Acknowledgements

We would like to thank the following people and organizations for their support:

- The Association for Nurses in AIDS Care for providing free copies of the JANAC journal
- Chiang Mai University, Faculty of Nursing
- Inge Corless for organizing the programme
- Empress Hotel, Chiang Mai, Thailand, for extending a special rate for conference participants
- Apinya Jumpamool, Khon Kaen University, for local support
- Dennis Martell for facilitating funding from the Office of AIDS Research, National Institutes of Health
- Jeanne McDermott for facilitating funding through the Fogarty International Center, National Institutes of Health, AIDS International Training and Research Program
- Wilawan Senaratana and Areewan Klunklin, Chiang Mai University, Faculty of Nursing, for local support
- All of the volunteers from the UCSF International HIV/AIDS Nursing Research Network for abstract review, on-site support, and other assistance

We would also like to extend a special thanks to the organizations that provided scholarships for participants:

- The John E. Fogarty International Center, National Institutes of Health’s AIDS International Training and Research Program (AITRP) Centers:
  - Harvard University (Max Essex, PI)
  - Baylor College of Medicine (Mark W. Kline, PI)
  - University of California, Berkeley (Arthur L. Reingold, PI)
  - Columbia University (Salim S. Abdool Karim, PI)
  - University of Miami School of Medicine (Gail Shor-Posner, PI)
- Office of AIDS Research, National Institutes of Health (35 scholarships)

Finally, we would like to thank all of the sponsors of the conference:

- Association of Nurses in AIDS Care
- Chiang Mai University, Faculty of Nursing
- International Council of Nurses, Geneva
- Office of AIDS Research, National Institutes of Health
- University of California San Francisco, School of Nursing
- UCSF International HIV/AIDS Nursing Research Network
Introduction

On July 7–8, 2004, the University of California, San Francisco International HIV/AIDS Nursing Research Network and Chiang Mai University Faculty of Nursing hosted an international conference titled, “Nursing Science & HIV/AIDS: Global Challenges and Opportunities.” The two-day conference was held four days prior to the 2004 XV International AIDS Conference in Bangkok, Thailand.

The International HIV/AIDS Nursing Research Network was established in 1995 to positively influence the quality of care and patient outcomes across the spectrum of HIV disease through generating and sharing nursing research (Appendix 1). Since that time, the Network has met twice a year to discuss issues related to nursing research, and has conducted three multi-site international studies on nursing and HIV/AIDS.

In discussions at various meetings, Network participants suggested that a next logical step in the work of the group was to create a forum for sharing research on nursing and HIV/AIDS. The Network decided to take advantage of the upcoming XV International AIDS Conference in Bangkok, Thailand to highlight the work of nurse-scientists in the area of HIV/AIDS. Because the Schools of Nursing at the University of California, San Francisco (UCSF) and Chiang Mai University (CMU) are World Health Organization Collaborating Centres for Nursing and Midwifery, a relationship between the two already existed. UCSF invited Chiang Mai University, as well as the International Council of Nurses, to collaborate in hosting this important conference. Other organizations later joined to co-host the conference: National Institutes of Health Office of AIDS Research, Association of Nurses in AIDS Care, and various AIDS International Training and Research Program Centers (AITRP) (Harvard University, Baylor College of Medicine, University of California at Berkeley, Columbia University, and University of Miami School of Medicine).

The overarching goal of the conference was to improve care for persons living with and affected by HIV/AIDS. The conference had two specific aims:

1. To increase knowledge about HIV/AIDS and nursing through presentation of scientific research on prevention and care; and

2. To strengthen international networks among nurse-scientists in order to ensure the sustainability of effective nursing research, particularly in the area of HIV/AIDS.

This conference, a collaborative effort of nurses around the world, was an opportunity to showcase the important work of nurse-scientists in the area of HIV/AIDS, and to create important linkages for future research.
Public Health Significance

UNAIDS reported that in 2004, there were 4.9 million new HIV infections worldwide, 3.1 million people died due to HIV/AIDS and, at the end of the year, 39.4 million adults were living with HIV/AIDS (www.unaids.org, December 2004). In many cases, nurses will have been the main care providers for people living with and affected by HIV/AIDS. Because they work so closely with patients, nurses have a unique understanding of the issues that people living with and affected by HIV/AIDS face, as well as a connection with the communities that they serve. This not only helps to inform research needs, but also gives nurse-scientists access to hard-to-reach communities of potential research participants. The research produced by nurse-scientists in the past has informed prevention and care programs and interventions. Venues for sharing and encouraging such work among nurses are rare, yet essential.

Conference Planning

The “Nursing Science & HIV/AIDS: Global Challenges and Opportunities” conference was organized almost entirely on a volunteer basis by members of the UCSF International HIV/AIDS Nursing Research Network. Three committees coordinated the various aspects of the conference: the Conference Committee, the Programme Committee, and the Local Hospitality Committee.

The Conference Committee oversaw the management of the conference as a whole. This included working with the other committees and with other hosts and sponsors, as well as overseeing the budget. The members of the Conference Committee were:
- William Holzemer, RN, PhD, UCSF School of Nursing (Chair)
- Catherine Bain, RN, MS, UCSF School of Nursing
- Inge Corless, RN, PhD, Massachusetts General Hospital Institute of Health Professions
- Yvette Cuca, MPH, MIA, UCSF School of Nursing
- Emily Huang, BS, UCSF School of Nursing

The Programme Committee was responsible for arranging the schedule of events, inviting guest speakers, reviewing abstracts, and finalizing the program. The Programme Committee worked closely with the Conference Committee. Its members were:
- Inge Corless, RN, PhD, Massachusetts General Hospital Institute of Health Professions (Chair)
- Eli Bunch, RN, DNSc, University of Oslo Institute of Nursing Science
- Fang-Yu Chou, RN, PhD, UCSF School of Nursing
- Christopher Coleman, PhD, Virginia Commonwealth University Integrative Systems
- Yvette Cuca, MPH, MIA, UCSF School of Nursing
- Pamela Dole, RN, EdD, MPH, Greenwich House, New York
- Lucille Sanzero Eller, PhD, RN, Rutgers University College of Nursing
- Mary Jane Hamilton, PhD, RN, Texas A&M University – Corpus Christi
- William Holzemer, RN, PhD, UCSF School of Nursing
- Jeanne Kempainen, PhD, RN, CNS, University of North Carolina at Wilmington
- Kenn Kirksey, RN, PhD, California State University, Fresno
- Patrice Nicholas, DNSc, MPH, RN, ANP, Massachusetts General Hospital Institute
- Kathleen Nokes, RN, PhD, FAAN, City College of New York Hunter College
- Ladaval Ounprasertpong, RN, PhD, Mahidol University
The Local Hospitality Committee was responsible for ensuring that the conference ran smoothly, including liaising with the hotel and ensuring meals for attendees. The Local Hospitality Committee also worked closely with the Conference Committee. Members included:

- Wilawan Senaratana, RN, MPH, Chiang Mai University Faculty of Nursing (Chair)
- Apinya Jumpamool, MSN, PhD, Khon Kaen University
- Sunee Junmahasathien, Chiang Mai University Faculty of Nursing
- Areewan Klunklin, Chiang Mai University Faculty of Nursing
- Kulwadee Mutumel, Chiang Mai University Faculty of Nursing
- Carmen Portillo, RN, PhD, UCSF School of Nursing
- Chommond Potjanamait Chiang Mai University Faculty of Nursing
- Sule Satit, Chiang Mai University Faculty of Nursing
- Anchara Sukonthasarn, Chiang Mai University Faculty of Nursing
- Darawan Thapinta, PhD, Chiang Mai University Faculty of Nursing
- Wilawan Tuanrat, Chiang Mai University Faculty of Nursing
- Susan Yimyam, Chiang Mai University Faculty of Nursing

Programme

The conference programme was designed by the Programme Committee. The committee disseminated a call for abstracts in Fall 2003 through the Network email listserv, the WHO Collaborating Center email listserv, and various other networks (Appendix 2). Investigators could submit abstracts for oral paper presentations (completed research) or oral poster presentations (ongoing research). In early January 2004, the Programme Committee and other volunteers conducted a blind peer review of the abstracts, based upon criteria developed by the committee (Appendix 3). Each abstract was reviewed by at least three people. The committee grouped the presentations and developed a conference programme (Appendix 4). The Programme Committee also invited six nurse-scientists to make plenary presentations about specific issues related to nursing research and HIV/AIDS. The plenary speakers represented a wide variety of backgrounds as well as most major regions of the world.

