The Department of Pathology and Molecular Medicine, Laboratory Medicine McMaster University, invites applications for a one year Forensic Pathology Residency Program (PGY-6) for the academic year.

The Department of Pathology and Molecular Medicine and the Hamilton Regional laboratory medicine Program’s Regional Forensic Pathology Unit provides outstanding forensic pathology services for South Centre Ontario, serving a population of over 2.2 million in a newly renovated state-of-the-art facility located at Hamilton Health Sciences Centre.

The dedicated Forensic Pathology Unit is recognized as a centre of excellence for the delivery of the full cross section of forensic cases and as an integrated provincial site of Ontario Forensic Pathology Services (OFPS). A high volume of complex cases provides a wide variety of material for study and research with the unit performing in excess of 600 cases annually, including in-house subspecialty support by paediatric pathology, neuropathology and cardiac pathology.

To be eligible, candidates must:
- Be a Canadian citizen or have Permanent Residency status
- Possess an MD Degree [Canadian Medical Graduate (CMB)/US Medical Graduate (USMG)/International Medical Graduate (IMG)]
- Be currently enrolled in a Canadian medical school
- Be completing a General or Anatomical Pathology Royal College training program by June 30, 2016
- IMG candidates must have successfully passed the Medical Council of Canadian Evaluating Examination (MCCEE)

Remuneration will be in accordance with the terms of the current PAIRO-CAHO agreement: agreement can be found on the PAIRO website: www.pairo.org

All eligible candidates must complete:
- The McMaster University application form (http://fhs.mcmaster.ca/postgrad/) under “Forms and Manuals”
- Include a brief personal letter outlining career goals and objectives
- Curriculum Vitae
- Names and addresses of two referees
- Copy of MCCEE examination results (if applicable)

Applications will be accepted until October 15, 2016 either by email, post or fax
