A. Andrew Luu
An evaluation of two approaches to skin bolus design for radiation therapy planning of head and neck cancer patients

B. Tiffany Finnie
Simple Figure of Merit Tool to Assess HDR Intraluminal Brachytherapy Plans

C. Cynthia Wong
Optimization of Eclipse RapidArc’s Normal Tissue Objective to determine a standard setting for use in post-prostatectomy radiotherapy treatment planning

D. Nisha Goel
A retrospective review of pain management in patients with bony metastases secondary to prostate cancer

E. Nhu Tram Nguyen
0-7-21 Palliative Radiotherapy for Advanced Head and Neck Cancers: A Retrospective Study

F. Mahraz Anjum
Thrombotic events in metastatic colorectal cancer patients treated with folfiri plus bevacizumab

G. Jason Yu
Prognostic factors (PF) influencing overall survival (OS) in stage IV colorectal cancer (CRC)

H. Punam Rana
Anti-proliferative Effects of Vitamin D and Melatonin in Breast Cancer
I. Robin Hallett  
_Estrogen independent gene expression defines clinically relevant subgroups of estrogen receptor positive breast cancer_

J. Shaiya Robinson  
_Expression of the POZ-ZF protein, Znf131, negatively correlates with breast tumor grade and stage and activates the cell cycle gene cyclinD1 in an estrogen-independent manner_

K. Sameul Workenhe  
_Combining HSV-1 based ICPO null oncolytic virus with immunogenic cancer cell death inducing drug stimulates the immune response to break immunological tolerance_

L. Analucia Garcia  
_The effects of azacytidine and MS-275 on the oncolytic capacity of bovine herpes virus type 1 in human lung tumour cells_

M. Daniela Tantalo  
_Gemcitabine and 5-Fluorouracil sensitize tumor cells to killing by Chimeric Antigen Receptor (CAR) engineered CD8+ T cells_

N. Joanne Hammill  
_Development of a Murine Model of Metastatic Breast Cancer for Evaluation of Chimeric Antigen Receptor (CAR)-Based T cell Therapies_

O. Brian Healy  
_Outcomes of elderly patients with locally advanced non-small cell lung cancer (LA-NSCLC) treated with radiation +/- Chemotherapy at the Ottawa Hospital Cancer Centre (TOHCC)_

P. Wendy Ng  
_Immediate Breast Reconstruction with One Stage Placement of Permanent Implant Compared to Two Stage Tissue Expander Reconstruction_