On Wednesday, July 7, 2004, the president of Chiang Mai University, Nipon Tuwanon, gave a welcome speech at the opening ceremony of the conference. Also welcoming the participants were William Holzemer (Conference Chair, UCSF School of Nursing), Wipada Kunaviktikul (Chiang Mai University Faculty of Nursing), and Adele Webb (Association of Nurses in AIDS Care). The opening ceremony also included an open letter from Tesfamicael Ghebrehiwet (International Council of Nurses), who was not able to attend in person. Inge Corless (MGH Institute of Health Professionals) moderated the program.
Presentations on Wednesday morning focused on HIV/AIDS in Thailand. Dr. Wilawan Senaratana (past dean of Chiang Mai University Faculty of Nursing) discussed HIV prevention in Thailand. This plenary presentation was followed by a panel presentation about general HIV/AIDS issues in Thailand. Wednesday afternoon, participants chose to attend a panel presentation on symptom management in Africa or a panel presentation on the role of health care providers in HIV/AIDS care. Another plenary panel late Wednesday afternoon included nurse-scientists from around the world discussing the challenges of collaborative research.

Thursday began with a plenary presentation by Leana Uys (University of KwaZulu Natal) on HIV/AIDS in South Africa. Then participants were offered panel presentations on HIV/AIDS in Malawi, women and HIV/AIDS, or psychosocial factors and HIV/AIDS. In the afternoon, participants could again choose from panel presentations on living with HIV-related symptoms, adherence, or home-based care. The final session was devoted to making plans for future conferences. Participants were given the opportunity to ask questions after each presentation.

Other activities were interspersed among the formal paper presentations and plenary sessions. During the breaks, the posters were presented and the investigators were available to answer questions about their respective studies. On both days, people chose lunch tables based upon their research interests. And, on Wednesday evening, participants were treated to a traditional Thai dinner, complete with dancing. On Friday morning, though not part of the official conference activities, the Network held a meeting to discuss future research and conference activities.

In all, 98 people, representing approximately 20 countries attended the conference (Appendix 5). Thirty-five papers and 14 posters were presented.

Scholarships
In order to facilitate attendance at the conference by people from low-income countries and by minorities from the United States, travel scholarships were provided to 48 attendees from 15 different countries (Appendix 5). These scholarships were generously funded by the National Institutes of Health’s Office of AIDS Research, the National Institutes of Health Fogarty International Center grant recipients (Harvard University, Baylor College of Medicine, University of California at Berkeley, Columbia University, and University of Miami School of Medicine), and by the UCSF School of Nursing. Scholarships were awarded based on qualifications, need, and diversity.

Evaluation
An informal email evaluation conducted after the conference generated very positive responses. When asked about the best aspects of the conference, participants seemed particularly appreciative of the opportunities to network and share experiences with other nurse-scientists:

“The opportunity given to us to share experiences and knowledge about HIV/AIDS research and to connect to old and new people. The content was superb; excellent presentations and genuine sharing of issues related to HIV in all areas of the globe.”
"The best thing of the conference was the networking with colleagues around the world and the sharing of experiences and information."

"But more interestingly were the findings of the different studies that had been conducted and to see the great capacity that is being developed especially to the African scholars. I think I was thrilled by that."

"I enjoyed meeting nurses with so many different experiences and actually being able to talk with them and feel a part of a global community of nurses dealing with similar problems. It was a real privilege to meet with so many nurse leaders and researchers from so many places."

Other participants commented about the utility of receiving a CD-ROM with all of the presentations on it. The size of the conference was also seen as important for facilitating the sharing of information and experiences: “It was an ideal size group.”

Although a number of respondents said that “nothing” could have been improved about the conference, others provided useful insight into this area. Some people felt that the sessions were a bit unbalanced:

“Parallel sessions need to be reorganized to meet level of importance as some of the sessions were empty because all interesting sessions were grouped in one team.”

Other respondents wanted to find ways to involve more people who are not already part of the Network:

“The agenda was basically organized [by] people we know about, but I would like to see us extend beyond our network of known entities.”

