

Pediatric Grand Rounds

Health Canada new safety information on gadolinium: What now?

This lecture will review the recent Health Canada warning placed for gadolinium agents, implications of it into the day-to-day practice, including changes in the way patients should receive informed consent. Alternatives to it will be explored and review of research initiatives to overcome this problem.

DR. NINA STEIN graduated from medical school and completed her radiology residency in Brazil. She completed a one year fellowship in pediatric body imaging and another year in pediatric neuro imaging at The Hospital for Sick Children from 2009-2011. Dr Stein is an Associate Professor in the Department of Radiology at McMaster University and Pediatric Radiologist at McMaster Children's Hospital. She is the Head of Pediatric Imaging and Pediatric Neuroradiology as well as the Chief of the MRI unit at MUMC.
