

Internal Memo

DATE: Thursday, August 4, 2022

TO: McMaster Hospital- All Staff and Physicians

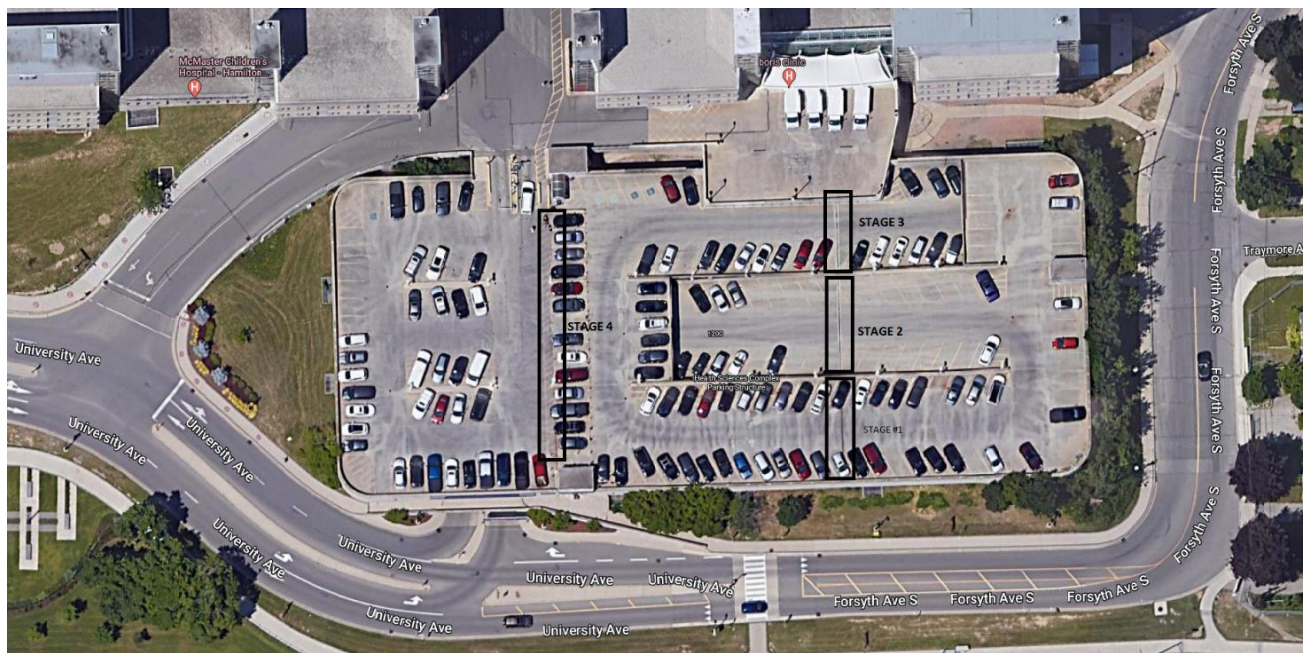

FROM: HHS Facilities Management/ Engineering Services Department

RE: South Garage- Structural Repairs Work

HHS Facilities Management (Engineering Services) would like to inform the McMaster Medical Center physicians and staff about the upcoming South Garage Structural Repairs project starting on Monday **August 8, 2022**.

This work will include miscellaneous structural and control joint repairs at the top Level of the South parking garage.

The repair work will be done in four (4) stages with anticipated completion date by early October 2022. Each stage will be isolated and hoarded off to assure parking users safety and minimize disruptions to Parking Facilities.

Please note during this process there will be reduction in parking spaces as well as minor changes to the traffic flow within the work area/stage being done.

We ask everyone to please use maximum care and caution when walking, entering, or exiting the parking ramps and areas.

Should you have any concern or require additional information about this process, please contact Project Construction Supervisor, German Paredes, 905 -979- 0308 or via Email at paredesg@hhsc.ca

We thank you for your patience and cooperation while we work towards improving our facilities.