Others commented on the content of the presentations:

“Lot's of emphasize on prevention and community efforts to handle HIV disease in different countries. Nothing on basic sciences where nurses contribute to the basic understanding of HIV disease or symptoms.”

“I noticed that many issues on conducting research in the countries represented in the conference were described but no alternatives were discussed to have them available for future reference. In my case I am particularly interested in learning from other countries about what are their issues, what they are doing and why.”

Finally, a few participants commented on aspects of the organization of the conference:

“It would have been nice to have a forum for open discussion or a panel that was intended for Q&A primarily. This would allow for representatives from the various
countries to have interchange and the audience would have the benefit of being involved.”

“I wish more people more nurses and other scholars from other disciplines could become part of this network and share information in the various fields more so that HIV/AIDS is a crosscutting phenomenon.”

“I know that this conference was to highlight nursing research which is not given pride of place at the larger HIV/AIDS conference but perhaps a bit more interdisciplinary research would have been nice.”

The conference gave participants the opportunity to learn about a variety of issues related to research, nursing and HIV/AIDS.

“I learned a lot about AIDS care in diverse parts of the world, and how we all seem to be having similar problems.”

“Prevention in the USA is far behind the aggressive efforts of Thailand and other developing countries.”

“I have more empathy for other people who are suffering from HIV/AIDS epidemic. It is not about something that I read, but what the real people is telling me about this disease. I learned about real nurses who are committed to do something different for their people in their country, not only research to advance the science, but also caring for other human beings in need.”

“What I learnt apart from the scientific content of the conference is that if nurses work together, they can really make a difference in the quality of life of people.”

“The realistic situation in Africa. (e.g. lack of food, health etc...) Especially, the real voices from African countries were impressive to realize the situation there.”

“The best practices which can be adopted and adapted to avoid reinventing the wheel.”

“It reinforced how much I value the work of nurses and being a nurse. I learnt lots about the research process and collaboration. I learnt about different approaches used by nurses in resource poor settings. I think I learnt more about cultural difference and nursing from some of the African nurses who talked to me about practices that just don’t translate to nursing in Africa e.g. the concept of confidentiality and HIV is very different in places where the extended family is depended upon for care.”

“The importance of working in a network, in collaborative studies.”

Finally, participants had a number of suggestions for the future, largely centered around continuing to hold similar conferences.
“I am so pleased to attend the conference in South Africa with the Network. I also think that a pre-conference prior to the Toronto AIDS meetings would be terrific.”

“The time could… be extended to 3-4 days in future so that there is sufficient time to deal with topics and presentations. At the conference I felt rushed.”

“Having the network meetings prior to big conferences should continue because it gives people the opportunity to attend. I think more twinning and collaborative studies should be carried out to continue to develop capacity with different people joining in teams so as to expand the capacity.”

Participants also felt that continuing to allocate funds for scholarship is important for ensuring the quality of similar conferences in the future:

“Please keep the scholarship supports and the provision of CD on all presentations.”

“Continue the good practice of soliciting funding, even if is for partial sponsorship, life is very hard for us in the developing world.”

Other people had different suggestions for the future:

“A suggestion may be that a list of ongoing research (personal and within groups) in HIV/AIDS done by nurses, be circulated. In this way information on the topic can be shared with the researcher by other members of the group.”

“The venue itself was clearly very important. Affordable venues will facilitate participation. However, we should not let it grow too big.”

**Plans for the Future**

During the final session of the conference and through the evaluation, participants expressed their interest in hosting additional conferences in the future, particularly in conjunction with the XVI International AIDS Conference in Toronto. In January 2005, the UCSF International HIV/AIDS Nursing Research Network will host a smaller conference in Mabula, South Africa, where researchers will present posters and the group will discuss plans for additional collaborative research. A major challenge for all future conference will continue to be the cost of travel, particularly for people from lower-income countries.

**Budget**

The total cost of the conference, including scholarships, was $70,741 (Appendix 6). This was funded by the organizations mentioned previously, as well as by the $150 conference registration fee, and UCSF School of Nursing.

Affiliated with the WHO Collaborating Center for Clinical Training & Research

The UCSF International HIV/AIDS Nursing Research Network

HIV/AIDS continues as a significant threat to public health throughout the world. We believe that the generation and sharing of nursing research has the potential to positively influence the quality of care and patient outcomes across the spectrum of HIV disease. We believe that this mission is best achieved through the ongoing collaboration of nurse scientists throughout the world.

