Electives in Surgery
OR Orientation and Scrub Sessions

Once you have arranged your elective with the Department of Surgery, you will need to attend an OR Orientation and Scrub Session (prior to your first day in the OR).

It is recommended that you arrange an Orientation and Scrub Session in the OR where your surgeon works. In the unusual event that this cannot happen, please contact one of the other OR Educators to attend a session.

Orientation/Scrub Sessions will be held monthly from September until June of each year. A minimum of 4 students is required in order for the session to be held, and sessions can run with a maximum of 8 students.

You will need to contact the OR Educator to put your name on the list for the scrub session. Below is the schedule of scrub sessions and contacts:
