

**Innovation in Cancer Survivorship and Community-Based Primary Health Care: National Stakeholder Meeting
January 9 – 10, 2011 – McMaster Health Forum**

The national stakeholder meeting held at McMaster involved panel discussions, presentations and group work to identify research priorities and solutions for improving cancer survivorship care. Here are some photos taken on January 9.

The group of researchers, decision-makers, patient advocates and health care providers listen to a presentation.