The goals of the Network are to:

♦ Improve the quality of care for persons living with and affected by HIV/AIDS
♦ Link nurse scientists and clinicians working in HIV/AIDS
♦ Participate in developing an international agenda for HIV/AIDS research in nursing
♦ Generate cross-cultural and cross-national research in HIV/AIDS
♦ Promote the active involvement of nurse researchers throughout the world
♦ Identify and train nurse scientists
Research Network Strategies

♦ Develop and implement an international HIV/AIDS nursing research program.
♦ Foster communication among network participants through regular meetings and other means, e.g. email.
♦ Share conceptual, methodological, and technical expertise.
♦ Conduct cross-cultural, cross-national nursing research studies.
♦ Establish international nursing research database in HIV/AIDS.
♦ Dissemination study findings through international presentations and publications.

Projects

♦ Predictors of Adherence in HIV/AIDS (Study I)
♦ Symptom Management for Persons with HIV Disease (Study II)
♦ Self-care Symptom Management in HIV/AIDS (Study III) (Current)

Past Meetings (1996-2004):
San Francisco, CA, USA
London, U.K.
Bethesda, MD, USA (NIH campus)
Gaborone, Botswana
Boston, MA, USA
Minneapolis, MN, USA
San Juan, Puerto Rico
New York, NY, USA
Chiang Mai, Thailand
New Orleans, LA, USA

Future meetings:
Johannesburg, South Africa, January 4-7, 2005

Supporters:
♦ AIDS Research Institute, University of California, San Francisco
♦ Glaxo Wellcome, Inc.
♦ National Institutes of Health
♦ Pacific AIDS Education Training Center, HRSA
♦ School of Nursing, University of California, San Francisco
♦ University Wide AIDS Research Program, University of California

NURSING SCIENCE & HIV/AIDS: GLOBAL CHALLENGES
AND OPPORTUNITIES

July 7-8, 2004 • Chiang Mai, Thailand

Important dates:
- Abstract submission due January 6, 2004, 4:00PM Pacific Standard Time
- Abstract acceptance notification - January 25, 2004
- Scholarship application due February 6, 2004
- Scholarship notification - February 25, 2004
- Submission of presentations - May 1, 2004
- Registration fees due June 1, 2004

Conference Program:

July 7
8:00 – 8:30  Registration
8:30 – 9:00  Welcome
9:00 – 10:00  Plenary: “Prevention” (Thailand Experience)
10:00 – 10:30  Break
10:30 – 12:00  Breakout Sessions (Papers)
12:00 – 1:00  Lunch and Roundtables: Collaborative Research Opportunity
1:00 – 2:30  Plenary Panel: “Challenges of Collaborative Research”
             (Puerto Rico, Lesotho, Norway, Taiwan Experiences)
2:30 – 4:30  Tea and Oral Poster/Presentations (grouped substantively)
Evening  Traditional Thai Dinner

July 8
9:00 – 10:00  Plenary Panel: “Care” (South Africa Experience)
10:00 – 10:30  Break
10:30 – 12:00  Oral Poster/Presentations: “Instruments, Protocols”
12:00 – 1:00  Lunch and Topical Roundtables
1:00 – 2:30  Breakout Sessions (Papers)
2:30 – 3:00  Tea
3:00 – 4:00  Summary Wrap-Up: “Options”

NURSING SCIENCE & HIV/AIDS: GLOBAL CHALLENGES AND OPPORTUNITIES

July 7-8, 2004 • Chiang Mai, Thailand

ABSTRACT SUBMISSION INSTRUCTIONS

Abstracts must be limited to 500 words and must be in English.

The University of California, San Francisco International HIV/AIDS Nursing Research Network and the Chiang Mai University School of Nursing invite authors to submit abstracts on HIV/AIDS nursing research. Information presented should not be published prior to the Chiang Mai Meeting. Abstracts are sought for oral paper presentations and oral poster presentations. Suggested topics include research on prevention, care, adherence, symptom management, quality of life and instrumentation.

