9:00 A.M.–12:00 P.M.

HOW DO I DO PBL TUTORING?:
FACILITATING PROBLEM BASED LEARNING 101

Location: DBHSC 2018 – David Braley Health Sciences Ctre., 100 Main St. W., Ham., ON

PFD Academic Pathways: 3 hrs. – BEST

Highly recommended for new educators who would benefit from a broad introduction to PBL and are interested or may be undertaking tutor/facilitator roles. Helpful also as a refresher.

NOTE: Individuals who will be undertaking tutor/facilitator roles in the MD Program must also register for: Tutorial MacEssentials (REQUISITED) please contact: bowen@mcmaster.ca

Learning Objectives:
As a participant, you will:

- Acquire an understanding of the history/background of PBL at McMaster University
- Recognize and comprehend the different roles of a PBL tutor
- Acquire important ‘take home and use’ tutoring skills, knowledge and behaviours

Facilitators:
Lorie Shimmell, MRehabSc, BHSc OT, OT (Reg. Ont) Associate Professor, School of Rehabilitation Science (retired). Lorie is an occupational therapist who continues to teach sessionally across the curriculum and in the Program for Faculty Development, with a focus on problem-based learning. Educational research includes reflective journaling in the development of professional competencies, preparation with student occupational therapists for international placement experiences, and capacity building in clinical education. Lorie ‘grew up’ professionally in the PBL milieu and continues its use in all aspects of her teaching.

Edwin Ho, Staff Anesthesiologist, HHSC and Assistant Clinical Professor, McMaster University. He is actively involved with medical education and has been tutoring in the Medical Foundations curriculum for several years. He also completed his medical school here at McMaster so he has the unique perspective of having extensive PBL experience both as a student and a tutor.
