**News & Events**

**NEW** REMINDER to all those submitting a CIHR PROJECT 17-09 application

Tuesday Sep 5 at 4:00 pm is the McMaster INTERNAL review deadline for the CIHR Project 17-09 grant.

Less than a week to go until the INTERNAL submission deadline on ResearchNET (RNet). **ALL** submissions **MUST** be reviewed internally by the NPI hitting SUBMIT on RNet on or before **Sep 5 by 4:00 pm**. An HRS Checklist (completed and signed by the NPI and the Dept Chair) must also be submitted to HRS on or before Sep 5 in order for review to commence. If you submit online but have not delivered a Checklist, the application will remain in the queue until the Checklist is received.

*If you have decided NOT to submit any or all of your applications for the 17-09 Project grant, please contact HSRESADM@mcmaster.ca ASAP to advise; no contact with CIHR is necessary as a dormant (not submitted) registration or application in progress will merely remain unchanged in your RNet account.*

Volume is very high in this competition and ALL faculty are reminded that the HRS office will be feverishly working to complete CIHR Project reviews during the entire week of Sep 4; your patience is appreciated. Those faculty NOT submitting a CIHR Project grant, who may have competing sponsor deadlines/requirements are encouraged to plan accordingly around this very busy week of reviewing.

*We appreciate early submissions; if you have your online application ready, hit submit and we can review it and hold the comments until you hand in the internal paperwork (by Tuesday Sep 5).*

**NEW** Michael J. Fox Foundation (MJFF) Funding Opportunities Informational Webinar

The Michael J. Fox Foundation works tirelessly to accelerate promising research toward breakthroughs for Parkinson’s patients. While strong emphasis is on funding translational and clinical research, the MJFF also supports high-risk/high-reward discovery work. The webinar provides an overview of the MJFF funding strategy, funding opportunities, how to apply for funding, and the review process.

**When:** Thursday, September 7, 2017

**Time:** 12:00pm-1pm EDT

Register [HERE](#).

**CIHR – International COEN Initiative in Neurodegeneration 2017**

This funding opportunity seeks to support world-class research on dementia, contributing to the global pursuit of finding a cure or disease-modifying treatment for dementia by 2025. For more information, please consult the Centres of Excellence in Neurodegeneration (COEN) website.

**Funding Details:** The total amount available for the Canadian portion of this funding opportunity is $666,666, enough to fund approximately two (2) grants. This amount may increase if additional funding partners participate. The maximum amount per grant is $166,666 per year for up to two (2) years for a total of $ 333,333 per grant. CIHR will support only one Canadian team per consortium application.

**Additional Details**

Internal HRS Deadline: September 5, 2017
Sponsor Deadline: September 19, 2017

**CIHR – Fellowship: Banting Postdoctoral Fellowships Program (2017-2018)**

The Banting Postdoctoral Fellowships program provides funding to the very best postdoctoral applicants, both nationally and internationally, who will positively contribute to the country's economic, social and research-based growth.

The objective of the Banting Postdoctoral Fellowships program is to:

- attract and retain top-tier postdoctoral talent, both nationally and internationally
- develop their leadership potential
- position them for success as research leaders of tomorrow

**Funding Details:** $70,000 per year for 2 years (non-renewable)

**Additional Details**

Contact Antonella Masciantonio in Graduate Studies to Apply
Sponsor Deadline: September 20, 2017

**CIHR – Doctoral Research Award: 2017-2018**

The specific objectives of this funding opportunity are:

- To provide recognition and funding to students early in their academic research career, providing them with an opportunity to gain research experience;
- To provide a reliable supply of highly skilled and qualified researchers.

**Funding Details:** For this competition, applications will be accepted in all areas of health research, including biomedical, clinical, health services and social, cultural, environmental, and population health.
- It is anticipated that approximately $14 million over three years will be available for the CGS-D competition, enough to fund approximately 133 awards.
- It is anticipated that approximately $1.05 million over three years will be available for the DFSA competition, enough to fund approximately 10 awards.
- Trainee stipend: $30,000 per annum.
- Research allowance: $5,000 per annum

Additional Details
Contact Antonella Masciantonio in Graduate Studies to Apply
Sponsor Deadline: October 3, 2017

CIHR – Doctoral Research Award: Fall 2017 Priority Announcement (Specific Research Areas)
Priority Announcements on Doctoral Research Award competitions offer additional sources of funding for highly rated applications that are relevant to specific CIHR research priority areas or mandates. Applications are submitted through the "201710MDR" competition of the Doctoral Research Award: 2017-2018 funding opportunity.
Doctoral Research Awards are intended to provide special recognition and support to students who are pursuing a PhD degree in a health-related field in Canada or abroad. These candidates are expected to have an exceptionally high potential for future research achievement and productivity.

Funding Details: The maximum amount awarded for a single award is $35,000 per annum for up to three (3) years.

Additional Details
Contact Antonella Masciantonio in Graduate Studies to Apply
Sponsor Deadline: October 3, 2017

CIHR – Operating Grant: HIV/AIDS Community-Based Research (2017-2018)
The Operating Grant: HIV/AIDS Community-Based Research is expected to:
- Promote the creation of new knowledge that addresses gaps in the care cascade and reduces the incidence of new infections in high risk groups by focusing research on prevention efforts relevant to communities affected by HIV in Canada and aligns with the goals of the Federal Initiative;
- Promote the dissemination of new knowledge and uptake of evidence into action to enhance the community response to the HIV/AIDS epidemic;
- Develop partnerships between researchers and affected communities;
- Build capacity in the knowledge user community to engage in research and use evidence in their everyday business;
- Build the next generation of HIV/AIDS CBR researchers through meaningful engagement of trainees in high quality CBR projects.

Funding Details: The total amount available for this funding opportunity is $2,700,000, enough to fund approximately six grants. This amount may increase if additional funding partners participate. The maximum amount per grant is $150,000 per year for up to three years for a total of $450,000, per grant. Of this $2,700,000:
- $1,800,000 is available to fund four applications relevant to the General Stream.
- $900,000 is available to fund two applications relevant to the Indigenous Stream

Additional Details
Internal HRS Deadline: September 19, 2017
Sponsor Deadline: October 3, 2017

CIHR – Catalyst Grant: HIV/AIDS Community-Based Research (2017)
The Catalyst Grant: HIV/AIDS Community-Based Research funding opportunity is expected to:
- Catalyze future applications for more comprehensive community-based research grants that focus on the development and/or implementation of interventions for the prevention of HIV and/or gaps in the care cascade.
- Support partnerships between communities affected by HIV in Canada and researchers to facilitate the conduct of community-based research.
Funding Details: The total amount available for this funding opportunity is $480,000, enough to fund approximately 12 grants. This amount may increase if additional funding partners participate. The maximum amount per grant is $40,000 for up to one year. Of this $480,000:

- $240,000 is available to fund six applications relevant to the General Stream
- $240,000 is available to fund six applications relevant to the Indigenous Stream

Additional Details
Internal HRS Deadline: September 19, 2017
Sponsor Deadline: October 3, 2017

CIHR – Clinician-Scientist Salary Award: 2017-2018
The Clinician-Scientist Salary Award program is expected:

- To provide salary support for up to six years to clinician scientists.
- To provide a reliable supply of highly skilled and qualified clinician scientists.

Funding Details: The total amount available for this funding opportunity is $900,000 over three years, enough to fund approximately three awards.

- The maximum amount per award is $100,000 for up to three years.
  - Salary contribution: $60,000 per annum, including fringe benefits.
  - Research allowance: $40,000 per annum (for the first three years only, not available for renewal awards)
- The applicant will receive three years of support, renewable once for a total of six years.

Additional Details
Internal HRS Deadline: September 19, 2017
Sponsor Deadline: October 3, 2017

CIHR – Operating Grant: Secondary Data Analysis
The Secondary Data Analysis Dynamic Cohort funding opportunity is expected to:

- Support cross-jurisdictional research on complex, high system users in Canada.
- Promote the use of the CIHR/CIHI Dynamic Cohort datasets.
- Promote effective knowledge translation through continuous and sustained interactions between researchers and end-users of this research.

Funding Details: The total amount available is $420,000, enough to fund approximately 6 grants. This amount may increase if additional funding partners participate. The maximum amount per grant is $70,000 per year for up to 1 year.

Additional Details
Internal HRS Deadline: September 19, 2017
Sponsor Deadline: October 3, 2017

CIHR – Catalyst Grant: Global Governance AMR & Related Infectious Disease Threats
The Catalyst Grant: Global Governance of Antimicrobial Resistance and Related Infectious Disease Threats is expected to support mapping, collaboration, team-building, piloting, and mobilization work.

Specifically, the objectives are to:

- Advance capacity-building efforts through the identification of existing research expertise in global governance arrangements, structures, and institutions in the areas of AMR and related infectious disease threats, and identify any gaps that may exist;
- Encourage collective action by identifying the similarities, differences, and common issues among global governance arrangements related to AMR and those related to other types of infectious disease threats;
- Initiate the mobilization of interdisciplinary Canadian health and social scientists, as well as knowledge users in the area of global governance to support the eventual creation of a dynamic, coherent, and strong Canadian
centre/network that can position itself to conduct international, intersectoral, and interdisciplinary research and to participate in broader international collaborations; and

- Facilitate interdisciplinary national and/or international collaborations, resource alignment and sharing, capacity-building, and knowledge sharing among researchers and knowledge users, working on global governance and tackling AMR and related infectious disease threats.

**Funding Details:** Maximum $100,000 per year for up to one year.

**Additional Details**

**Internal HRS Deadline:** October 3, 2017  
**Sponsor Deadline:** October 17, 2017

---

**CIHR – Catalyst Grant: Indigenous Approaches to Wellness Research**

The Indigenous Approaches to Wellness funding opportunity is expected to:

- Build evidence through the application of Indigenous Ways of Knowing to understand factors and concepts related to Indigenous wellness;
- Begin the mobilization of this evidence towards assisting Indigenous Peoples and communities to achieve wellness;
- Support the development of future applications for more comprehensive community-based research that explores existing, unique and/or novel ideas that promote Indigenous wellness;
- Increase Indigenous health research leadership capacity and development by engaging communities to establish strong and sustainable community partnerships; and
- Support high quality CBR processes that foster transformational outcomes and knowledge mobilization activities.

**Funding Details:** The total amount available for this funding opportunity is $2,100,000, enough to fund approximately 14 grants. This amount may increase if additional funding partners participate. The maximum amount per grant is $150,000 for one year.

**Additional Details**

**LOI Deadline:** September 19, 2017  
**Internal HRS Deadline:** October 3, 2017  
**Sponsor Deadline:** October 17, 2017

---

**CIHR – Postdoctoral Fellowship Award Competition: 2017-2018**

Fellowships provide support for highly qualified candidates in all areas of health research at the post-PhD degree or post-health professional degree stages to add to their experience by engaging in health research either in Canada or abroad.

**Funding Details:** The maximum amount awarded for a single award is up to $60,000 per annum for up to 5 years.

**Additional Details**

**Contact Correen Smith in Graduate Studies to Apply**  
**Sponsor Deadline:** November 1, 2017
CIHR – Doctoral Research Award: Vanier Canada Graduate Scholarships (2017-2018)
The Vanier Canada Graduate Scholarship (Vanier CGS) was created to attract and retain world-class doctoral students and to establish Canada as a global centre of excellence in research and higher learning. It is available to both Canadian and international PhD students studying at Canadian universities. The program is jointly administered by Canada’s three federal granting agencies: the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC) and the Social Sciences and Humanities Research Council (SSHRC). CIHR has been designated as the operational lead for the implementation of the program.

Funding Details: The total amount for this funding opportunity is $24,900,000, enough to fund approximately 166 awards. The maximum amount per award is $50,000 per year for 3 years. This funding is non-renewable.

Additional Details
Contact Correen Smith in Graduate Studies to Apply
Sponsor Deadline: November 1, 2017

CIHR – Fellowship: 2017-2018
Fellowships provide support for highly qualified applicants in all areas of health research at the post-PhD degree or post-health professional degree stages to add to their experience by engaging in health research either in Canada or abroad. The specific objectives of this funding opportunity are:
- To provide recognition and funding to academic researchers;
- To provide a reliable supply of highly skilled and qualified researchers.

Funding Details: The maximum amount awarded for a single award is up to $60,000 per annum for up to 5 years. The value and duration of each award is determined by the degree(s) held, licensure (where applicable), location of tenure and experience of the applicant.

Additional Details
Contact Correen Smith in Graduate Studies to Apply
Sponsor Deadline: November 1, 2017

CIHR – Fellowship: Fall 2017 Priority Announcement (Specific Research Areas)
The specific objective of the Fellowship Priority Announcement (Specific Research Areas) is to offer additional sources of funding for highly rated applications that are relevant to specific CIHR research priority areas and mandates. Funds are available to encourage and support applications in specific areas that are aligned with CIHR's research priority areas and mandates.

CIHR Research Priority Areas
- Clinical Nutrition
- Diabetes
- Gastroenterology
- HIV/AIDS
- Research in First Nations, Métis and/or Inuit Health

Funding Details: The total amount available for this funding opportunity is $600,000, enough to fund approximately two (2) awards. This amount may increase if additional funding partners or internal collaborators decide to participate. The maximum amount awarded for a single award is $60,000 per annum for up to five (5) years.

Additional Details
Contact Correen Smith in Graduate Studies to Apply
Sponsor Deadline: November 1, 2017
CIHR – Healthy and Productive Work – Partnership Grants

Building on the Partnership Development Grant phase, the specific objectives of Phase 2: Healthy and Productive Work (HPW) Partnership Grants are:

Through formal partnerships and stakeholder engagement:

1. Develop evidence about interventions that enable healthy and productive work using methods that integrate the health and social sciences and humanities fields.
2. Develop evidence-informed approaches and mechanisms for effective implementation, evaluation and scaling up of interventions that enable healthy and productive work.
3. Build capacity and infrastructure for measuring and demonstrating the broader health and economic impacts of these interventions and policies.
4. Expand the evidence base and research capacity in the integration of sex- and gender-based analysis with respect to healthy and productive work—from research design to intervention development, implementation, evaluation and scale-up, as well as the evaluation of eventual health and economic impacts.
5. Develop the next generation of researchers focused on healthy and productive work through engagement of trainees in high quality projects.

Funding Details: The total amount available for Phase 2 is $11,400,000, enough to fund approximately 8 Partnership Grants. The maximum amount per grant is $325,000 per year for up to 4 years.
- Each grant will be jointly funded by SSHRC and CIHR. The maximum annual investment per project will be $200,000 from CIHR and $125,000 from SSHRC.
- An additional fifth year valued at up to $125,000 for connection activities (e.g., workshops, colloquiums, conferences, forums or other events or outreach activities) is also available from SSHRC’s allocations.

Additional Details
Internal HRS Deadline: October 18, 2017
Sponsor Deadline: November 1, 2017

The Strategy for Patient-Oriented Research (SPOR) Collaboration Grants are expected to catalyze patient-oriented research that aligns with the SPOR Capacity Development Framework and the SPOR Patient Engagement Framework by:

Building capacity in Canada’s health system for patient-oriented research through projects conducted by teams comprised of researchers, patients, health care professionals and/or policy-makers; and,
Increasing the number of new/early career investigators meaningfully involved in patient-oriented research by integrating them in patient-oriented research teams.

Funding Details: The total amount available for this funding opportunity is $1,600,000, enough to fund approximately 40 grants. The maximum amount per grant is $40,000 per year for up to one year.

Additional Details
Internal HRS Deadline: October 31, 2017
Sponsor Deadline: November 14, 2017
CIHR – Operating Grant: SPOR PIHCI Network: Programmatic Grants

The objective of this funding opportunity is to support cross-jurisdictional programs of research that respond to the priorities of the Primary and Integrated Health Care Innovations (PIHCI) Network in order to generate findings that will guide evidence-informed policy decision-making, with the intent of having an impact on the health system for all Canadians within four years.

Funding Details: The total amount available from CIHR for this funding opportunity is $4,000,000, enough to fund approximately four grants. The maximum amount per grant is $250,000 per year for up to four years for a total of $1,000,000 per grant.

- Funding under SPOR is based on a 1:1 matching formula with non-federal sources to ensure relevance and applicability.

Additional Details
LOI Deadline: September 26, 2017
Internal HRS Deadline: November 14, 2017
Sponsor Deadline: November 28, 2017

CIHR – Operating Grant: SPOR Innovative Clinical Trial Multi-Year Grant (2017)

The specific objectives of this funding opportunity are to:

- Enable new and established investigators to undertake innovative clinical trials in using new or existing methods;
- Support the development and testing of innovative methods;
- Build capacity for ICT research through training and mentoring.

Funding Details: The total of this funding opportunity is $9,000,000, enough to fund approximately six (6) grants. The maximum amount per grant is $375,000 per year for up to four years for a total of $1,500,000. Funding is based on a 1:1 matching formula with non-federal government partners to ensure relevance and applicability.

Additional Details
LOI deadline: September 12, 2017
Internal HRS Deadline: January 2, 2018
Sponsor Deadline: January 16, 2018

HHS Clinical Health Professional Travel Awards

The Clinical Health Professionals Research Travel Award provides support for eligible non-physician Health Professionals to present their work at a scientific meeting of relevance to their practice/research.

Funding Details: maximum of $2,500 for a national conference or $3,500 for international (funds in Canadian dollars)

Additional Details
Sponsor Deadline: September 15, 2017

HHS New Investigator Fund (NIF)

Hamilton Health Sciences’ commitment to “first stage” research led to the creation of the New Investigator Fund (NIF). The fund is an integration of the former HHS Foundation Young Investigator Grants and the HHS Research Development Fund, and provides a unique opportunity to foster and support a culture of inquiry for novice investigators under the mentorship of senior staff. The NIF provides project funding to front-line staff (healthcare professionals and medical staff) towards research initiatives directly relevant to the clinical mission and research strategic direction of Hamilton Health Sciences.

Funding Details: Maximum of $50,000 per project.

Additional Details
Sponsor Deadline: September 15, 2017
Social Sciences and Humanities Research Council (SSHRC) Partnership Engage Grants

Partnership Engage Grants are expected to respond to the objectives of the Insight program and the Connection program. They provide short-term and timely support for partnered research activities that will inform decision-making at a single partner organization from the public, private or not-for-profit sector. The small-scale, stakeholder-driven partnerships supported through the Partnership Engage Grants are meant to respond to immediate needs and time constraints facing organizations in non-academic sectors. In addressing an organization-specific need, challenge and/or opportunity, these partnerships let non-academic organizations and postsecondary researchers access each other’s unique knowledge, expertise and capabilities on topics of mutual interest. SSHRC welcomes applications involving Aboriginal research, as well as those involving research-creation.

**Funding Details:** Maximum $25,000 for one year

Additional Details

**Sponsor Deadline:** September 15, 2017

*To Apply, Contact Pam McIntyre, Senior Advisor, Development, ROADS at mcintyp@mcmaster.ca extension 23713*

Social Sciences and Humanities Research Council (SSHRC) Postdoctoral Fellowships

SSHRC Postdoctoral Fellowships support the most promising Canadian new scholars in the social sciences and humanities, and assist them in establishing a research base at an important time in their research careers. SSHRC Postdoctoral Fellowship proposals are expected to respond to the objectives of the Talent program. SSHRC Postdoctoral Fellowships provide stipendiary support to recent PhD graduates who are:

- undertaking original research;
- publishing research findings;
- developing and expanding personal research networks;
- broadening their teaching experience;
- preparing for research-intensive careers within and beyond academia; and
- preparing to become competitive in national research grant competitions.

Fellowships will normally be awarded to candidates affiliated with a university other than that which awarded the PhD. SSHRC Postdoctoral Fellowship awards are tenable at Canadian or foreign universities and research institutions. SSHRC welcomes applications involving Aboriginal research, as well as those involving research-creation.

**Funding Details:** $40,500 per year for up to 2 years.

Additional Details

**Sponsor Deadline:** September 20, 2017

*To Apply, Contact Pam McIntyre, Senior Advisor, Development, ROADS at mcintyp@mcmaster.ca extension 23713*

Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA): 2017-18 Quebec-Ontario Cooperation for Agri-Food Research Competition

One of the aims of the Ontario-Quebec Trade and Cooperation Agreement is to improve the competitive position of the agriculture and agri-processing sectors. Both provinces recognize the mutual benefits of developing common responses to the challenges facing these sectors. The competition objectives are as follows:

- develop solutions to agri-food issues shared by Quebec and Ontario
- encourage partnerships between Quebec and Ontario researchers
- enhance graduate student training through internships in the cooperating province

**Funding Details:** Awards of up to $250,000 per project are available (to be shared equally between an Ontario and Quebec applicant). Projects can be up to three years in length.

Additional Details

**Internal HRS Deadline:** September 6, 2017

**Sponsor Deadline:** September 20, 2017
**Leukemia & Lymphoma Society (LLS): Specialized Center of Research Program**

LLS’s Specialized Center of Research (SCOR) grant program is intended to bring together established investigators from one or several institutions to develop a focused research program, foster new interactions and cooperation, and enhance interdisciplinary research among the participants. The overall goal of this mechanism is to enhance the development of innovative strategies for the treatment, diagnosis or prevention of hematological malignancies. Strategies that move discoveries from the bench to the clinic are of high importance as are integrated translational projects. A major focus is translatable to the clinic within the time frame of the SCOR, or shortly after the grant term ends.

**Funding Details:** The maximal annual total cost is $1,000,000 for each year of the five year grant. The maximum annual direct cost is $833,333.33 while the maximum annual indirect cost is $166,666.66.

**Additional Details**

**LOI Deadline:** September 22, 2017 3:00 PM ET

---

**Alex’s Lemonade Stand Foundation – Nurse Researcher Fellowship**

The Nurse Researcher Fellowship grant aims to support early career nurse researchers who will be guided in their projects by a mentor and their institution. The fellowship’s goal is to train Ph.D. and Masters level nurse researchers to initiate and lead a multi-site research project. With support from an experienced nurse research mentor identified by ALSF, fellowship recipients will develop a team within their own institutions as well as partnerships at other institutions to implement their proposed research study. A formal curriculum focuses on developing multi-site investigator skills as part of the Fellowship.

**Funding Details:** This grant totals **$100,000 over 2 years**. Successful completion of the Fellowship should position investigators to apply for the ALSF Nursing Discovery grant or NIH research grants.

**Additional Details**

**Internal HRS Deadline:** September 11, 2017 3:00 PM ET

**Sponsor Deadline:** September 25, 2017 at 11:59PM (Eastern Time)

---

**Québec Consortium for Drug Discovery (CQDM): Quantum Leap**

The objective of the Quantum Leap program is to support highly innovative technologies, platforms or tools with strong preliminary data showcasing high potential to drastically improve, facilitate and accelerate the process of discovery and development of drugs that prevent, treat or cure diseases pursued by the biopharmaceutical industry. The research agenda extends to all scientific and technical fields related to biopharmaceutical R&D and all disciplines to enhance and improve biopharmaceutical research productivity. The Quantum Leap strategic initiative aims to bring disruptive technologies or platforms to a point where services and/or products generated by the platforms could be commercialized, or further developed for use by the industry and/or the scientific community. The program strongly encourages public-private partnerships.

**Funding Details:** CQDM will consider applications with a total budget ranging from $500,000 to $2,000,000 for a minimum 1 year, and a maximum of 3 years.

**Additional Details**

**Internal HRS Deadline:** September 13, 2017 3:00 PM ET

**Sponsor Deadline:** September 27, 2017 at 11:59PM (Eastern Time)

---

**Cystic Fibrosis Canada: Research Programs and Research Awards**

Cystic Fibrosis Canada has announced the following:

1) **Research Programs: Basic Science Research Grants** and **Clinical Research Grants**

   • **Basic Science**, the objective: to support innovative, basic science research projects that improve our understanding of CF and/or have a significant impact on the concepts, methods, treatments and/or technologies applicable to CF.

   • **Clinical**, the objective: to support clinical research projects that improve the health and/or quality of life of CF patients and/or bridge the gap between research and clinical care. (review Application form for accessing Canadian CF Registry Data at [http://www.cysticfibrosis.ca/our-programs/cf-registry/requesting-canadian-cf-registry-data](http://www.cysticfibrosis.ca/our-programs/cf-registry/requesting-canadian-cf-registry-data))
2) **Early Career Investigator Awards**, the objective: to provide early career investigators an opportunity to develop outstanding CF research programs and build a team, through operating grant support, without having to compete against established investigators.

**Funding Details:**
- **Basic Science:** The amount of a grant will be approved by the Board of Directors, with recommendations from the scientific review panel and Research Advisory Council, following a detailed review of the applicant's proposed budget. (maximum 3 years, renewable 1-3 years)
- **Clinical:** same as above (maximum 3 years, renewable 1-3 years)
- **Early Career Investigator:** (same as above) (duration: 1 or 2 years)
- **Travel allowance for all the above:** $1,565 per year

**Multiple Sclerosis Society of Canada: Operating Grants**
The Operating Grant Program is intended to support various research operations in all aspects of multiple sclerosis (MS) and defray the normal operating costs of carrying out a specific research proposal. The MS Society welcomes applications that are fundamental as well as applied studies, nonclinical or clinical in nature, including projects in patient management, care and rehabilitation.