To be eligible for consideration, abstracts must be submitted electronically to Yvette Cuca (yvette.cuca@nursing.ucsf.edu) in San Francisco, CA USA by 4:00 PM Pacific Standard Time on January 6, 2004.

Oral Paper Presentation: Accepted reports, grouped by topic, will be presented orally in break-out sessions using PowerPoint presentation. Authors are expected to have completed the research by the time the abstract is submitted. Authors will have 10-20 minutes to present their reports. Authors are encouraged to allot time for questions and comments from the audience. The following audiovisual equipment will be provided: a laptop computer, projector and a screen.

Oral Poster Presentation: This is a visual and oral presentation of recent findings. The research may be in progress at the time the abstract is submitted. Authors illustrate their findings by displaying graphs, photographs, diagrams and limited text on poster boards, and then make a 5-minute oral presentation. Authors additionally hold informal discussions with registrants who circulate among the poster boards. The poster boards measure 1 meter by 1 meter high.

Abstract Evaluation: Abstracts should include the following sections: Purpose, Methods, Results and Conclusion/Implications. Abstracts are evaluated on the substance and clarity of content and relevance and timeliness in terms of nursing research and HIV/AIDS in 2004. Authors will be informed regarding acceptance by e-mail by January 25, 2004.

INSTRUCTIONS FOR REVIEWERS

Each reviewer will receive a set of abstracts with identifying information removed so that the review will be anonymous. If you recognize the abstract, please let Inge know so that she can assign the abstract to someone else.

For each abstract, please fill out a separate Abstract Score Sheet:
1. Fill in the header information.
2. Review the abstract based on the criteria and rating system listed below.
3. Compute a total score.
4. Write any additional comments that you think should be taken into consideration (this is not required).
5. Provide your recommendation about whether the abstract should be presented as a paper or a poster.
6. Sign the bottom of the score sheet.

Please turn in your completed Abstract Score Sheets to Yvette. If you have any questions, please ask Inge, Yvette or Cathy.

Rating Code: 1 (inadequate/poor) – 10 (excellent).

Criteria
- Overall importance
- Relevance and timeliness (HIV/AIDS and nursing research)
- Originality (cutting edge data or issues that help advance the science)
- Clarity of description
- Substance
ABSTRACT SCORE SHEET

Abstract Number: ________________________________________________

Abstract Title: ________________________________________________

Author’s Preferred Format: _____ Paper _____ Poster

Rating Scale
1 = Inadequate / Poor (Not important, not relevant, not original, etc)
2 – 3 = Barely adequate
4 – 6 = Adequate
7 – 9 = Very good
10 = Excellent (Highly important, highly relevant, highly original, etc)

Criteria
_____ Overall importance
_____ Relevance and timeliness (HIV/AIDS and nursing research)
_____ Originality (cutting edge data or issues that help advance the science)
_____ Clarity of description
_____ Substance
_____ Total out of possible 50

Nursing Science & HIV/AIDS: Global Challenges and Opportunities

Chiang Mai, Thailand ♦ July 7 - 8, 2004

Sponsors:

♦ University of California San Francisco, School of Nursing
♦ Chiang Mai University, School of Nursing
♦ Office of AIDS Research, National Institutes of Health
♦ International Council of Nurses, Geneva
♦ Association of Nurses in AIDS Care
♦ University of California San Francisco International HIV/AIDS Nursing Research Network
♦ AITRIP Center Grants: Harvard University, University of KwaZulu Natal, Texas Children’s Hospital, University of Miami Medical School, & University of California, Berkeley
Acknowledgments

We acknowledge with gratitude the Chiang Mai University, Faculty of Nursing, especially, Professors Wilawan Senaratana and Areewan Klunklin for their assistance with this conference.

We would like to extend special thanks to Mr. Dennis Martell (RN, ACRN) for facilitating funding from the National Institutes of Health. We are also grateful to Ms. Jeanne McDermott (CNM, MPH, PhD) for facilitating funding from the Fogarty International Center.

We appreciate the special rate extended to persons attending this conference by the Empress Hotel Chiang Mai.

Meeting Chair: Bill Holzemer.

Coordinating Committee: Cathy Bain, Inge Corless (Program Chair), Yvette Cuca, and Emily Huang.

