

IPE GUIDELINES ON CREATING LEARNING OBJECTIVES

These Guidelines have been developed to assist in the creation of learning objectives for a proposed IPE event.

Step 1: Describe the information, skills, behaviours, or perspectives participants in the session will acquire through attendance and participation

Step 2: Clearly identify the outcomes or actions participants can expect to demonstrate as a result of the educational experiences. See the list of action words, below.

Step 3: Write the learning objectives that relate to these outcomes and that reflect the content of the session. Objectives describe the behaviour of the learner and:

- Are stated clearly
- Define or describe an action
- Are measurable, in terms of time, space, amount, and/or frequency.

- Does the learning objective stem from a course goal or objective?
- Is the learning objective measurable?
- Does the learning objective target one specific aspect of expected performance?
- Is the learning objective student-centred?
- Does the learning objective utilize an effective, action verb that targets the desired level of performance?
- Do learning objectives measure a range of educational outcomes?
- Does the learning objective match instructional activities and assessment?
- Does the learning objective specify appropriate conditions for performance?
- Is the learning objective written in terms of observable, behavioral outcomes?