Based on the nature of the research, the candidate can apply for one of the following awards:
- Operating grant: Biomedical research
- Operating grant: Clinical and Population Health research

**Funding Details:**
- **Biomedical Research** – Approximately $100,000 per year for up to three years (renewable).
- **Clinical and Population Health Research** – Approximately $100,000 for up to three years (renewable).

**Multiple Sclerosis Society of Canada: Clinical and Population Health Pilot Grant**
The pilot grant program awards seed funding that allows researchers to develop and test new and innovative research questions and pursue pioneering approaches that have the potential to impact the MS field in topics related to Clinical and Population Health (CPH). Objectives of the pilot grant program are to enable researchers to test novel and high-potential MS research ideas, collect key preliminary data to support further research, test the feasibility of a study design, concept, or intervention on a small scale, and to provide researchers a trajectory to larger grant competitions. Projects that are extensions of ongoing research that have ample supporting data will not be considered.

**Funding Details:** Approximately $50,000 for up to 2 years (non-renewable).
Women’s College Hospital, Women’s Xchange: $15K Challenge

Women’s Xchange is offering grants to support research projects that address women’s health issues at the local level. Potential Projects may include:

- Identifying unmet needs within a defined community
- Exploring or testing effective solutions to problems
- Increasing the understanding of factors that influence women’s health

This award is available to community organizations or to collaborations between community organizations. Academic organizations can only apply to this funding stream when partnered with a community organization.

Funding Details: $15,000/year for one year (non-renewable)

Additional Details
LOI Deadline: September 4, 2017
Internal HRS Deadline: September 21, 2017
Sponsor Deadline: October 5, 2017

The Kidney Foundation of Canada (KFOC) Allied Health Research Grant

The purpose of the Allied Health Research Grant is to encourage allied health professionals to pursue research relevant to the areas of nephrology and organ donation, including clinical, health services, social, cultural, environmental and population health research. To be eligible for this grant, the nominated principal applicant must be an allied health professional.

Funding Details: Maximum $50,000 per year for up to two years.

Additional Details
Internal HRS Deadline: October 1, 2017
Sponsor Deadline: October 15, 2017
*To apply for this grant, the applicant must submit a PDF copy of the full application by email to Christine Marquis*

Fulbright Scholar Program: Fulbright Arctic Initiative

Selected scholars will participate in an individual Fulbright exchange of a minimum of six weeks and a maximum of three months, as well as in-person seminars and ongoing virtual communication, all supporting the scholars’ required collaborative research projects. Scholars will be selected on the basis of an individual research project linked to an exchange visit and potential to collaborate in a group research project in one of two thematic areas described below.

- Resilient Communities
- Sustainable Economies

Funding Details: $40,000 USD for the duration of the program (18 mos.)

Additional Details
Internal HRS Deadline: October 2, 2017
Sponsor Deadline: October 16, 2017
Penn Medicine Orphan Disease Center: 2017 Million Dollar Bike Ride Pilot Grant Program

The 2017 Million Dollar Bike Ride Pilot Grant Program provides a one-year grant to support research related to a rare disease represented in the 2017 Million Dollar Bike Ride. Thirty-three total grant opportunities are listed.

Funding Details: The number of awards and dollar amounts vary per disease based on fundraising totals by each disease team. Please see the “Additional Details” link for further information. The duration for these awards is for one year.

Additional Details
LOI Deadline: September 18, 2017
Internal HRS Deadline: October 4, 2017
Sponsor Deadline (By invite only): October 18, 2017

HHS JHCCF Fall 2017 Research Grant

Juravinski Hospital and Cancer Centre Foundation’s (JHCCF) main purpose is to champion and advance the vision and mandate of the Juravinski Cancer Program (JCP). As part of its commitment to research, the Foundation sponsors a Research Grant Program that awards funding through a rigorous peer reviewed application process, once or twice yearly.

To be eligible, the principal investigator or co-principal investigator must work at Hamilton Health Sciences (HHS) or be a full member of the Department of Oncology at McMaster University.

Funding Details: Total Research Funds Available – $400,000
- Research Development Grants – Maximum Funding $50,000
- Thematic Research Grants – Maximum Funding $100,000
- Research Specific Topics
  - BRIGHT Run – $100,000 available in support of Breast Cancer Research
  - Kuhn Award in Memory of Jay Kuhn – $10,000 available in support of Hodgkin Disease or non-Hodgkin Lymphoma Research

Additional Details
Sponsor Deadline: October 23, 2017
*For Additional Information please contact Gwen Flynn, Donor Relations and Grant Associate at flynn@hhs.ca*

HHS Health Professional Investigator (HPI) Operating Grant

The HPI Operating Grant provides project funding to non-physician principal investigators (PI) who are HHS-employed healthcare professionals. Inter-professional teams, which include physicians, are encouraged, but physicians are not eligible to apply as lead PI for this grant. The HPI Operating Grant is for research initiatives directly relevant to the clinical mission and priorities of HHS (Patients, People, Sustainability, Innovation and Learning). The grant objective is to provide support for pilot studies or research projects that have the potential to lead to larger projects and the possibility of external funding. The HPI Operating Grant offers an opportunity to foster and support a culture of inquiry for early investigators under the mentorship of experienced researchers.

Funding Details: up to $15,000 per grant, three grants available for a one-year term.

Additional Details
Sponsor Deadline: October 28, 2017
**Canadian Orthopaedic Foundation: Canadian Orthopaedic Research Legacy (CORL) Grant**

In this proposal, applicants are expected to provide a systematic, logical description of the project or line of research, which demonstrates familiarity with the subject matter and a carefully formulated plan of implementation. The rationale, the project plan, the methods and procedures to be used, the mode of analysis to be employed should be clearly outlined. In general terms, the proposal describes the work, proceeding from general theoretical considerations to the specific project, culminating in a budget. The budget qualifies the work in terms of personnel, materials, services or other requirements.

**Funding Details:** Maximum $20,000 for one year.

**Additional Details**
Internal HRS Deadline: October 17, 2017
Sponsor Deadline: October 31, 2017

**Canadian Orthopaedic Foundation: J. Edouard Samson Award**

The premier award for orthopaedic research in Canada, the J. Edouard Samson Award, recognizes the best career orthopaedic research over a period of five (5) years or more at a Canadian centre. This $30,000 award is intended to promote further research by the recipient. The recipient will present his/her research at the Annual General Meeting of the Canadian Orthopaedic Association (presentation opportunity to be determined). The award consists of an educational grant and a personal research grant to be used by the recipient at the Canadian institution where he/she currently resides.

