and economic costs of managing these diseases will continue to rise. Meeting these challenges requires pioneering approaches to accelerating treatments. The Early Phase Clinical Trials: Canada program was created to provide funding support for clinical trials and clinical trial sub-studies that have excellent preliminary data. Eligible Principal Applicants must be at or above the level of Assistant Professor or equivalent, and be affiliated with a Canada Revenue Agency-qualified donee institution located in Canada. Co-applicants and Collaborators must be at the post-doctoral level or above, and can be working outside Canada.
An application requires the submission of a Letter of Intent which will be reviewed by our scientific review committee. Applicants with high potential projects will then be invited to submit a Proposal. Instructions for submitting the Proposal will be forwarded to those invited. Applicants can expect to receive the outcome of their LOI application approximately 2 months after submission.

**Funding Details:** A maximum of $1,500,000 per project over up to 4 years.

**Additional Details**
**Sponsor Deadline:** Ongoing

**OCE Voucher for Innovation and Productivity (VIP I) Program**
The VIP I Program brings industry and academia together to solve industry’s innovation challenges. It helps eligible companies develop, implement and commercialize technical innovations by supporting partnerships between Ontario's industry and publicly funded post-secondary institutions. The program supports collaborations between industry and post-secondary institutions up to 12 months in duration that lead to knowledge mobilization, commercialization and increased productivity with significant economic impact (i.e. generating new revenues and high-value jobs) for Ontario including the development of new products and/or processes, facilitate productivity improvements. Open to all disciplines, but it has to be a for-profit. Company must have been in operation for a minimum of two years, AND have a minimum of two full-time employees.

**Funding Details:** OCE will support up to 50% of the eligible research costs, to a maximum OCE investment of $20,000.

**Additional Details**
**Sponsor Deadline:** Ongoing
*To Apply, Contact Bertha Monrose, Contracts Advisor, MILO at monrose@mcmaster.ca or extension 22416*

---

**OCE Voucher for Innovation and Productivity II (VIP II) Program**
The VIP II program helps established Ontario-based companies develop, implement and commercialize technical innovations by supporting partnerships with publicly-funded post-secondary institutions. Projects funded through VIP II address company needs by enabling the development of new products and/or processes, or facilitating productivity improvements, by leveraging post-secondary institutions' skills and resources. Projects must ultimately help generate new revenues and create high-value jobs for Ontario companies. You can also leverage your sponsor’s contribution through the NSERC CRD program for additional research funds.

**Funding Details:** The VIP II program supports collaborations between companies and publicly-funded post-secondary institutions for durations of 12 and 24 months to a maximum of $150,000.

**Additional Details**
**Sponsor Deadline:** Ongoing
*To Apply, Contact Bertha Monrose, Contracts Advisor, MILO at monrose@mcmaster.ca or extension 22416*

---

**MITACS Accelerate Program**
Canada’s premiere research internship program provides interns with the opportunity to transfer their skills from theory to real-world application, while companies gain a competitive advantage by accessing high-quality research expertise. Interns spend approximately half their time on-site with the industry partner; the remainder is spent at the university advancing the research under the guidance of a faculty supervisor. Not-for-profit organizations are eligible.

**Funding Details:** Funding starts at $15,000

**Additional Details**
**Sponsor Deadline:** Ongoing

**Department of Defense Reconstructive Transplant Research Program (RTRP) Funding Opportunities for Fiscal Year 2018**
Many factors related to weaponry, personal protection, and trauma care during Operations Enduring Freedom and Iraqi Freedom resulted in greater survival of those sustaining increasingly severe combat injuries, particularly injuries to the face and the
extremities. The intent of the RTR program is to advance the field of VCA to make the procedure possible for a broader population of patients, and to restore our wounded warriors to duty or to meaningful lives. The RTR program was initiated in 2012 to fund innovative projects in an array of topic areas within the field of VCA. Beneficiaries of the techniques and technologies developed with this funding include injured Service Members, Veterans, their caregivers, and family members, as well as civilians who have suffered catastrophic tissue loss.

Funding Details:
- **Concept Award** – Maximum funding of $200,000 for total costs. Maximum period of performance is 18 months.
- **Investigator-Initiated Research Award:**
  - **Individual PIs** – Maximum funding of $1 million (M) for total costs. Maximum period of performance is 3 years.
  - **Multiple PIs** - Maximum funding of $1.5M for total costs. Maximum period of performance is 3 years.
- **Qualitative Research Award:**
  - **Individual PIs** – Maximum funding of $1M for total costs. Maximum period of performance is 3 years
  - **Partnering PI Option** - Maximum funding of $1.5M for total costs. Maximum period of performance is 3 years.

**Additional Details**
LOI Deadline: **October 3, 2018** (A pre-application is required and must be submitted through eBRAP)
Internal HRS Deadline: **October 10, 2018**
Sponsor Deadline: **October 24, 2018**

**Department of Defense Lupus Research Program (LRP) Funding Opportunities for Fiscal Year 2018**
The Lupus Research Program (LRP) was first funded in FY17 to support innovative and impactful research that addresses significant issues and gaps in lupus. Lupus is a heterogeneous autoimmune disease that is difficult to diagnose and treat. There is currently no test available to diagnose lupus and it may take months or years for a person to be correctly diagnosed. Because lupus attacks healthy cells and tissues in many parts of the body, patients can experience a wide range of symptoms such as fatigue, joint pain, skin lesions, and headaches. Lupus can also cause inflammation in the kidneys, brain, blood vessels, lungs, and heart which can result in serious complications including organ damage. Lupus patients require a diverse team of healthcare specialists depending on their symptoms.