### Day 1: Wednesday, July 7, 2004

</table>
| 1:00 – 2:30 | 7. Self and Family Care Symptom Management Strategies for Persons Living with HIV/AIDS: A Comparative Analysis  
Moderator: William Holzemer (University of California, San Francisco, USA)  
7.1 A Collaborative Approach To HIV Nursing Research In Southern Africa – Seboni, N.  
8. The Role of Health Care Providers in HIV/AIDS Care  
Moderator: Gladys Eugenia Canaval (Universidad del Valle, Colombia)  
8.1 Nurses’ Knowledge, Attitudes and Practices Related to HIV Transmission in Northeastern China – Chen, W.T., Han, M.  
8.2 Preventing and Surviving HIV/AIDS in the Hands of Health Care Providers in Chile – Ferrer, L., Cianelli, R., Peragallo, N.  
8.3 Applying CAP-IT in Racial and Ethnic Minorities – Bakken, S., Portillo, C., Holzemer, W.L.  
| 2:30 – 3:00 | 9. Break with Posters | Imperial Ballroom |
| 3:00 – 4:30 | 10. Panel – Challenges of Collaborative Research  
Moderator: Jeanne McDermott (Division of International Training and Research, NIH, USA)  
10.1 Marta Rivero (Puerto Rico)  
10.2 Lucy Makoae (Lesotho)  
10.3 Eli Bunch (Norway)  
10.4 Yun-Fang Tsai (Taiwan) | Imperial Ballroom |
| 7:30 | 11. Traditional Thai Dinner | Khum Kuntoke Restaurant |
Day 2: Thursday, July 8, 2004

8:30 – 9:00  12. Tea and Coffee

9:00 – 10:00  13. Plenary – HIV/AIDS in South Africa – Leana Uys, RGN, RM, RPN, RNE, RNA (University of KwaZulu Natal, South Africa)

Moderator: Inge Corless (MGH Institute of Health Professions, USA)

10:00 – 10:30  14. Break with Posters

10:30 – 12:00  15. Understanding HIV/AIDS in Malawi

Moderator: Chrisse Kaponda (University of Malawi, Malawi)

15.1 Risky Sexual Behaviors of Rural Adolescents in Malawi: Perspectives of Adults and Adolescents – Kaponda, C.P.N., Dancy, B.L., Kachingwe, S., Norr, K.F., Mbewa, M., Kalengamaliro, M.

15.3 Occupational and Personal Risks of HIV Infection Among Rural Health Workers in Malawi – Talashek, M., Kaponda, C.P.N., Jere, D., Kafalulula, U., Mbewa, M., Norr, K.F.

15.4 Feasibility of Medical Male Circumcision to Reduce HIV Infection in Malawi – Ngalande, R.C., Bailey, R., Levy, J., Kaponda, C., Kawala, L., Mhango, L.

16. Women Living with HIV/AIDS

Moderator: Thecla Kohi (Muhimbili University, Tanzania)

16.2 The Choice of Baby-feeding Mode Within the HIV/AIDS Epidemic: Health Education Implications – Minnie, C.S., Greeff, M.

16.4 Perceptions of HIV-infected Tswana Women of Female Subordination at the HIV Risk – Motelle, NL., du Plessis, E., presented by Phetlhu, DR

17. Psychosocial Factors and HIV/AIDS

Moderator: Areewan Klunklin (Chiang Mai University, Thailand)

17.1 Stigmatization of patient co-infect with TB & HIV by health workers – Phetlhu, DR., du Plessis, E., Watson, M.J.

17.2 Gender Differences in Intimacy and Conflict in Married Relationships: Implications for HIV Prevention Interventions in Malawi – Mbweza, E., Norr, J., Norr, K., Jere, D.

17.3 Child-rearing Practices Among Primary Caregivers of HIV Infected Toddlers and Preschool Children in Chiang Mai – Klunklin, P., Suchaxaya, P., Chanprasit, C.