**Funding Details:** $30,000 award

**Additional Details**
Internal HRS Deadline: October 17, 2017
Sponsor Deadline: October 31, 2017

**Michael G. DeGroote Fellowship Awards**

Awards are available in two categories: the Michael G. DeGroote Fellowship Award in Basic Biomedical Science and the Michael G. DeGroote Fellowship Award in Clinical Research. Candidates conducting basic science research are eligible for the Basic Biomedical Science Fellowship Award and those pursuing clinical research are eligible for the Clinical Research Fellowship Award. Applicants must identify in their application which award they are applying for. Separate selection committees will review the respective applicants for each award.

**Funding Details:** Each award provides non-renewable funding of $50,000 for one year for successful applicants. The funding is comprised of $40,000 from the Michael G. DeGroote Health Sciences Development Fund and $10,000 contributed by the applicant’s supervisor.

**Additional Details**
Sponsor Deadline: November 1, 2017

*To apply, visit [http://fhs.mcmaster.ca/mgdfa/](http://fhs.mcmaster.ca/mgdfa/) and apply online.*

**Physicians’ Services Inc. Foundation Funding Opportunity: Graham Farquharson Knowledge Translation Fellowship 2018**

This Fellowship is intended to provide salary support for a new Ontario investigator, who has demonstrated the ability to successfully complete high impact knowledge translation research. The Fellowship’s funds, dedicated to salary support, must protect at least 50% of the Fellow’s time to conduct such research.

**Funding Details:** $150,000 per year for two (2) years OR $100,000 per year for three (3) years.

**Additional Details**
LOI Deadline: September 15, 2017
Internal HRS Deadline: November 1, 2017
Sponsor Deadline: November 6, 2017

For more information please contact Catherine Gill Pottruff x22057
Canadian Frailty Network (CFN): 2017 Catalyst Grant Competition, Call for Proposals: Medication Optimization for older adults living with frailty

The Canadian Frailty Network invites qualified researchers to submit applications focused on CFN’s Research Priority, medication optimization for Canadians living with frailty, under their CAT Grant Program. The CAT Grant Program supports scalable research studies including pilot, feasibility and translational studies that investigate novel and innovative approaches/methodologies/technologies. Studies must focus on older Canadians living with frailty and/or their families and caregivers.

**Funding Details:** Projects with multidisciplinary, multi-institutional teams will be funded for up to 16 months and to a maximum of $100,000. Proposals must include partners who have committed cash or eligible in-kind contributions on a 1:1 basis to CFN funding.

**Additional Details**
- **LOI Deadline:** October 6, 2017
- **Internal HRS Deadline:** October 30, 2017
- **Sponsor Deadline:** November 13, 2017

Leukemia & Lymphoma Society (LLS): Translational Research Program

The LLS Translational Research Program was created in 1995 with the goal of accelerating clinical applications of laboratory findings relevant to improved diagnosis and management of leukemia, lymphoma, myeloma and other hematopoietic malignancies. In particular, the LLS Research staff and Medical and Scientific Affairs Committee encourage the submission of research proposals that are designed to accomplish one of the following:

- Personalized medicine approach for cancer treatment.
- Development of novel therapies and/or novel therapeutic strategies including those that target mutational and epigenetic events within the microenvironment.
- Improvements of safety and efficacy of stem cell transplantation.
- Long-term outcome assessment following therapies.
- Progress in understanding neoplastic stem cell growth and differentiation as well as cancer cell/microenvironmental interactions especially with translation to novel therapies.
- While significant progress has been made against some of the pediatric diseases, LLS recognizes and calls for proposals designed to advance therapies in pediatric indications with novel approaches or to minimize therapy-related effects of existing treatments.

**Funding Details:** Limited to a maximum of $200,000 (direct costs and a maximum overhead of $19,982 or 11.1% of direct costs) per year for 3 years.

**Additional Details**
- **LOI Deadline:** September 29, 2017
- **Internal HRS Deadline:** November 1, 2017
- **Sponsor Deadline:** November 15, 2017

Fulbright Canada: Awards for Canadian Scholars

Fulbright Canada has announced the following Awards for Canadian Scholars:

1. **Canadian Traditional Scholar Awards**, the objective:
   1) To support Canadian scholars in all disciplines,
   2) To enable emerging and established scholars, post-doctoral researchers and experienced professionals to conduct research, teach, or undertake a combination of both activities at any university or research center of their choice, in the United States. Fulbright Canada is particularly interested in encouraging research on contemporary issues relevant to Canada, the United States, and the relationship between the two countries. ([http://www.fulbright.ca/programs/canadian-scholars/traditional-awards.html](http://www.fulbright.ca/programs/canadian-scholars/traditional-awards.html))
2) **Canadian Visiting Research Chairs**: are pre-arranged affiliations that allow scholars to conduct research/lecture on subjects important to that university. Fulbright Visiting Research Chairs may guest lecture in university courses, mentor students, lecture in public venues, network and promote their research while representing the Fulbright program, their home and host institutions. ([http://www.fulbright.ca/programs/canadian-scholars/visiting-chairs-program.html](http://www.fulbright.ca/programs/canadian-scholars/visiting-chairs-program.html))

**Funding Details:**
- **Canadian Traditional Scholar Awards**: The award is valued at $12,500 USD for 1 semester (4 months)
- **Canadian Visiting Research Chairs**: The award is valued at $25,000 USD for 1 semester (4 months)
- Both awards beginning in either September 2018 or January 2019.

**Additional Details:**
- **Internal HRS Deadline**: November 1, 2017
- **Sponsor Deadline**: November 15, 2017

**HHS Research Early Career Awards**
The Hamilton Health Sciences Research Early Career Awards (ECA) are research personnel stipends awarded annually. These Early Career Awards are to be used to help the applicant pursue research in their specialty area through either purchasing a portion of time for the applicant’s salary OR a portion of time for salaries of research personnel who are supervised by the applicant. Candidates must be staff members of Hamilton Health Sciences, or members of HHS research institutes, and must hold a faculty appointment.