Funding Details:
- **Concept Award** – The maximum period of performance is 1 year. The maximum allowable funding for the entire period of performance is $150,000 in total costs.
- **Impact Award** – The maximum period of performance is 3 years. The maximum allowable funding for the entire period of performance is $525,000 in total costs.

**Additional Details**
LOI Deadline: **October 10, 2018** (A pre-application is required and must be submitted through eBRAP)
Internal HRS Deadline: **October 24, 2018**
Sponsor Deadline: **November 7, 2018**

**Department of Defense Gulf War Illness Research Program (GWIRP) Funding Opportunities for Fiscal Year 2018**
The GWIRP focuses on funding innovative, competitively peer-reviewed research to (1) provide a better understanding of the pathobiology underlying GWI, (2) identify objective markers (biomarkers) for improved diagnosis, and (3) to develop treatments for the complex of GWI symptoms and their underlying causes. Their Vision is to make a significant impact on GWI and improve the health and lives of affected Veterans and their families.

Funding Details:
- **New Investigator Award** - The maximum allowable funding for the entire period of performance is $500,000 for direct costs. The maximum period of performance is 3 years. Indirect costs may be proposed in accordance with the institution’s negotiated rate agreement.

**Additional Details**
LOI Deadline: **October 18, 2018** (A pre-application is required and must be submitted through eBRAP)
Internal HRS Deadline: **October 25, 2018**
Department of Defense Breast Cancer Research Program (BCRP) Funding Opportunities for Fiscal Year 2018

The BCRP challenges the scientific community to design research that will address the urgency of ending breast cancer. Specifically, the BCRP seeks to accelerate high-impact research with clinical relevance, encourage innovation and stimulate creativity, and facilitate productive collaborations.

Funding Details:
- **Breakthrough Award Levels 1 and 2 II:**
  - **Funding Level 1** – Maximum funding of $375,000 for direct costs (plus indirect costs) The maximum period of performance is 3 years.
  - **Funding Level 1 with Partnering PI Option** – Maximum funding of $600,000 for direct costs (plus indirect costs) The maximum period of performance is 3 years.
  - **Funding Level 2** – Maximum funding of $750,000 for direct costs (plus indirect costs) The maximum period of performance is 3 years.
  - **Funding Level 2 with Partnering PI Option** - Maximum funding of $1 million (M) for direct costs (plus indirect costs). The maximum period of performance is 3 years.

Additional Details
- **LOI Deadline:** November 1, 2018 (A pre-application is required and must be submitted through eBRAP)
- **Internal HRS Deadline:** November 8, 2018
- **Sponsor Deadline:** November 15, 2018

Department of Defense Duchenne Muscular Dystrophy Research Program (DMDRP) Funding Opportunities for Fiscal Year 2018

Duchenne muscular dystrophy (DMD) affects approximately 1 out of every 3,500 male infants (about 20,000 new cases a year). This form of muscular dystrophy results from mutations in the dystrophin gene that lead to an absence of dystrophin in muscle cells, allowing these cells to be easily damaged. Boys living with DMD experience devastating muscle weakness that affects the skeletal muscles, heart, and respiratory muscles. Symptoms of DMD typically develop prior to age 5, and by age 12 most patients are confined to a wheelchair.

Funding Details:
- **Career Development Award** - Maximum funding of $275,000 in direct costs (plus indirect costs) Period of performance not to exceed 2 years.

Additional Details
- **LOI Deadline:** November 14, 2018 (A pre-application is required and must be submitted through eBRAP)
- **Internal HRS Deadline:** November 21, 2018
- **Sponsor Deadline:** December 5, 2018

Department of Defense Psychological Health/Traumatic Brain Injury Research Program (PH/TBIRP) Funding Opportunities for Fiscal Year 2018

The Psychological Health and Traumatic Brain Injury Research Program (PH/TBIRP) was established by Congress in FY07 in response to the devastating impact of TBI and PH issues, including post-traumatic stress disorder (PTSD), on our deployed Service members in Iraq and Afghanistan. Appropriations totaling $300M—$150M each for TBI and PH (including PTSD)—were assigned to the CDMRP for the purpose of soliciting and managing critical TBI- and PH-related research and development efforts to benefit Service members, veterans, and other beneficiaries of the military health system.

Funding Details:
- **Complex Traumatic Brain Injury Rehabilitation Research – Clinical Research Award (CTRR – CRA)** - Maximum funding of $2.0M for total costs (includes direct and indirect costs) Maximum period of performance is 3 years.
- **Complex Traumatic Brain Injury Rehabilitation Research – Clinical Trial Award (CTRR – CTA)** - Maximum funding of $2.0M for total costs (includes direct and indirect costs) Maximum period of performance is 3 years.
- **Complex Traumatic Brain Injury Rehabilitation Research – Clinical Trial Development Award (CTRR-CTDA)** - Maximum funding of $200,000 for total costs (includes direct and indirect costs) Maximum period of performance is 12 months.

- **Joint DoD and VA Long-term Impact of Military-relevant Brain Injury Consortium (LIMBIC)** - Maximum allowable costs (direct and indirect) are $25M via the DoD. Up to an additional $5M per year for 5 years will be provided by the VA to VA sites, depending on availability of funds. Maximum period of performance is 5 years.

**Additional Details**
- **LOI Deadline:** September 24, 2018 (A pre-application is required and must be submitted through eBRAP)
- **Internal HRS Deadline:** December 3, 2018
- **Sponsor Deadline:** December 17, 2018

Please note the following deadlines for the **LIMBIC Mechanism**:
- **LOI Deadline:** October 8, 2018
- **Internal HRS Deadline:** December 17, 2018
- **Sponsor Deadline:** January 7, 2019
