

M c M A S T E R CHILDREN & YOUTH UNIVERSITY

Interested in Youth Outreach? Let us know!

McMaster Children and Youth University offers free, monthly Saturday morning lectures for young students on topics that span all Faculties, to ignite their curiosity and expose them to the university environment. Since its inception in 2011, our program has demonstrated steady growth. In 2012, we successfully collaborated with Let's Talk Science to provide post-lecture activities at our science based lectures. In 2013, our aim is to step outside the walls of the University and provide these educational opportunities to children and youth who are not able to make the journey to the campus.

MCYU, with the support of Forward with Integrity funding, is seeking collaborations with McMaster faculty and staff who are interested in providing outreach to children and youth in Hamilton and surrounding areas.

To discuss possible collaborative opportunities and achieve mutually beneficial objectives of outreach efforts, please contact us at cymac@mcmaster.ca or by phone at 905-521-2100 x76947

Our goal is to engage, excite and educate youth in a wide variety of subject areas including, but not limited to: bio-medical & natural sciences, social sciences, engineering and business.