17.4 Description of the Participants in an HIV Study in South Africa – Nicholas, P.K., Corless, I.B., McGibbon, C., McInerney, P., Ncama, B., Bhengu, B., Davis, S.M., Pinto-Wong, E.
18. Lunch – Research Interests

19. Living with HIV-Related Symptoms
Moderator: Elucir Gir (University of São Paolo, Brazil)

19.2 Stress, Coping and Immunity as Predictors of Depressive Symptoms in HIV/AIDS – Sanzero Eller, L.

19.4 Fatigue and Mitochondrial Intoxication in HIV/AIDS – Voss, J.

20. Adherence
Moderator: Priscilla Dlamini (University of Swaziland, Swaziland)

20.1 Self and Medical Record Reports of Medication Adherence in HIV Disease in South Africa – Mclnerney, P., Nicholas, P.K., Corless, I.B., Bhengu, B., Ncama, B., Mcgibbon, C., Davis, S.M.

20.3 Development of an Acceptance Instrument for People Living with HIV/AIDS within an African Cultural Context: The Case of South Africa – Ncama, B.

20.4 Differences in Health-related Quality of Life and Symptom Intensity Between HIV+ Persons in an Employment-training Program as Compared to Those Aged 50 and Older – Nokes, K.M.

21. Home-Based Care
Moderator: Carmen Portillo (University of California, San Francisco, USA)

21.1 The Family as Facet of Home-based Care of the Terminally Ill AIDS Patient in the Mining Community of the North West Province – Steyn, DM, Koen, M.P., Williams, M.J.S., presented by Greeff, M.

21.2 Exploring the Barriers/Issues for Providing Home-based Care for HIV/AIDS Patients in Eastern Cape, South Africa – Majumdar, B., Mazaleni, N., Byrne, C., Chan, K., MacLeod, S., Roberts, J., Tshibwabwa, E., Chambers, T., Neufeld, V., Hendricks, M., Manjija, F., Mnyute, N., Raseni, F., Zonke, L.

21.3 Family Caregivers’ Perspectives on the Swaziland Rural Health Initiative: A Program to Promote HIV/AIDS Risk Reduction and Home-Based Care – McCreary, L.L., Mndebele, E.T., Popovich, J.M., Mkhonta, N.R., Dresden, E., Stalcup, A.L.

21.4 The Effectiveness of Home Visit to Ensure the Success of the ART Project – Lee, S., Arsasri, S.

22. Break with Posters
Nursing Science & HIV/AIDS: Global Challenges and Opportunities
Chiang Mai, Thailand ♦ July 7 - 8, 2004

3:00 – 4:15  23. Conference Closing: Exploring New Agendas
            3:00 – 3:40 - Small group work
            3:40 – 4:00 - Reports
            4:00 – 4:15 - Summary

Moderator: Bill Holzemer (University of California, San Francisco, USA)

Imperial Ballroom

Day 3: Friday, July 9, 2004

9:00 – 12:00  24. UCSF Network Meeting (Everyone Invited)

Nopphakao Room
(Paitoon)
Posters

- **HIV Risk Behavior and Alcohol Use in Deployed Enlisted Naval Personnel** – Phillips, R.E., Norris, A.E.
- **Indonesian Nursing Student Responses to Caring for HIV+ Patients** – Culbert, G., Waluyo, A.
- **HIV Tailored Information Provider Services: Nursing Implications** – Bakken, S., Kukafka, R., Ferat, R., Li, J., Millery, M., Schluter, D., Messeri, P.
- **Medication Adherence Related to Lipodystrophic Symptomatology in Persons with HIV/AIDS** – Mueller, M.E., Kirksey, K.M.
- **WHO Collaborating Center for Research and Clinical Training in Nursing** – Holzemer, W.L.
- **The Lessons of Experience: Where There is a Will, There’s a Way, Nursing and Midwifery Champions in HIV/AIDS Care in Africa** – Mhlanga, M., Dikwayo, D.
- **High Risk Behaviors of Young Puerto Rican Girls** – Crouch-Ruiz, E.
- **Nutritional Healthy Diet in HIV Infected Patients: Improving Life Through Enhancing Immunity** – Kulkarni, A.
- **Meditation: An Alternative Health for HIV/AIDS** – Chaiphibalsarisdi, P.
- **Nursing Behavior After Occupational Accidents with Contaminated Biological Material** – Gir, E., Reis, R.K., Pelá, N.T.R.
- **Mobilizing Nurses to Meet the Challenge: HIV/AIDS Education in China** – Christiansen, C.
- **Perceptions of Sexual Violence Among Thai Adolescents** – Alomepe, J.
Nursing Science & HIV/AIDS: Global Challenges and Opportunities