**Funding Details:** up to $50,000 annually, for up to 3 years.

**Additional Details:**
- **Sponsor Deadline**: November 15, 2017

**Pediatric Oncology Group of Ontario (POGO) Seed Funding Grant**
POGO offers annual Seed Funding grants of up to $15,000 to facilitate or support feasibility studies, the development of preliminary data to enable applications to other granting agencies, or self-contained studies. Interested applicants should email Dina Skvirsky dskvirsky@pogo.ca expressing their intent to submit a full application. The registration email must contain the following:
- Project Title
- Name of the primary investigator and all co-investigators
- A half page lay summary of the proposed project

**Funding Details:** up to $15,000

**Additional Details:**
- **LOI Deadline**: October 6, 2017
- **Internal HRS Deadline**: November 3, 2017
- **Sponsor Deadline**: November 17, 2017

**Pediatric Oncology Group of Ontario (POGO) Fellowship Training**
POGO has established two research fellowships:

1) **PhD/Post-Doctoral Fellowship** – The PhD/Post-Doctoral Fellowship will be awarded to either an applicant working toward a PhD or to a post-doctoral research candidate, with a background in any of the relevant disciplines (including medicine and nursing). While applicants may have training and/or experience in areas not directly related to POGO activities, they will be required to demonstrate relevance to pediatric oncology.

**Funding Details**: A yearly salary of $45,000 (Post-Doctoral), or $30,000 (PhD) and the ability to apply for $5,000 in project specific one-time operating support. (1 fellowship of 1 to 3 years duration)

2) **Clinician Scholar Award** – The Clinician Scholar Award is open to licensed clinicians and health practitioners of any discipline working in the field of pediatric oncology. Applicants may have limited research experience although they have a strong interest in research.
Funding Details: A yearly salary of $55,000, and the ability to apply for $5,000 in project specific one-time operating support. (1 fellowship of 1 or 2 years duration)

Interested applicants should email Dina Skvirsky dskvirsky@pogo.ca expressing their intent to submit a full application. The registration email must contain the following:
- Type and duration of Fellowship Award
- Project Title
- Name of primary investigator and all co-investigators
- A lay abstract of the project (not to exceed ½ a page)

Additional Details:
LOI Deadline: October 6, 2017
Internal HRS Deadline: November 3, 2017
Sponsor Deadline: November 17, 2017

Leukemia & Lymphoma Society (LLS): RTFCCR/LLS Patient-Focused Prevention
The Rising Tide Foundation for Clinical Cancer Research and the Leukemia & Lymphoma Society are partnering once again to launch an international competitive grant to advance breakthroughs in prevention for blood cancers. The grant is focused on addressing four critical topics:
- Clinical Trials
- Biomarker Evaluation
- Use experimental systems
- Drug the “undruggable”

The grants must be translational in nature. Ideally, the applications will have a clinical trial proposed, or could lead to a clinical trial. Applications that are solely laboratory-based without consideration of using patient samples or future clinical testing will not be accepted for review.

Funding Details: This grant totals USD $3 million; 3-5 grants will be awarded ranging from $0.6 – 1.2 M each.

Additional Details
LOI Deadline: October 1, 2017
Internal HRS Deadline: January 18, 2018
Sponsor Deadline: February 1, 2018

Spencer Foundation: Lyle Spencer Research Awards, Advancing Understanding of Education Practice and Its Improvement
The objective of the Lyle Spencer Research Award is to support intellectually ambitious, large-scale education research projects across a variety of disciplines and fields. Spencer intends through this endeavor to press colleagues in the research community to raise their level of intellectual ambition, to encourage work that is more 1) thoughtful, 2) critical of prevailing assumptions, 3) self-critical regarding his/her work and its limitations, 4) relevant to the aim of building knowledge for improved educational practice.

Funding Details: Lyle Spencer Research Award budgets are limited to $1,000,000, including indirect costs

Additional Details
LOI deadline: October 12, 2017
Sponsor Deadline (By invite only): February 2018
**Canadian Foundation for Dietetic Research: CFDR 2018 Research Grant**

The objective of the CFDR is to fund research projects in nutrition and dietetics to

1) Contribute to the existing knowledge base
2) Enhance dietetic practice, and
3) Ultimately build a healthier Canada.

Grants are awarded in the following categories:

- Outcomes of intervention: objective measures of the effect of a nutrition intervention in all practice areas.
- New roles for Dietitians in meeting health needs of all Canadians: implementation and evaluation of novel service delivery in new environments.
- Identification of vulnerable groups and their nutritional needs: enhanced understanding of who are the nutritionally vulnerable, their nutritional needs, and means to address these needs.
- Determinants of food choice: identification of factors and attitudes that influence the food choices made by consumers.

**Funding Details:** CFDR’s maximum grant size is $20,000. This includes dissemination/travel costs of up to $1,000.

**Additional Details**

**LOI deadline:** September 15, 2017

**Internal HRS Deadline:** February 15, 2018

**Sponsor Deadline (By invite only):** March 1, 2018

---

**2019 Networks of Centres of Excellence Competition**

The Networks of Centres of Excellence (NCE) is pleased to announce the launch of a competition for NCE networks. The funding available is $75 million over five years. Approximately 40% of the budget will be allocated to fund new networks that meet the threshold of excellence in all criteria. While it is anticipated that at least 40% of the budget will fund new networks, no portion of the budget will be specifically reserved for either new or established networks. As in all NCE competitions, funds will be allocated to the most meritorious applications that meet the threshold of excellence in all criteria.

Networks must be challenge-focused and solution-driven. They are expected to foster innovative research, training and the co-creation of new knowledge on critical issues of intellectual, social, economic and cultural significance. They must engage partners in the design and execution of all network activities, including knowledge creation, mobilization and exploitation. Both new and established networks are eligible to apply for funding in this competition. Established networks are defined as NCE networks that have been awarded NCE funds for all available funding cycles and whose final NCE funding term has ended or will end by March 2019.

Networks are expected to promote equity, diversity and inclusion within the structure of the proposed network and its activities.

**Funding Details:** The total budget for this competition is currently set at $75M over 5 years ($15M/year). Approximately 40% of this budget will be allocated to fund new networks that meet the threshold of excellence.

**Additional Details**

**DRAFT LOI to HRS for review due:** October 16, 2017

**LOI due to NCE:** November 15, 2017

**Sponsor Deadline (By invite only):** July, 2018

*If you plan to submit an LOI please notify Tracy Arabski, Associate Director, HRS, at arabski@mcmaster.ca or ext. 22515*
MITACS Globalink Research Award – Special Opportunity

The Mitacs Globalink Research Award supports international research collaboration. Special research funding is available for graduate students with uncertain status in their current location, to conduct research at a Canadian university.

**Funding Details:**

- $5,000 award from Mitacs to support student travel and accommodation expenses, research-related expenses, and student stipend
- 12-24 week project at a Canadian university Supervised by Canadian faculty
- Applications are accepted at any time and will be processed as received.

**Additional Details**

**Sponsor Deadline:** Ongoing

---

**Canadian Institute for Advanced Research (CIFAR), Call for Proposals: International & Interdisciplinary Research Workshops – Open Call**

CIFAR is announcing the launch of a new opportunity to explore key questions of global importance that can best be addressed through interdisciplinary, international teams. We have designed a research workshop program for short-term, time-limited interactions of 10 to 20 people.

**Funding Details:** A high-level budget is required for up to a maximum of $50,000 CAD

**Additional Details**

**Sponsor Deadline:** Ongoing

---

**Simons Foundation, Simons Foundation Autism Research Initiative (SFARI): SFARI Explorer Award**

This award program is designed to enhance our existing support of autism research by providing timely resources to enable focused experiments highly relevant to our mission. A deeper understanding of the mechanisms underlying autism spectrum disorders or potential therapeutic approaches will require investigation at multiple levels, including but not limited to studies focused on gene discovery, molecular mechanisms, circuits, anatomy, and cognition and behavior. We will consider proposals at all of these levels.

**Funding Details:** SFARI will support applications for maximum of $70,000, including indirect costs, for one year, non-renewable.

**Additional Details**

**Sponsor Deadline:** Ongoing

---

**Department of Defense Epilepsy Research Program (ERP) Funding Opportunities for Fiscal Year 2017**

The ERP’s mission is to fund research to understand the magnitude, and the underlying mechanisms of Post-Traumatic Epilepsy (PTE), especially in Service members and Veterans.

**FY17 ERP Focus Areas:** Applications should also address at least one of the following FY17 Focus Areas. An application that proposes research outside of the FY17 Focus Areas is acceptable, as long as the applicant provides a strong rationale. The Focus Areas will be mechanism-specific.

**FY17 ERP Focus Areas are as follows:**

**Epidemiology:** Epidemiological characterization of PTE following TBI, which may include:
- Risk factors such as demographics, genetic factors, organic head injury factors, or type of insult
- Differentiation of PTE and Psychogenic Non-Epileptic Seizures (PNES)
- Outcomes including latency to epilepsy, morbidities and comorbidities, and mortality
- Pre-existing conditions including psychological and psychiatric risk factors

**Markers and Mechanisms:** Identifying markers or mechanisms (via clinical prospective or preclinical models) that address PTE:
- Early detection
- Diagnosis
- Prognosis
- Morbidity
- Comorbidity
- Mortality
- Risk stratification

**Models of PTE:** Development of new models or better characterization of existing etiologically relevant models for PTE, including repetitive TBI.

**Psychogenic Non-Epileptic Seizures:** Exploration of the epidemiology, mechanisms, risk factors, or markers of PNES subsequent to TBI.

**Funding Details:**

- **Idea Development Award**
  - **Level I** - Maximum funding of $300,000 for direct and indirect costs for a maximum of 2 years
  - **Level II** – Maximum funding of $500,000 for direct and indirect costs for a maximum of 3 years

- **Epilepsy Risk Factors Award** – Funding limit is $300,000 in direct costs for a maximum of 2 years

**Additional Details**

**LOI Deadline:** September 6, 2017 (A pre-application is required and must be submitted through eBRAP)

**Internal HRS Deadline:** September 13, 2017

**Sponsor Deadline:** September 20, 2017

---

**Department of Defense Peer Reviewed Alzheimer’s Research Program (PRARP) Funding Opportunities for Fiscal Year 2017**

Four awards are available. Please refer to additional details link for more information from the DoD website.

**Funding Details:**

- **Convergence Science Research Award** – Maximum Funding of $500,000 for up to 3 years
- **Quality of Life Research Award** - $500,000 in direct costs for up to 3 years
- **New Investigator Award** - $225,000 in direct costs for up to 3 years
- **Research Partnership Award** - $1.3M in total costs for up to 3 years

**Additional Details**

**LOI Deadline:** September 6, 2017 (A pre-application is required and must be submitted through eBRAP)

**Internal HRS Deadline:** September 13, 2017

**Sponsor Deadline:** September 20, 2017

---

**Department of Defense Alcohol and Substance Abuse Disorders Research Program (ASADRP) Funding Opportunities for Fiscal Year 2017 – Consortium Award**

The ASADRP is seeking applications to explore integrated approaches to address alcohol and substance use disorder (ASUD) especially related to traumatic brain injury (TBI) and post-traumatic stress disorder (PTSD) through multidisciplinary, team-based research efforts that translate basic knowledge into enhanced clinical pharmacological treatments protocols.

- The program’s approach is to organize multidisciplinary, team-based translational research efforts to:
  - Identify promising compounds;
  - Conduct proof-of-principle basic research to determine which compounds are most appropriate for human research trials;
  - Conduct human proof-of-concept trials with promising compounds. This approach should accelerate the translation of contemporary basic science knowledge into enhanced clinical pharmacological treatment protocols for ASUD, including a regulatory strategy for U.S. Food and Drug Administration (FDA) compliance.
**Department of Defense Reconstructive Transplant Research Program (RTRP) Funding Opportunities for Fiscal Year 2017**

Four new awards are available. Please refer to additional details link for more information from the DoD website.

**Funding Details:**
- **Concept Award** *(LOI due November 15, 2017)* – Maximum Funding of $200,000 for total costs for a maximum of 18 mos.
- **Investigator-Initiated Research Award** – Maximum funding of $1M for total costs for a maximum of 3 years.
  - **Multiple PI Option** – Maximum funding of $1.5M for total costs for a maximum of 3 years.
- **Technology Development Award** – Maximum Funding of $1M for total costs for a maximum of 3 years.
  - **Partnering PI Option** – Maximum funding of $1.5M for a total of 3 years.

**Department of Defense Breast Cancer Research Program (BCRP) Funding Opportunities for Fiscal Year 2017**

Six new awards are available. Please refer to additional details link for more information from the DoD website. Please see below for detailed deadlines.

**Funding Details:**
- **Innovator Award II** – Maximum funding of $5M for direct and indirect costs for a maximum of 4 years.
- **Breakthrough Award Levels 3 and 4 II:**
  - **Funding Level 3** – Maximum funding of $2.5M for direct and indirect costs for a maximum of 4 years.
  - **Funding Level 3 with Partnering PI Option** - Maximum funding of $4M for direct and indirect costs for a maximum of 4 years.
  - **Funding Level 4 and Funding Level 4 with Partnering PI Option** – Maximum funding of $10M for direct and indirect costs for a maximum of 4 years.
